2. The Chief Justice and Judges of the High Court are of opinion that the forms of returns in use are not capable of modification either in number or size. They add that they are about to require an additional return from all Courts of the amount of fees, fines, and penalties, and, when the rules contemplated by Section 2 of Act VII. of 1870 have been framed, there will be further an annual statement of the amount of process fees; but the annual statement of surplus process fees, and the monthly statements of batta for service of notices issued by the High Court, will be discontinued.

3. The reports and periodical returns submitted to the Public Works Department of the Government Secretariat cannot, in the opinion of Government, be reduced either in number or form. The accounts and returns rendered to the Controller of Public Works Accounts are those required by the Manual. Reference has been made to the Superintending Engineers to ascertain what reports and returns are now furnished to them by their Subordinate Officers, and whether any of them can be dispensed with.

4. The reply from the Military Department shows that in the following Departments reductions can be made in the number of returns received at present:—

<i>Departments.</i>	<i>Reductions.</i>
Adjutant-General	3 Returns.
Quarter-Master-General	8 do.
Military Accountant	17 Statements and 1 Register, and the size of several forms.
Brigade Major	7 Returns, 1 Daily Report to be made weekly, and 5 Statements to be embodied in one.
Inspector-General of Ordnance and Magazines	2 Returns and 1 Annual Return to be made biennially, 1 Quarterly Report to be made half-yearly, 1 Monthly Report to be made quarterly.
Superintendent of Pensions and Family Payments	1 Return.

5. These reductions will be carried out as early as practicable.

6. The Inspector-General of Police states that considerable reductions have recently been made in the number of returns and statements, and in the strength of office establishments in the Police Department. He brings to notice that a considerable saving has been effected by altering the practice of presenting charge sheets in duplicate, but that some few Magistrates still require the sheet in duplicate, and that this entails extra expense. The Government are of opinion that the alteration accepted by most Magistrates should be generally adopted, and authorize the Inspector-General of Police to give effect to it.

7. The periodical returns furnished to the Inspector-General of Jails are, it is observed, prepared in accordance with the forms received with the Resolution of the Government of India, dated the 21st February 1870, No. 359. The question regarding prisoners earning remission, referred to in the Inspector-General's letter, dated the 5th October 1870, No. 106, and upon which he states depends whether two returns can be dispensed with, will be separately disposed of. In the meantime, the Inspector-General of Jails will be informed that one Return of State Prisoners, in the form received from the Government of India, will be sufficient.

8. The Judges of the Small Cause Court, Madras, propose to discontinue three statements in one of the five periodical returns of cases instituted in the Court. The remaining four returns are necessary.

9. The Acting Registrar-General of Assurances states that the reports and returns received from the Registrars in the Provinces are few and are such as are required. When, however, the new forms prescribed by the Government of India, in their Resolution, dated the 24th March, No. 1630, are adopted, a revision of the returns obtained from the Provinces will be necessary, to adapt them to the new forms, and the opportunity will, it is stated, be taken to reduce or dispense with any unnecessary returns.

10. The Committee for the Examination of Assistants appear to have used every possible means to reduce the number of reports, &c., furnished by them.

11. The reports and returns in use in the Indian Medical Department are, the Inspector-General affirms, absolutely essential for the due administration and working of the Department.

12. The Sanitary Commissioner promises to give his constant attention to the simplification of forms that are necessary, and to the abolition of forms of returns which have ceased to be of practical value. He mentions that the Board of Revenue and himself furnish separate reports and returns of deaths for the official and calendar years, prepared from the same set of figures, and leaves it for the Government to determine whether the Board's report and return are required, now that the vital statistics of the population come under the review of the Sanitary Commissioner.

The Board of Revenue, to whom the Sanitary Commissioner's letter was referred, "apprehend that, if these special reports were done away with, and the duty of "Collectors restricted to the despatch of the bills of mortality to the Sanitary Commissioner, active interest in the subject, and the habit of analysis and comparison of these statistics which is fostered by the present system, will both die out

4
" in course of time. They are, therefore, strongly of opinion, keeping in view also
" the great importance which the Secretary of State attaches to this duty being
" duly performed by Collectors, that the annual reports on the health of districts,
" now submitted through the Board of Revenue, should not be discontinued."

" The Board also observe that the very brief notice now allotted to the vital
" statistics of the civil or general population in the body of the Sanitary Commis-
" sioner's annual reports is not adequate to its importance. It is quite true that
" the statistics of each district are given, *in extenso*, in the tables appended to his
" report; but, left in the midst of a mass of returns connected with the health of the
" Army, the Cantonments, and the Municipalities, they fail to attract prominent
" attention."

The Board of Revenue having shown good reasons for working the present system under which reports on the public health of districts are furnished, the Government, in their Order, dated the 10th July last, No. 870, have recorded their opinion that the system should be maintained.

13. The Protector of Emigrants proposes to submit the return of emigrant ships now sent by him monthly, immediately after a ship leaves the port. He thinks the nine abstract statements submitted with his Administration Report might be modified and reduced, and, with this view, suggests that statements Nos. 1, 2, 4, and 5 be discontinued, the information contained in them being given in statement No 7. He would amalgamate statements 3 and 6, and discontinue statements Nos. 8, 9, and 10 furnished by the British Consular Agents at Pondicherry and Karikal. These proposals are approved.

14. The Director of Public Instruction states that, should the returns suggested by the Statistical Committee of Calcutta be required, irrespective of those annexed to his annual reports, he has no modifications to offer with respect to the forms of returns in use in the Educational Department. The returns suggested by the Statistical Committee must be furnished for the information of the Government of India.

15. The Government approve of the discontinuance of the Appendices A., B., and C. of the Annual Report of the Commissioner for the Uncovenanted Civil Service Examinations.

16. It appears from the replies received from the following officers that no alterations or reductions are feasible in their respective Departments:—

Resident in Travancore and Cochin.
Political Agent at Poodoocottah.
Accountant-General.
Commissary of the Diocese.
Acting Master Attendant, Madras.
Officer in charge of the Stipend Pay Office, Vellore.
Acting Assay Master.
Commissioner of Paper Currency.
Government Agent, Chepauk.
Government Astronomer.
Superintendent, Government Central Museum.

17. A copy of these Proceedings will be submitted for the information of the Government of India. The information relating to returns furnished by the Officers under the Revenue Department will be furnished by that Department separately.

MEMORANDUM.
Nos. 91-110.

Passing orders on the subject of reducing the number of Reports, Returns, and Periodical Statements, and simplifying and condensing those retained in all Departments of the Administration, and directing that a copy of the Proceedings be forwarded to the Government of India.

No. 473.

From

The Honorable G. S. FORBES,
Commissioner for the Uncovenanted
Civil Service Examinations, Madras,

To

The Honorable R. S. ELLIS,
Chief Secretary to Government,
Fort Saint George.

