Proceedings of the Madras Government, Public Department,

13th December 1870.

No. 71. Read the following letter from the President of the Municipal Commission, Trichinopoly, to the Chief Secretary to Government, Fort Saint George, dated Trichinopoly, 2nd December 1870, No. 48:—

I have the honour to acknowledge the receipt of Extract from the Proceedings of Government, under date the 23rd ultimo, No. 1515, Public Department, regarding the neglected state of the drainage of the Fort and Town of Trichinopoly, as brought to notice by the Deputy Inspector-General, Southern District, and, in reply, have much pleasure in informing the Government that, since the date of the Deputy Inspector-General's letter, very considerable progress has been made in improving the drainage.

2. On the east side of the Fort, and where the reclamation is nearly complete, one large stone drain, for the outlet of the Thipparantatti drainage channel, has been completed and has acted well; two more are now under construction at present; and at the north-east and south-east angles of the Fort, it is also in contemplation to add two others. I may also add that the whole of the drains in the main bazaar in the centre street of the Fort and extending for upwards of a mile have, during the past year, been thoroughly cleared out, and in many cases altogether rebuilt, and as funds permit and the filling up of the moat is proceeded with, due provision will be made for providing outlets for the remaining drainage.

3. In Varaganary, where the Lines of the 9th Regiment, N. I., are situated, the drainage is good, but the levels do not admit of a great outfall. In Pootoor, and street has been newly levelled and raised, and, by the construction of four culverts therein, the drainage of the men's lines has been materially improved.

4. The Government will, I hope, rest assured that any requisition, on the part of the Military or Medical authorities, on these points, will be at once attended to by the Commissioners.

No. 72. ORDER THEREON, 13th December 1870, No. 1618.
Communicated to the Military Department.
(True Extract.)

Chief Secretary.

are now under Construction at present,
and at the North-East and South-East Angles
of the Fort it is also in Contemplation
to add 2 others. I may also add that the
Whole of the drains in the main bazaar
in the Centre street of the Fort and
extending for upwards of a mile have
during the last year been thoroughly
cleaned out and in many cases al-
together rebuilt, and as funds permit
and the filling up of the Duak is proceed-
ed with, due provision will be made
for providing outlets for the remaining drainage.
3. In Paraganahy where the Lines of
the 9th Regiment P.S. are situated the
drainage is good but the levels do not
admit of a great outfall. In Pootoor
and where the 26th Reg^t P.S. are quartered
the main bazaar of the Regiment street
has been newly levelled and raised and
by the Construction of 4 Culverts
therein, the drainage of the main lines
has been materially improved -

4. The Government will I
hope

hope rest assured that any requisitions
on the part of the Military or Medical
Authorities on these points will be at
once attended to by the Commissioners
