Proceedings of the Madras Government, Public Department,
12th April 1870.

Read the following papers:—

No. 93. From the President of the Municipal Commissions, Bellary, to the Acting Chief Secretary to Government, Fort Saint George, dated Singanamalla, 22nd February 1870, No. 19.

Agreeably to the provisions of Section 31, Act X. of 1865, and the Order of Government, dated 11th July 1867, No. 820, I have the honour to submit estimates of proposed receipts and disbursements, for the year 1870-71, for the three Municipalities in this district specified in the margin.

Adoni.
Anantapur.
Bellary.

2. The estimates furnished by the Superintendent of Police for the constabulary required to be maintained in those towns for the same period are also forwarded.

3. Adverting to the large item put down for the repair of roads in the estimate of charges to be incurred in the Municipality at Bellary, I would beg to observe that although nominally repairs the work undertaken actually involves re-construction.

No. 94. From the President of the Municipal Commissions, Bellary, to the Acting Chief Secretary to Government, Fort Saint George, dated Gooty, 25th February 1870, No. 20.

Agreeably to the provisions of Section 31, Act X. of 1865, and the Order of Government, dated 11th July 1867, No. 820, I have the honour to submit estimates of proposed receipts and disbursements, for the year 1870-71, for the Municipality of Gooty in this district.

2. The estimate furnished by the Superintendent of Police for the constabulary required to be maintained in that town, and a list of proposed Commissioners for the same period, are also enclosed.

No. 95. From the President of the } Dated 4th April 1870, No. 36.
Municipal Commissions, Bellary.

No. 96. ORDER THEREON, 12th April 1870, No. 437.

With the foregoing letters the President of the Municipal Commissions in the Bellary District submits the annual estimates of receipts and disbursements for 1870-71, for the towns of Bellary, Gooty, Anantapur, and Adoni.

2. The Municipal Commissioners of Bellary propose to raise from local sources

Rupees 47,500. The State contribution has been wrongly calculated at twenty-five per cent. of this sum. The correct amount is Rupees 13,269-5-3, (not Rupees 11,875 as stated,) being one-fourth of the estimated expenditure under Section 25, this being less than the estimated current receipts. The sum entered on account of Government contribution ought to be

*Proceedings of the Madras Government, Public Department,

made up of the estimated amount of the last instalment of the contribution for 1869-70, after the necessary adjustments have been effected, *plus* three-fourths of the sum payable for 1870-71; but as the amount would probably be nearly equal to that above stated, the Government will allow the latter to stand. These remarks regarding the method of estimating the Government contribution apply to the statements received from the other Municipalities above mentioned. The amount at the disposal of the Commissioners of Bellary will be Rupees 63,092-5-3.

3. The estimated expenditure amounts to Rupees 61,698. The provision of

Rupees 2000 for general improvements must, in the absence of explanation as to their nature, be transferred to the head "Purposes other than those specified in Section 25." It is satisfactory that the Commissioners propose to increase their expenditure on conservancy,* but the Government gather that the contract system is still in force, and they doubt whether this is the most economical or efficient arrangement. It is proposed to entertain fifteen conservancy peons instead of four; and it would appear that this increase is necessary for the proper supervision of the contractors—a fact which does not afford favourable evidence as to the efficiency of that system. The sum of Rupees 500 for office-rent and contingencies should have been entered under "Establishment—Miscellaneous," and not under "Purposes other than those specified in Section 25." It will be transferred to the former head. The Government presume that the substitution of a second-class Inspector of Police for an officer of the third class, involving an increased charge amounting to 630 rupees, has the approval of the Commissioners and their President; and the item is therefore passed. The expenditure as now readjusted will be as shown in the margin of this paragraph.