SIR,

THE following examinations were held during the year 1868-69:—

1. The Special Test Examinations in August 1868.
2. The General Test Examination in February 1869.
3. The Special Test Examinations commenced on the 24th August, and lasted seven days.
4. The number of candidates for the Special Test Examinations was 3,032, or 166 more than in 1867. Of these 382 were candidates for the Police Test.
5. The following statement shews the numbers registered and examined in each Test, and the result as compared with that of the previous three years:—

No.	Tests.	No. registered in 1868.	No. examined in 1868.	No. passed in 1868.	No. passed in 1867.	No. passed in 1866.	No. passed in 1865.
1	I. A—Judicial Test, Civil, Higher Grade ...	168	136	65	41	45	97
2	II. A— Do. Criminal do ...	360	331	144	150	109	252
3	I. B— Do. Civil, Lower Grade. ...	41	31	23	24	48	128
4	II. B— Do. Criminal do ...	589	508	203	177	205	207
5	III. A—Revenue Test, General, Higher Grade ...	219	190	47	45	44	36
6	III. B— Do. do. Lower do. ...	222	201	66	47	182	115
7	IV.— Do. Salt Department... ..	16	16	15	7	7	13
8	V.— Do. Sea Customs Dept. ...	6	6	3	5	3	11
9	VI.—Account Test	27	27	17	22	3	8
10	VII. A—Translation Test, Higher Grade	9	9	3	2	4	65
11	VII. B— Do. Lower Grade... ..	721	671	118	100	176	75
12	VIII. A—Precis Writing, Higher Grade. ...	917	880	369	297	119	18
13	VIII. B— Do. Lower Grade... ..	269	251	157	38	143	7
14	Pleaders in District Moonsiffs' Courts...	692	665	83	121	...	...

5. The per-centage of successful candidates in the principal subjects was as follows :—

Tests.	1865.	1866.	1867.	1868.
I. A	76	48	41	48
II. A	79	42	51	43
I. B	83	75	61	74
II. B	79	35	29	39
III. A	45	40	34	23
III. B	53	59	21	32
VII. B	87	52	18	17
VIII. A	29	29	37	41
VIII. B	27	66	15	62
Pleaders in District Moonsiffs' Courts ...	...	...	14	12

6. Considerable improvement was thus, it will be seen, shewn in the proportion of candidates passing the Civil and Criminal Judicial Tests, Higher Grade, and Precis Writing Test in both grades; but the result of the examination in the Lower Grade of the Translation Test, VII. B., was, as last year, an almost complete failure. The English paper set for translation was, perhaps, somewhat more difficult than that of the previous year; but the main cause of the failure is still to be found in the very imperfect knowledge of English possessed by the candidates who present themselves for examination, under the belief that they know enough to pass. The result of the examination of candidates who took up the Test for Pleaders in District Moonsiffs' Courts was still more unsatisfactory. It will be observed that out of 665 candidates examined, only eighty-three passed, or a little over twelve per cent.; but even this low per-centage overstates the degree of their success, as ten of the eighty-three passed men went up for the Judicial Civil Test, Higher Grade, but were found qualified only in those subjects forming the test for Pleaders in District Moonsiffs' Courts. The waste of time and labor involved in examining so many men who can have but little chance of passing is very great; and as the number of such candidates is every year increasing, I think more restriction should be placed on persons coming up for this test. At present there is none beyond the fee required. I would recommend that hereafter no one should be admitted to the test for Pleaders in District Moonsiffs' Courts who has not passed the General Test or University Entrance Examination; the option which candidates for the test now have of undergoing the examination in a Vernacular or in English being still allowed them.

7. The following statement shows the languages in which candidates wrote their answers :—

10. For the Police Test 275 Candidates presented themselves, but twenty-six only were declared qualified for the post of Inspector. Particulars of the examination are given in the margin.

11. No fee or other restriction being imposed on Members of the Police Force wishing to present themselves for this test, many came up each year for examination quite unqualified to pass; but by G.O., dated 28th January 1869, No. 142, a fee of four Rupees is now required, and the number of candidates passing in future will, I hope, bear a larger proportion to the number examined than has hitherto been the case.

12. The examination was conducted by the following gentlemen:—

Names.	Subject.
J. R. Kindersley, Esq.	{ Kindersley's Law of Evidence. Law of Contracts.
H. Morris, Esq.	{ Mahomedan Law. Norton's Law of Evidence.

Names.	Subject.
E. F. Webster, Esq. ...	{ Criminal Procedure Code, Higher and Lower Grades. Civil Rules of Practice, do. Law of Torts. Goldsmith's Equity.
J. H. Nelson, Esq. ...	{ Code of Civil Procedure, Higher and Lower Grades. Hindu Law.
F. Brandt, Esq. ...	Penal Code, Higher and Lower Grades.
J. Maskell, Esq. ...	Criminal Rules of Practice, Higher and Lower Grades.
J. F. Price, Esq. ...	{ Revenue Regulations and Acts, do. Circular Orders, Board of Revenue, do.
T. Jeyaram Chettyar ...	{ Limitation Act. Stamp Act. Salt Manual. Budget Manual. Book-keeping. Stamp Rules. Salt Law.
Mr. W. E. Fox ...	{ Sea Customs Law. Sea Customs Manual.
S. Vijiaraghavulu Chettyar ...	Précis Writing, Higher and Lower Grades.
Lieutenant W. F. Wright ...	Tamil Translation.
Major T. G. M. Lane ...	Telugu do.
E. Thompson, Esq. ...	Malayalum do.
L. Garthwaite, Esq. ...	Canarese do.
Colonel R. S. Wilson ...	Hindustani do.

13. Mr. Kindersley reports that he did not observe any marked difference between the papers he examined and those of previous years, but thought that those who had written their answers in the Vernacular had been more successful than before. On the other hand, there seemed to be fewer papers remarkably well-done. Mr. Nelson considered the papers to have been somewhat better done than those of the previous year, but again complained of the practice amongst candidates, from all parts of the country, of attempting to learn the text-books by heart, instead of acquiring an intelligent general knowledge of their contents. In this respect he saw no signs of improvement. Several questions set, although perfectly simple in themselves, were rightly answered by scarcely one of the candidates, because so framed as to necessitate the taking together two or three distinct provisions of the law, and thoughtfully working out the answer. The English writing candidates did far better than the others. As far as mere memory went many of them did well, but no answer-paper shewed signs of any con-

siderable promise. Mr. Nelson thinks that the examination in Civil Procedure covers too much ground, and that a more modern text-book is required in Hindu Law. I have the subject under consideration. The impression left on Mr. Morris' mind, after going through all the

Law of Evidence, papers in Norton's Law of Evidence, was that the Higher Grade. great majority of the candidates had got up the subject by means of an abridgment or analysis, and not by the patient study of the text-book itself. Mr. Morris points

Mahomedan Law. out that in Mahomedan Law the number of Mahomedan candidates was only ten. Mr. Webster reports that the answers examined by him were unsatisfactory. In the Criminal Procedure Code. Criminal Procedure Code, he often found the candi-

dates wonderfully accurate in giving the number of the section in which the answer to the question lay, but the answer itself generally loosely and inaccurately given. Referring to the strong desire shewn by candidates to be examined in the English language, Mr. Webster says: "Every lad who can string a few English words together seems to think that he is competent to write an English paper in a Law Examination, and the consequence is that many papers are written with a total disregard to the rules of spelling, and in an idiom, apparently the offspring of the candidate's own brain." This is explainable in great measure by the fact that, by the rules, candidates, who have passed only the Vernacular Branch of the General Test, are entitled to admission to the Special Tests, but are restricted to answering their papers in English. I recommend that the rule may be so altered in future that no candidate may be admitted to the Special Tests in English who has not passed the English Branch of the General Test, or the University Entrance Examination.

