*Proceedings of the Madras Government, Public Department,
3rd March 1870.*

Read again letter from the President of the Municipal Commission, Madras, dated 3rd December 1869, E. No. 1265, and recorded in Proceedings of Government, dated 15th idem, No. 1718.

No. 10. Read also the following letter from the Sanitary Commissioner for Madras, to the Chief Secretary to Government, Fort Saint George, dated Madras, 7th February 1870, No. 135.

I have the honour to report that, in obedience to the instructions of Government, conveyed in their Order, No. 1718, of 15th December, (received during my absence on tour,) I have inspected the site upon which it is proposed to utilize the sewage of the Left Wing Barracks of the regiment located at Perambore, and that I consider it in every way suited for the experiment. The project has my entire approval. It will not only reclaim a portion of waste land extensively used as an open air latrine, but will utilize sewage now running to waste in the Otary nullah, which, during the dry weather, collects in pools therein, and contaminates the atmosphere.

No. 11. ORDER THEREON, 3rd March 1870, No. 257.

As the Sanitary Commissioner approves of the site selected for utilizing the sewage of the Left Wing Lines of the Perambore barracks, the Government sanction the transfer to the Municipality for that purpose of the ground in question.

2. The Government await the estimate, called for in their Order of the 15th December 1869, No. 1718, of the cost of the works connected with the project.
