*Proceedings of the Madras Government, Public Department,
15th March 1870.*

No. 68. Read the following letter from the Secretary to the Government of India, Home Department, (Public,) to the Chief Secretary to Government, Fort Saint George, dated Fort William, 28th February 1870, No. 1117.

With reference to your letter, No. 518, dated 21st April last, to the address of the Secretary to the Government of India in the Financial Department, on the subject of the expenses of the Vaccination Department in the Madras Presidency, I am directed to communicate the following observations and suggestions:—

2. The Government of India, in sanctioning in 1868 an increase to the establishment of vaccinators in the Madras Presidency from 145 to 255, remarked that Municipalities should provide a part of the expenditure for vaccination. The return forwarded by the Government of Madras shows that Municipalities contribute about Rupees 200 a month, and are willing to contribute not quite as much more. It moreover appears that, in seven stations, the Municipalities maintain vaccinators; that in four others they are willing to employ vaccinators, and that at Cuddalore a vaccinator is not considered necessary.

3. I am, therefore, to inquire whether the Vaccine Establishment paid by Government may not be reduced by twelve, and whether the other eight head quarter stations may not be fairly required to do what the other twelve have done,

7 Vaccinators on Rs. 18 each = 126 13 " " 10 " = 130 Total... <u>256</u>	or are willing to do, thus allowing a further reduction of eight Government vaccinators. The present staff of 255 vaccinators having been authorized in the proportion of 100 on Rupees 18 and 155 on Rupees 10,
--	---

the reduction might be carried out in the same proportion, thus representing a saving of Rupees 3072 annually.

No. 69. ORDER THEREON, 15th March 1870, No. 306.

Referred to the Inspector-General of the Indian Medical Department for report, and to the Presidents of the several Municipalities in which vaccinators are not now employed at the expense of the Commissioners, in order that it may be ascertained whether, and how far, they are willing to comply with the suggestion of the Government of India.

Nos. 68-69.

Referring for report letter from Government of India, communicating observations and suggestions on the subject of the expenses of the Vaccination Department in this Presidency.

No. 1117.

FROM

E. C. BAYLEY, Esq.,
Secretary to the Govt. of India,

TO

THE CHIEF SECRETARY TO THE GOVERNMENT
OF MADRAS.

Home Dept.

Public.

FORT WILLIAM, the 28th February 1870.

SIR,

WITH reference to your letter No. 518, dated 21st April last, to the address of the Secretary to the Government of India in the Financial Department, on the subject of the expenses of the Vaccination Department in the Madras Presidency, I am directed to communicate the following observations and suggestions.

2. The Government of India, in sanctioning in 1868 an increase to the establishment of vaccinators in the Madras Presidency from 145 to 255, remarked that Municipalities should provide a part of the expenditure for vaccination. The Return forwarded by the Government of Madras shows that Municipalities contribute about Rupees 200 a month, and are willing to contribute not quite as much more. It moreover appears that in seven stations the Municipalities maintain vaccinators: but in four others they are willing to maintain vaccinators: that at Cuddalore a vaccinator is not considered necessary.

3. I am therefore to enquire whether the Vaccine Establishment paid by Government may not be reduced by twelve, and whether the other eight head quarter stations may not be fairly required to do what the other twelve have done, or are willing to do, thus allowing a further reduction of eight Government vaccinators. The present staff of 255 vaccinators having been authorized in the proportion of

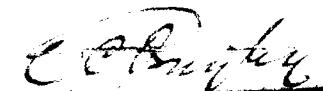

7 Vaccinators on Rs. 18 each	=	Rs. 126
13 " " 10 " "	=	130
Total		256

100 on Rupees 18 and 153 on Rupees 10, the reduction might be carried out in the same proportion, thus representing a saving of Rupees 3,072 annually.

I have the honor to be,

SIR,

Your most obedient Servant,

Secy. to the Govt. of India.