14. The Equity papers were generally very bad, and one candidate informed Mr. Webster, at the end of an exceedingly bad paper, that he had given his answers without ever having read the text-book. As no minimum is at present required in Equity, and as it is possible for a candidate to pass the test of which it forms part without knowing anything of it, I propose, in future, to make the minimum in this subject one-fourth of the maximum marks allotted to it. Mr. Brandt reports that the answers to the higher grade paper on the Penal Code were, on the whole, decidedly more satisfactory than those given in the lower, which were inferior to those he had examined in former years. The Malayalum and Canarese papers were noticeably meagre. Mr. Price reports that the results of the examination in Revenue Subjects. revenue subjects were, on the whole, fair; and that the papers of the candidates in Vernacular were much superior to those of the previous year. He complains, however, of the way in which the

superintendence of the examination was conducted at several stations, and discovered several undoubted cases of copying.

15. Under G. O. 11th June 1868, No. 226, candidates for the Revenue Tests were exempted from passing in the Manuals of Village and Taluq Accounts.

16. The General Test Examination was held on the 8th, 9th, and 10th February 1869.

17. The following Officers superintended the examination :—

Station.	Name of Superintendent.	Designation.
Bangalore ...	Mr. C. Waters ... Revd. J. Bamforth ... Messrs. Coleman, Wallace, Clapham, and Marsden...	Head Master of the Provincial School.
Bellary ...	W. R. Kershaw, Esq. ... and seven of the Assistant Masters of the Provincial School.

22. The number registered and examined was greater than in any former year; but the degree of success was very small, being slightly under sixteen per cent. only. I attribute this partly to the increased difficulty of the examination in History and Geography, but chiefly to the general ignorance of the candidates as to what is actually required of them, and the belief that any one presenting himself for examination may scrape through. Of late years, the standard of the General Test has been gradually raised; in each subject there is now a fair minimum to be gained, and failure to reach it in one subject entails failure in all: but these facts do not seem to have become generally known, and it is not uncommon for candidates to wholly neglect some one subject—History or Geography in particular—on the ground that it is “a non-essential subject.” I propose, in my future Annual Notifications to candidates preparing for the General Test, to state the minimum of marks which they will be required to gain in each subject to secure a pass.

23. I proceed to notice briefly the reports of the Examiners, premising that no change was made in the system observed in valuing the papers of the previous year. The Examiner in *English Hand-writing* reports that as he proceeded with the valuation of the papers, he became convinced that several of the writers had written their papers under the

impression that they would not be read. At Madras the number of attempts at cheating by skipping was greater, as well relatively as absolutely than at any other station. At several stations there were no such attempts. Any good writer, who correctly reproduced something less than one-half, was passed; but, “had the candidates been judged by the way in which they wrote their names instead of by their papers, at least five times as many would have been rejected, their autographs being mostly mere ‘intemperate scribbles.’” The Examiner in *English Grammar and Composition* found everywhere a large amount of failure, and at Madras especially the results were very unfavorable. Out of 785 candidates only 232 succeeded in passing. With a few exceptions, the candidates at this station wrote a great deal but to little purpose, their knowledge of the subject being very inaccurate. The Examiner in *Dictation and Spelling* reported that it appeared to him that candidates presented themselves for examination relying more upon chance for success than on their fitness for the examination. It was only on this supposition that he could account for the character of some of the papers which “contained nothing but a mass of letters strung together without any attempt at the formation of intelligible words.” In *Arithmetic* the results were more favorable, as also were those in *History*, though few candidates succeeded in gaining high marks in either subject. In *Geography* the marks gained by the successful candidates were but little above the minimum. “Not a single candidate displayed a fair knowledge of his own country.”

24. The Examiner in *Tamil Hand-writing* thought the abbreviations given in the paper were too many, and that the large number of blots, erasures, and omissions, made by the candidates, were mainly to be ascribed to that cause. In *Grammar and Composition* there was nothing calling for special remark. The questions in *History* were answered much better than the questions in *Geography*, but both in a manner far from satisfactory. In *Arithmetic* the result was fair.

25. The Examiner in *Telugu Grammar and Composition* considers the minimum of sixty marks, or one-fifth of the maximum, to be too low, it being easily attainable by candidates who possess but a very meagre knowledge of those subjects. The mis-spelt paper was described as being rather too difficult. In *Hand-writing* the Examiner reported a decided improvement; with few exceptions the papers were written neatly and legibly. The *Arithmetic* was fairly done; but the result in *History* was bad; and in *Geography* was still less satisfactory. Not one out of 602 candidates obtained as much as half marks in this last subject, while those at Chatterpore and Nellore stood very low.

26. In *Malayalum* the Cannanore candidates were found considerably superior to all others. It appeared to the Examiner that the language was better studied than it used to be as to Grammar, but he remarked

a great deficiency in the mass of the candidates with regard to a very essential point: that of expressing themselves clearly in the plain language of the day, the style adopted by many of them being vicious in the extreme, and in numerous cases the spelling most discreditable. In Arithmetic and Geography there was a large per-centage of failure, but this is not surprising, as these subjects are rarely studied well by candidates unacquainted with English, and those who know English, generally prefer to answer the questions in these subjects in that language. The Hand-writing was good on the whole.

27. In *Canarese* the principal failures were in Hand-writing and Composition. Mangalore did best in all subjects. With regard to the hand-writing the Examiner suggests that candidates should be called upon to observe the rule respecting the separation of words in *all* their papers, instead of, as at present, in their hand-writing paper only. The importance of effecting a change in this respect by substituting the European method of a clear separation of words for the barbarous plan of running them all together in one undecipherable whole has been admitted by Government, and I concur with the Examiner in thinking that the change should be made general.