tapur are the same as in the current year, and are expected to produce Rupees 5450. The estimate of receipts from tolls is nearly double that sanctioned in the last estimates, and is more than two-thirds of the whole sum to be raised within the town. The Government will not at present refuse to sanction the levy of tolls; but as it would appear from paragraph 4 of the Joint Magistrate's letter recorded in Proceedings, 5th November 1868, No. 1376, that much of the traffic tolled is through traffic between Bangalore and Secunderabad, the Commissioners should take notice that in the year 1871-72 they will probably be required to dispense with at least a considerable part of this revenue. The Government contribution will be Rupees 1525-7-0, being one-fourth

of the proposed expenditure under Section 25. The Commissioners' income will be Rupees 7360-7-0.

pay of two masaljis, will be transferred from "Conservancy" to "Purposes other than those specified in Section 25," as it is presumed that these servants are required for tending the town lamps. The total estimated expenditure is within the estimated receipts by Rupees 248-7-0.

6. The estimates of the Gooty Municipality provide for an expenditure of Rupees 9500. The receipts from local

taxes, &c., amount to 7600 rupees, and of this sum Rupees 5000 or two-thirds of the whole is derived from "tolls." The Commissioners must expect that their receipts from this source will hereafter be diminished. As in Bellary and Anantapur, the Government contribution has

been wrongly calculated. It will amount to Rupees 2225, and as no balance on the 31st May 1870 is, it would seem, expected, the amount at the disposal of the Commissioners will be Rupees 9825.

7. The expenditure has not been shown in sufficient detail. The President of the Commission will be good enough to see that, in future, the expenditure on

"New Works" and "Purposes other than those specified in Section 25"* is shown in full detail. The amounts at present

involved being small, the Government will not delay passing the estimates on account of them. The number of carts and bullocks, and the number and rates of pay of toties and sweepers entertained for conservancy purposes should have been specified. A sum of Rupees 2500, which seems to Government a very large provision, has been entered under "conservancy" for removing prickly-pear. The proposed expenditure is as follows:—

	RS.
New works	1,450
Repairs... .. .	1,046
Conservancy	4,583
Police... .. .	700
Establishment	1,116
	8,900
Purposes other than those specified in Section 25... .. .	600
Total...	9,500

* In the present estimate Rupees 500 and Rupees 600 respectively, are entered for expenditure under these heads without explanation.

Proceedings of the Madras Government, Public Department,
12th April 1870.

8. With regard to the charge for supervision of the Police at the rate of ten per cent. of the pay and allowances of the men, the attention of the Inspector-General is requested to paragraph 5 of G. O., 18th May 1869, No. 652, which is still unreplied to. It is observed that the charge has been omitted from the Anantapur estimate for 1870-71.

9. The estimates for the towns of Bellary, Anantapur, and Gooty, as above modified, are sanctioned. The usual notifications will be published in the *Fort Saint George Gazette*.

10. Before passing orders on the estimates of the Adoni Municipality, the Government desire to be informed why, and under what authority it is proposed to increase the scale of Police establishment to so great an extent. The sanctioned estimate for 1869-70, and that now submitted for 1870-71, are contrasted below:—

The President and the Inspector-General of Police will report upon the point without delay, in order that the estimates may be disposed of.

11. The President will also furnish details of the proposed expenditure in Adoni under the head "Repairs of Buildings," and "Purposes other than those specified in Section 25;" and will submit Memoranda showing the rates of license fees which have been adopted by the Municipalities of Adoni and Anantapur, as the sanction of Government to these rates which is necessary under Section 29 of the Act has not, it is believed, been yet obtained.

the Presd. of the Municipal
Commission, Bellary.

N. S. 22nd & 25th Feb. 1870. Nos 19 & 20
& 4 April 170. No 36.

Recd thereon 12 ~~March~~ ^{April} 1870. N. 437.

With the foregoing
letters the President of the
Municipal Commission
in the Bellary District sub-
mits the annual estimates
of receipts and disbursements
for 1870-71 for the towns of
Bellary, Gooty, Anantapur
and Adoni.

1. The Municipal Com-
missioners of Bellary
propose to raise from lo-
cal sources Rs 47,500

L.S.
J?