28. As separately reported in letter, dated 24th March 1869, No. 147, a re-examination of the Madras candidates, for the English Branch, was held on the 26th and 27th February, in consequence of some of the papers having got out before the day of examination; and later, a similar re-examination was also held at Salem and Trichinopoly. At other stations re-examination was not found necessary. The course, which will, in future, be adopted to prevent the papers becoming known before the proper time, was laid before Government in the letter above alluded to, and met with approval. It remains, therefore, only to suggest some changes which, I think, it is highly desirable should be introduced for the more efficient conduct of the General Test Examination.

29. The number of candidates for the year under report was, as has been seen, nearly 4,000, or double the number examined in 1864. This number is, in fact, as large as can be conveniently examined at one time; at some two or three stations—at Rajahmundry, in particular,—sufficient accommodation cannot even now be obtained. It is fast becoming necessary either to increase the number of examinations, or to check further increase in the number of examinees. The former alternative is objectionable on educational grounds, and the demands of the service do not require it. I would, therefore, adopt the latter course, taking care to exclude, if possible, only the ill-prepared and incompetent.

30. Four means of doing this present themselves—

1. By increasing the examination fee; 2. By requiring each candidate to produce a certificate, in proof that he has gone through a course

of instruction calculated to fit him for passing the examination, before admitting him to it; 3. By raising the age of admission; and, 4. By raising the standard of examination. From former results, and from considerable enquiry, I am led to believe that the adoption of the first of these steps would have no perceptible effect, while it might exclude the best prepared candidates; also, there is no necessity for it on financial grounds. At first sight it would seem that the second expedient would meet the case; after much consideration, however, I am of opinion that it would be found impracticable. Candidates may be divided into three classes:—

1. Those in Government employ, on salaries below Rupees 20 per mensem.
2. Those seeking Government employ, and not at school.
3. Those still at school.

31. Certificates could hardly be demanded from the first and second of these classes, and those in the third could at any time place themselves in the second by leaving school. Besides, the candidates come from all sections of the people, and have received what education they have in all classes of schools, from the Government College to the humblest village patshala. The granting of the certificates could not, therefore, be restricted to persons on whom dependence could always be placed, and the certificates would, I fear, be as readily forthcoming from candidates who could not possibly pass, as from those who might be sure of success.

32. But to raising the age of admission to the examination, and raising the standard, I can see no objection. I would raise the age of admission from eighteen to twenty, and the standard as under:—

	Present Minimum.	Proposed Minimum.
Hand-writing.....	$\frac{2}{3}$ of maximum.	$\frac{1}{2}$ maximum.
Grammar & Composition.	$\frac{1}{2}$	$\frac{1}{4}$
Arithmetic.....	$\frac{1}{2}$	$\frac{1}{2}$
History.....	$\frac{1}{2}$	$\frac{1}{4}$
Geography.....	$\frac{1}{2}$	$\frac{1}{4}$

33. The present minimum of three-fourth in Dictation and Spelling I would allow to remain. Also, I would confine the examination in General subjects—History, Geography, and Arithmetic—in the Anglo-Vernacular Branch, to the English language, instead of as now leaving it with candidates to take up these subjects either in English or a Vernacular at their option. Candidates acquainted with English prefer to answer in that language as a rule, and while this change would throw no obstacle in the way of candidates well-prepared to undergo the test, it would add to the facilities for conducting the examination. The change would not apply to candidates for the *Vernacular Branch only*; they would,

as now, be allowed to answer in general subjects in the Vernacular of their choice.

34. If these measures are approved, they can be introduced, so as not to affect the examination to be held in February next. If they should not meet the difficulty now felt, I shall be prepared to recommend others that I have had under consideration; but I do not anticipate that more change will be necessary.

In addition to the information in which the Subordinate Courts furnish to the Civil Court of their *zillah* to be included in the above Returns, District Munsifs are required to forward to the Civil Judge a monthly Statement regarding suits pending on their files with explanation as to delay in disposing of them.

The only other Periodical Statements required of the Judicial Courts are the Annual Budget Estimates which are forwarded through the High Court to the Accountant General, the Annual Estimates and Indents for Stationery which are forwarded through the High Court to the Superintendent of Stationery, the Statements regarding the extent of litigation to which Government is a party, and the Returns from the High Court required by the Secretary of State in his Despatch of 16th January 1867, No. 2, which are annually submitted to the Government.

4. The Chief Justice and Judges of the High Court are of opinion that the forms in use are not capable of modification either in number or size. They are about to require an additional Return from all the Courts showing the amount of fees, fines and penalties levied by all the Courts, and when the Rules contemplated by Section 2 of Act VII of 1870

have been framed there will be further an Annual Statement of the amount of process fees collected, but the Annual Statements of surplus process fees and the monthly Statements of latta due for service of notices issued by the High Court will be discontinued.

2. By an alteration in the system of Crime Registration large & expensive Books have been done away with in the Offices of all District Superintendents and Assistant Superintendents throughout the country. The modified system, which more closely resembles that in use in England, is working satisfactorily. Much unnecessary labor has also thus been spared. Returns have been reduced in number by the abolition of all such as seemed in any way superfluous & office work generally has been lightened.

3. A great saving of expense has

has been effected by altering the practice of presenting Charge Sheets in duplicate. An enormous number of Charge Sheets are of course made out daily throughout the Presidency and formerly they were presented to the Magistrates in Duplicate, one copy to be returned to the Police Department with the necessary information as to sentence & the remarks of the Magistrate, if any, and the other copy to be attached to the record. The Charge Sheet is a mere Form in which the case is presented to the Magistrate by the Police and it does not really form part of the Judicial

Judicial Record. It is not so treated in England or in the Presidency Town where a single Charge Sheet is presented & returned to the Police. The Charge Sheet is not in itself evidence of anything & should any additional circumstances appear on the face of it which seem to bear on the case (whether with regard to the conduct of the Police or otherwise) actual evidence of such circumstances must be taken and placed on the Record. Most Magistrates in the Mofussil have acceded to this view but some few still require the Charge Sheet in Duplicate and thus cause extra expense.

The rest of the printing done for this Office consists mainly of (1) forms of application for admission to the periodical examinations (2) lists of candidates for examination, (3) examination papers, and (4) Gazette notifications. Sir,

Referring to Proceedings of Government, dated 22nd April 1870, No. 488, I have the honor to submit, for the information of Government, a list of the periodical returns and reports submitted to my office. Having in view the supervision and check which it is my duty to exercise over the operations of schools and Educational Officers, and the information I am directed to submit annually to Government, I regret to say that, with the exception of item No. 6, I am unable to suggest any reductions in either the number or size of the documents referred to.

- (1.) Reports of Inspectors on the inspection of Government and Private Schools during the official year.
- (2.) Annual Reports of the Inspectors of Schools for the six Educational Divisions.
- (3.) Annual Reports of the Principals of the Presidency, Medical, Civil Engineering, and Combaconum Colleges.
- (4.) Annual Report of the Curator of Government Books, for incorporation in the General Report on Public Instruction.
- (5.) Annual Report of the Ootacamund Lawrence Asylum.
- (6.) Quarterly Reports and Returns of the School of Industrial Arts.
- (7.) Numerical Returns of Government Schools for the four quarters of the year.
- (8.) Numerical Returns of Private Schools for the four quarters of the year.
- (9.) Accounts of office allowance of the Inspectors for the four quarters of the year.
- (10.) Returns of work done by the Inspectors and Deputy Inspectors of Schools, of the six Divisions, for the four quarters of the year.
- (11.) *a* Annual Numerical Returns of Government and Private Schools.
b Annual Returns of Village and other Schools under the Results System.
c Annual Account Current of fees in Government Schools.
d Annual Financial Returns of Government Schools.
e Annual Financial Returns of Private Schools.
f Annual Returns of Subscriptions, Donations, and Endowments, Government Schools.
- (12.) Annual Statement of Inspecting Agency.
- (13.) Annual Statements of Government Scholarships.
- (14.) Annual Returns from the Registrar of the Madras University for incorporation in Statement No. I proposed by the Bengal Statistical Committee.
- (15.) Annual Returns of Government
a Professional Colleges and Schools.
b General Colleges and Schools.
and of Private Schools, both aided and unaided, for the Statement (No. II) required by the Statistical Committee, Calcutta.
- (16.) Annual Statements from Principals and Managers of Colleges affiliated to the Madras University but situated beyond the limits of the Educational Department of this Presidency (for incorporation in Statement No. I required by the Statistical Committee.)
- (17.) Annual Report and Accounts of the Book Department.
- (18.) Annual List of Educational Officers.
- (19.) Annual Returns of the Ordnance Artificers' School.
- (20.) Bi-monthly Returns of leave, changes, &c.; Returns of expenditure on postage labels, &c.

2. I was at first of opinion that the Quarterly Returns of Government and Private Schools might safely be converted into half-yearly ones; but the very incorrect manner in which several of those returns have lately been submitted now convinces me that any change would lead to neglect on the part of Managers, &c., which would introduce confusion and give rise to much correspondence. tions that anything like accuracy in the statements can be obtained, and the returns of one quarter frequently serve as a check on those of another or of a year.

3. I propose to request the Superintendent of the School of Industrial Arts to submit his Reports and Returns to me in future annually instead of quarterly.

4. With respect to the returns referred to in item No. 15, I have to state that the information therein required to be submitted, for insertion in the Statement (No. II Form B) required by the Statistical Committee of Calcutta, is only that which cannot be obtained from the other annual and quarterly reports received by me. The greater portion of the data needed to satisfy the requisition of the Statistical Committee is always inserted in the appendices to my Annual General Reports; and it would relieve this office of much extra trouble if, instead of preparing Statement No. II in full, as required in Proceedings of the 4th September 1867, No. 293, it were allowed to submit a Statement, in the subjoined form, containing only information not to be found, or readily seen, in the appendices referred to.

5. Adverting to Proceedings of the 29th October 1869, No. 343, I have to observe that, should the Educational Returns suggested by the Statistical Committee be still required to be submitted in full, and separately from those annexed to my annual reports, I have no modifications to offer with respect to the forms proposed other than those which met with the approval of the local Government in their Proceedings of the 12th December 1867, No. 390, and 20th March 1869, No. 93.

Sir,
With reference to the Order of Government N: 488, of 22nd April, 1870, I have the honor to enclose 2 Lists of Returns &c. despatched and received by the Protector of Emigrants, and beg to make the following remarks:-

2 Enclosure A N: 1 is a monthly return sent by me to Government when a ship has left the Port with Emigrants during the previous ^{month}. If no ship has left no return is sent; on an average 4 or 5 Reports are sent during the year. I would suggest that this Return be sent immediately after a ship leaves, instead of as a monthly return.

3 N: 2. The Administration Report is sent in Annually to Government at the close of the Official Year, with 9 short Abstract Statements, these Statements can, I think, be modified and

and reduced. Statement No. 7 shows the total results of Statements No. 1, 2, 4, and 5, which also show the date of shipment, the names, and Tonnage of vessels. These particulars, which are not of much importance, could always be given, if afterwards required by Government. These 4 Statements might therefore in future be omitted.

4 Statements 3 and 6 might be amalgamated, and a new statement substituted in the same form as No. 7.

5 Statements No. 8 and 9 are essential to show the Collections, and disbursements, on account of British, and French Emigration respectively.

6 The other Returns in Enclosure A call for no remark. The Returns sent by to Enclosure A to the Examiner of Claims are similar to those sent by all other Departments, and are drawn up in accordance with the forms framed by that Officer.

7 Enclosure B No. 2 is a monthly Report sent to me by the Mauritius Emigration Agent showing number ~~per~~ in Depot. I propose to call for the same return in future from the British Consular

Agents

Agents at Pondicherry, and Karikal, as it is referred to in the Report. Enclosure B also shows the other Returns now received from the Madras Government and British Consular Agents at Pondicherry and Karikal. I have taken the three last Nos. 8, 9 & 10 out of the List, being unnecessary, and will instruct the Officers concerned not to send them in future.

8 The Annual Return called for by the Secretary of State for India in Government Order No. 381 of 14th April 1870 is not included in Enclosure A, as no statement has yet been forwarded, the requisite information not having as yet been received.

Sir,

In acknowledging the Proceedings
of Government dated 22nd April last
No. 488 calling upon heads of Depart-
ments to report whether any reduction
both in the number and size of
reports returns and periodical
statements can be made in their
respective Departments, I have the
honor to state that the Registration
Officers being of comparatively re-
cent creation, the order of the
Supreme Government does not seem
to me to apply to it to the same
extent as to other and older Depart-
ments of the Administration. The
reports and returns now received
by this Office from the Mofussil

required

Registrars are few and are such as are required to be furnished either by the Registration Act itself or are necessary for carrying out the provisions thereof, and I am not aware that they are susceptible of any reduction in number or size at present. When the new forms, however, prescribed by the Government of India in their Resolution of the 24th March last, No. 1630, recorded in G. O. dated 4th Instant No. 761, are adopted, as they will be, hereafter, a revision of the returns obtained from the Districts will doubtless be necessary to suit them to the new forms, and opportunity will then be taken to reduce or dispense with any statements that may be no longer required.

2. When the new Medical Code was in course of preparation the practicability of reducing the number and size of these documents was fully considered by me, (in conjunction with the Inspector General B. M. S.) in communication with Mr. Cornish, and the annexed list exhibits all those which it was considered necessary to retain.

3. I have again gone over this list very carefully, and have the honor to state that all the reports and returns specified in it are absolutely essential for the due administration and working of the department, and for the preparation of the periodical reports and returns required.

which they are intended.

The system of accounting in this Office, being of comparatively recent introduction, and the majority of Returns, having been adopted under instructions from the

Controller General of Military Expenditure, in assimilation with those in use in the other Departments, no change seems advisable. A few suggestions are, however, offered in the margin column of this List, which may, tho' to no appreciable extent, economize labor and expenditure of Stationery.

Of the Statements and Returns furnished by this Department, Nos 12 to 26 (inclusive), and Nos 4, 8, 15, 18, and 19 of the returns received by it, printed on Medium, and Royal paper, might

without

without sacrifice of efficiency, and with a saving in paper, and postage, be printed on hand-made foolscap. No 20 might with advantage be printed half on foolscap, and half on Royal paper. These changes, which will cause no alteration in form or system, will be carried into effect immediately.

Office of Examiner of Commissariat Clothing and Stud Accounts

Reduction in the returns, ^{now} periodically rendered by, and to this Office, appears expedient. Those received ^{from} Executive Commissaries, Officers, are all absolutely necessary, and are not susceptible of any abridgment. The Forms and Statements prepared in the Clothing Department have only lately been reverted to, under the instructions of the Controller General, pending the

Office of Pay Examiner.

the decision of Government on
the general question of the
provision of clothing, and
Forms of Accounts and Books, &c.,
to be adopted in the Clothing
Factories and Establishments.
The re-organization of the
Establishment of this Depart-
ment also, is kept in abey-
ance pending a report on
the remodeling of the cor-
responding Office in the
Bengal Presidency, which
has been promised by the
Controller General. —

Office of Examiner of Ordnance Accounts

After a careful exami-
nation of the various reports,
returns and Statements which
this Office receives and despatches,
no reduction has been found
practicable. The considera-
tion of an Establishment
for the Examiner, apart from
that of the Inspector General
of

Office of Examiner of Medical Accounts.

of Ordnance and Magazines, has been
ordered to be over until the arrival
of Colonel Barron, vide Proceedings
of Government, No 1783, dated 23-
June 1870. —

No reduction in number
or curtailment in size, could
be effected in any of the docu-
ments rendered by this Office.
They are as few and concise as is
consistent with the information
which the Department is called
upon to furnish. It is, however,
possible to curtail the returns
rendered by Medical Store Depôts,
and I have accordingly placed
myself in communication
with the Inspector General,
Indian Medical Department,
for the purpose of introducing
the following changes, which
I trust Government will approve.
viz: that instead of a monthly
Store return in the form now
rendered

rendered, Storekeepers should
 forward a return of Disburse-
 ments, only, supported by Vouchers,
 and a half yearly return on the
 1st October, and the 1st April, relat-
 ing all the heads now given
 in the monthly Statements, such
 as "Remains and Receipts, Dis-
 bursements, and Remaining".
 This will render separate returns
 of Disbursements for the months of
 September and November unnecessary,
 the half yearly return, supported
 by the necessary vouchers, sufficing
 for all purposes in these months.
 This measure will meet the require-
 ments of the Examiner's Office,
 greatly reduce the amount of
 work to be done in Storekeeper's
 Departments, and abridge the
 monthly returns by one half.

The only Statements received
 in this Office are the List of deduc-
 tions from all Disbursing
 Officers in the 3 Presidencies, pre-
 pared in accordance with the
 instructions issued periodically
 by the Secretary. The Establishment

will

Office of the Secretary
 Military Fund.

Offices of Circle Paymasters.
 Presidency, Bangalore,
 Hyderabad, and Pegu
 Circles.

will admit of a reduction, on the
 transfer of a portion of the
 accounts to England, agreeably
 to the despatch of the Right
 Honorable the Secretary of State,
 No. 23, dated 24th February 1870.
 Communicated with Proceedings
 of Government, No. 958, dated
 5th April 1870, when the Secretary
 Military Fund proposes to
 dispense with two of his clerks.

Of the returns, &c., received,
 prepared, or despatched in
 these Offices, those that may
 conveniently be dispensed with
 have been noticed in the
 Remark Column. The Forms,
 from No. 25 downwards, ap-
 pertaining to the Presidency,
 Circle, which were introduced
 by this Office, Circular, No. 15, dated
 1st November 1866, have hitherto
 been printed on paper neces-
 sarily expensive, but will
 hereafter

heretofore struck off on paper
of ordinary foolscap size. I
have had under consideration
the feasibility under the
present direct system of ac-
counting, of abolishing altogether
Circle Pay Offices, which are
rapidly becoming, if they
are not already, altogether
so, mere channels of communi-
cation between Officers, Com-
manding Regiments and the
Military Account Department
at the Presidency. I propose
making this the subject
of a separate communication.

I have the honor to be,

Sir,
Your Obedient Servant

Sir,

I have the honor by order of
the Commander-in-Chief to return the
Letter No. 284 dated 10th June 1870 from the
Brigade Major Saint Paul
George.
Regarding a list of
Periodical Returns re-
ceived and despatched
from his office, shewing
which may be dispensed
with or included in other Re-
turns.

and in reply
I am directed

to state, that
His Excellency concurs in the opinion
expressed by Major Oubertin that the

Returns

Return named by that officer, may
be dispensed with, as embodied in other
Returns as shown in his list; but that
no other reductions can be made at
present. —

Adjutant General.

With reference to the order
noted in the margin, and to this office
Memorandum No. 35 dated 6th June,
I have the honor to enclose a List of the
Periodical Returns furnished to this office,
most of which have been prepared in ac-
cordance with the forms received with
the order of the 15th March 1870. L: 405.

supply of the information required, and I do not see that any of them can be dispensed with unless it be No 10 and No 11 and this will depend upon the orders of Government with respect to the question now before them which was reported upon in my letter No 106 - dated 5th instant.

It is also probable that a single Return of State Prisoners may suffice provided it is furnished in the new form recently received from the Government of India which appears to contain every particular required. This Statement has not as yet been submitted as it was necessary to refer to Magistrates for certain information not heretofore furnished.

Memorandum

With reference to the order noted in the margin, and to Official Memorandum in the Public Department No 136 dated 3rd instant, the undersigned has the honor to state that when the new Jail Rules were about to be introduced into this Presidency, Mr. Rhode then Inspector General of Jails submitted a report to Government stating that in his opinion the number of Returns required thereby from District Intendants of Jails was excessive, and he requested that Government would issue orders on the subject. This letter having been referred to the Undersigned for remark he reported that he concurred with Mr. Rhode in the opinion that the new forms were too numerous and elaborate for present adoption, and he at the same time submitted a set of forms of such

such periodical Returns as he considered necessary, and which he had prepared in as concise and simple a manner as possible. These forms were approved of in the order noted in the margin and have been in force ever since with certain trifling modifications. For example the information contained in Monthly Statements A 1 and A 2 is now shown in one Statement.

2. Most, if not all of these periodical Statements must now be either entirely altered, or considerably modified in accordance with the recent orders of the Government of India and as soon as the Administration Report has been sent in, which it will be during the course of this week, it is the intention of the undersigned to prepare the necessary forms for the Preps, taking care, as he has hitherto done, to

limit the number and diminish the size as much as practicable. Under these circumstances he requests permission to defer his report -

ADMINISTRATION REPORT

OF THE

EMIGRATION DEPARTMENT,

FOR THE YEAR 1869-70.

EMIGRATION to the British Colonies has been very slack during the past year. Only four ships carrying 1,203 souls have left Madras for the Mauritius. The depôt was closed on the 30th April 1869, as no more coolies were required; but in July following a fresh requisition having been received, it was re-opened.

2. Emigration from Madras to Natal and the British West India Colonies has for the present ceased; the Natal Agency was closed under instructions from the Natal Government of 18th September 1869.

3. The due proportion of females to males has not been quite maintained as regards adults, the numbers being 280 females to 754 males, about 37 per cent. instead of 40; but, if the children are included, the numbers are 337 females to 846 males, only a fraction less than the proper per-centage.

4. 986 Labourers have been recruited and registered under the Indian Labourers Act No. V. of 1866, 585 of them were forwarded for employment on the Upper Godavery Works in five of the B. I. Coasting Steamers, the remaining 401 were not sent, and the fees were refunded.

5. Only one vessel has arrived from the Mauritius with return emigrants, viz., 46 males, 6 females, 2 children; total 54. One adult died on the voyage.

6. Two vessels have arrived from the Mauritius at Pondicherry with 144 emigrants. No deaths occurred.

7. The following statement shows the number in the Mauritius Depôt in each month from 1st April 1869 to 31st March 1870, the number of sick, and the mortality:—

Month.	No. in Depôt.	No. of Cases.	Deaths.	Remarks.
April 1869	318	9	...	Depôt closed 30th April.
May	...	...	...	Do.
June	...	...	...	Do.
July	135	16	...	Do. re-opened.
August	327	18	...	Do.
September	107	6	1	Do.
October	234	18	...	Do.
November	104	11	2	Do.
December	193	5	...	Do.
January 1870	297	16	1	Do.
February	102	7	...	Do.
March	199	15	...	Do.

8. The amount collected for fees and licenses at Madras was Rupees 2,333, and the disbursements Rupees 3,360-2-1. The expenses have exceeded the receipts by a sum of Rupees 1,027-1-7. In 1868-69 the expenses were Rupees 5,748, and receipts Rupees 1,145-8-0. A considerable reduction in expenditure has, therefore, been effected; the receipts have also more than doubled.

French Colonies.

9. There has been no emigration to any French Colonies from the Port of Madras; but a number of emigrants have been shipped at Pondicherry and Karikal, many of whom were recruited at Madras.

10. One ship sailed from Pondicherry, calling at Karikal for Martinique with 475 souls, and another for Guadeloupe with 474 souls.

11. Three vessels left Pondicherry for Réunion with 787 souls, and three sailed from Karikal to the same Island with 292 souls.

12. Total number sailed 2,023, a slight decrease on the total number which embarked last year.

13. Four vessels have arrived at Pondicherry from Réunion during the year 1869-70 with 466 return emigrants. Only one death occurred during the voyages.

14. Thirty-three Bengal emigrants landed at Pondicherry with Madras emigrants from the Ship "Anna." The French Commissaire d'Emigration ordered them to remain at the dépôt, intending to send them on next day by a Coasting Steamer to Calcutta. They, however, left the dépôt, and are supposed to have made their way overland to Bengal. Every inquiry was made to discover the route they had taken, and orders sent to Government Officers to assist them at stations *en route* if found, but they were never seen after leaving Pondicherry. They had money, and it is presumed required no assistance. No blame whatever attached to the French Emigration authorities in the matter.

15. I must notice shortly the lamentable loss of life among the emigrants on board the "John Scott," which has been already fully reported on to Government.

16. On December 14th, 1869, the "John Scott" left Pondicherry, where the shipment of her emigrants for Guadeloupe had been delayed for a week in consequence of cholera in the dépôt. On the evening of the 16th a woman died of cholera, and on the morning of the 17th the ship anchored at Karikal.

17. In spite of the presence of cholera on board, and also in the town of Karikal, 150 emigrants were embarked on the afternoon of the 17th, and the ship sailed on the morning of the 18th. Several more cases occurred on that day, and the Captain in the evening put back to Pondicherry. On arrival there, the sick were landed and placed in a Cholera Hospital, where every attention was paid to them by the French authorities, fresh cases being landed, when attacked by the epidemic. By degrees the disease subsided, but not till thirty-nine of the emigrants and crew had died, or thrown themselves overboard.

18. After thorough cleansing, examination, and inspection, the French authorities re-shipped the convalescents, and despatched the ship to Guada-

loupe. We have not yet heard of her arrival, and I trust there may not have been any fresh outbreak of cholera on the voyage.

19. The Government censured the British Consular Agent at Pondicherry, and the Consular Agent at Karikal was dismissed.

20. The old "vexata questio" of advances has cropped up again several times in the course of the past year.

21. On further information from the British Consular Agent, Pondicherry, it now appears that, even when an emigrant does take money with him into the dépôts, he has every opportunity of spending it in clothes, tobacco, and other luxuries while there. It is not, therefore, extraordinary if, after a sojourn of a month or so, emigrants go on board ship penniless, and arrive at their destination without money. Some of the unscrupulous ones have there complained of extortion by maistries, but such complaints could and should have been made in the dépôts, where the complainants have generally been for some time before embarkation.

22. I cannot see what advantage is gained by the French system of large advances, and it is most disadvantageous and unfair to the emigrants. Maistries ought never to be allowed to receive any money from emigrants on any pretence whatever. By the present French system, the emigrant receives three months' wages in advance, which he has to repay after arrival at the Colony in fifteen months, by instalments of one rupee per month. He does not really want so much money advanced; part of it goes in paying the maistry for feeding him on the journey from the place of recruitment to the dépôt. He also generally considers himself bound to give the maistry a present for recruiting him, and gives it; and the balance he spends on clothes and luxuries in the dépôt.

23. British emigrants are fed on the road at the expense of the Agency, and get one month's pay in advance instead of three. This is generally spent in clothes and luxuries, but the amount is small. Of course, head and under-maistries approve of the French system, and the emigrant careless of the future never reflects that he has squandered a quarter of his first year's wages before he commences to work in the Colony.

24. The French system should, in my opinion, be assimilated to the British one. There would then be no more true or false complaints of extortion by maistries, as the one month's advance is paid just before embarkation.

25. This report has been delayed on account of necessary returns having only been sent in on the 16th instant by the British Consular Agent, Pondicherry.

Protector of Emigrants.

Order thereon 14. Decr. 1831.

The letters above recorded are the replies received from the High Court, and the Departments and Officers indicated in the margin, to the Order of Government dated the 22nd April last, N^o 488, communicating copies of a letter from the Govt of India, urging upon this Govt to consider the possibility of diminishing the number of reports, returns, and periodic statements, and simplifying and condensing those retained in all departments of the Administration.

2. The Chief Justice and Judges of the High Court are of opinion that the forms of Returns in use are not capable of modification either in number or size. They add that they are about to require an additional return from all Courts of the amount of fees, fines and penalties, and when the rules contemplated by Section 2 of Act III of 1840 have been framed, there will be further an Annual Statement of the amount of process fees; but the Annual Statement of Surplus process fees, and the monthly statements of batta for service of notices issued by the High Court, will be discontinued.

The reports and periodical returns submitted to the Public Works Department of the Government Secretariat, though ~~not~~ ^{can} not in the opinion of ~~the~~ ^{the} ~~author~~ ^{author} ~~that it is~~ ^{of} ~~not practicable to dispense~~ ^{of} ~~with or to reduce the size~~ ^{of} ~~of any of them.~~ ^{of} ~~The accounts~~ ^{of} ~~and returns rendered to the~~ ^{of} ~~Controller of Public Works~~ ^{of} ~~Accounts are those required~~ ^{of} ~~by the Manual. 4. The reply from the Military Department shows that in the following Departments

reductions

reductions can be made in the number of Returns received at present.

Departments	Reductions
Adjutant General.	3 Returns
Quarter Master General.	8 Returns
Military Accountant.	17 Statements and 1 Register and the size of several forms.
Brigade Major.	7 Returns, 1 Daily Report to be made weekly, and 3 Statements to be embodied in one.
Inspector General of Ordnance and Magazines	2 Returns and 1 Annual Return to be made biennially; 1 quarterly report to be made half yearly. 1 monthly to be made quarterly
Superintendent of Pensions and Family Payments	1 Return

5.

These

5. These reductions will be carried out as early as practicable.

6. The Inspector General of Police states that considerable reductions have recently been made in the number of Returns & Statements, and in the strength of Office Establishments in the Police Department. He brings to notice that a considerable saving has been effected by altering the practice of presenting Charge Sheets in duplicate, but that some few Magistrates still require the sheet in duplicate and that this entails extra expense. The Govt are of opinion that the alteration accepted by most

most Magistrates should be generally adopted, and authorize the Inspector General of Police to give effect to it.

7. The periodical Returns furnished to the Inspector General of Jails are, it is observed, prepared in accordance with the forms received with the Resolutions of the Govt of India dated the 21st February 1870, No. 359. The question regarding Prisoners earning remission referred to in the Inspector General's letter dated the 5th October 1870, No. 106, and upon which he states depends whether two Returns can be dispensed with, will be separately disposed of. In the meantime the Inspector General.

General of Jails will be in-
formed that one Return
of State Prisoners in the
form received from the
Government of India will
be sufficient.

8. The Judges of the
Small Cause Court, Madras,
propose to discontinue ^{three statements in} one
of the five periodical re-
turns, instituted in the
Court. The remaining four
returns are necessary.

9. The Acting Registrar
General of Assurances states
that the Reports and Returns
received from the Registrars
in the Provinces are few
and ^{are} such as are required.

When however the new forms
prescribed by the Government
of India in their Resolution
dated

dated the 24th March, 1830
are adopted, a revision
of the Returns obtained from
the provinces will be neces-
sary to adapt them to the
new forms, and the opportunity
will, it is stated, be taken
to reduce or dispense with
any unnecessary Returns.

10. The Committee for the
Examination of Assistants
appear to have used every pos-
sible means to ^{reduce} ~~diminish~~
the number of Reports &c
furnished by them, to a
~~minimum~~.

11. The Reports and returns
in use in the Indian Medi-
cal Department are, the
Inspector General affirms,
absolutely essential for the
due administration and
working of the Department.

12. The Sanitary Com-
- missioner promises to
give his constant attention
to the simplification ^{on forms that are necessary} and
the abolition of forms of Returns
which have ceased to be of
practical value. He men-
- tions that the Board of
Revenue and himself fur-
- nish separate reports and
returns of deaths for the
official and calendar years,
prepared from the same
set of figures, and leaves it
for the Govt to determine
whether the Board's report
and return are required,
now that the Vital Statis-
- tics of the population
come under the review of
the Sanitary Commission.
~~The Sanitary Commission~~ ^{the}
- ~~as letter bearing~~ ^{has} been re-
- ferred.

X X X

The Board of Revenue,
to whom the Sanitary
Commissioner's letter was
referred, "apprehend that
" if these special reports
" were done away with, and
" the duty of collectors restrict-
" ed to the despatch of the
" bills of mortality to the Sa-
" nitary Commissioner, ac-
" tively interest in the subject
" and the habit of analysis
" and comparison of these
" statistics, which is fos-
" tered by the present sys-
" tem, will both die out
" in course of time. They
" are, therefore, strongly of
" opinion, keeping in view
" also the great importance
" which the Secretary of
State

State attaches to this
"duty being duly per-
"formed by collectors,
"that the annual re-
"ports on the health
"of districts now sub-
"mitted through the
"Board of Revenue, should
"not be discontinued."

The Board also observe
that the very brief no-
"tice now allotted to the
"vital statistics of the
"civil or general population
"in the body of the
"Sanitary Commission-
"ers' Annual reports,
"is not adequate to
its

"its importance. It
"is quite true that the
"Statistics of each dis-
"trict are given in
"extenso in the tables
"appended to his report,
"but, left in the midst
"of a mass of returns
"connected with the
"health of the Army,
"the Cantonments,
"and the Municipali-
"ties, they fail to
"attract prominent at-
"tention."

The Board of Re-
venue having shown
good.

good reasons for work-
-ing the present sys-
-tem, under which

Health of Districts are

13 The Protector of Emi-
-grants proposes to submit
the Return of Emigrant
ships now sent by him
monthly, immediately af-
-ter a ship leaves the port.
He thinks the same ab-
-stract statements sub-
-mitted with his Adminis-
-tration Report might be mode-
-fied and reduced, and with
this view suggests that
statements N^{os} 1, 2, 4 and
5 be discontinued, the
information contained in
them being given in State-
-ment No. 4. He would
amalgamate

amalgamate Statements

furnished by the British
Consular Agents at Poov-
-dicherry and Karikal.
These proposals are approved.

14. The Director of Public
Instruction states that
should the Returns sug-
-gested by the Statistical
Committee of Calcutta be
required, irrespective of
those annexed to his an-
-nual reports, he has no
modifications to offer with
respect to the forms of
Returns in use in the Edu-
-cational Department. The
Returns suggested by the
Statistical Committee must
be furnished for the in-
-formation of the Govt
of India.

15. The Govt approve of
the discontinuance of the
Appendices A & B of the

-missioner for the Un-