The State contribution has been wrongly calculated at 25 per cent of this sum. The correct amount is Rupees 13,269-5-3 (not Rs 11,875 as stated) being one fourth of the estimated expenditure under Section 25 this being less than the estimated current receipts. The sum entered on account of Government Contribution ought to be made up of the estimated amount of the last instalment of the Contribution for 1869-70. After the necessary adjustments have been effected, plus three fourths of the sum, payable for 1870-71, and as the amount would, probably be nearly equal to that above stated, the Govt. will

will allow the latter to stand. These remarks regarding the method of estimating the Government Contribution apply to the statements received from the other municipalities above mentioned. The amount at the disposal of the Commission of Rs 63,092-5-3.

3. The estimated expenditure amounts to Rs 61,698. The provision of Rs 2,000 for general improvements must, in the absence of explanation as to their nature, be transferred to the "head" purposes other than those specified in Section 25. It is satisfactory that the Commissioners propose to increase their expenditure.

expenditure on Conservancy, but the Government gettier that the Contract system is still in force and they doubt whether this is the most economical or efficient ^{arrangement}. It is proposed to entertain 15 Conservancy persons instead of 4; and it would appear that this increase is necessary in the higher submission of ~~to keep~~ the Contract ~~in~~ ~~to the~~ ~~work~~, a fact which does not afford ~~unfavourable~~ favorable evidence as to the efficiency of that system. The sum of Rs 500 for office rent and contingencies should have been entered under "Establishment - Miscellaneous" and not under "purposes other than those specified in Section 25". It will be transferred to the former head

head. The Govt presume that the substitution of a second class Inspector of Police for an Officer of the third class involving an increased charge amounting to 630 Rs, has the approval of the Commissioners and their President, and the item is therefore passed. The expenditure as now read

+ Rs. as before = justed will be as shown
 + Miscellaneous - 500-0-0

 7380-7-0

in the margin of this page.
 4. The rates, taxes and dues to be levied by the Commissioners of Quaintance are the same as in the current year and are expected to produce Rs 5450. The estimate of revenue from tolls is many double that sanctioned in the last estimates and is more than two thirds of the whole sum to be raised within the town

The Government will not at present refuse to sanction the levy of tolls, but it would appear from para 4 of the joint Magistrates letter recorded in Proceedings of the November 1888. N° 1376 that much of the traffic tolls is through traffic between Bangalore and Secunderabad. The Commissioners should take notice that in the year 1871-72 they will probably be required to dispense with at least a considerable part of this revenue. The Govt. Contribution will be Rs. 1525-7-0 being one fourth of the proposed expenditure under Section 25. The Commissioners' income will be Rs. 7,500-0-0.

5. The estimated expenditure

 Conservancy — 1820-0-0
 Police — 547-12-1
 Establishment — 1034-0-0
 6101-12-1
 For purposes other than those specified in Sec 25 — 1010-3-11
 7112-9-1
 amounts to Rs 7012-8-0.
 Rs 150 being the pay of two Maraldjis will be transferred from conservancy to 'purpo- ses other than those speci- fied in Section 25' as it is presumed that these servants are required for tending the town lamps. The total estimated expendi- ture is within the estimated receipts by Rs 248-7-0.

6. The estimates of the Govt. Municipality pro- vide for an expenditure of Rs 9500. The receipts from local taxes are amount to 7600 Rs and of this sum Rs 5000 or two-thirds of the whole is deriv- ed from "tolls". The Commis- sioners must expect that their receipts from this source may hereafter be diminished. As in Bellary and Anantapur, the Govt. contribution has been

Rate on houses & buildings	1500-0-0
Tolls	5000-0-0
Tax on carriages &c	400-0-0
Registration of cars	200-0-0
Fines & Miscellaneous	500-0-0
	7600-0-0
Govt. contribution	2225-0-0

been wrongly calculated. It will amount to Rs 2225 and as no balance on the 31st May 1870 is, it would seem, expected, the amount at the disposal of the Commissioners will be Rs 9825.

4. The expenditure has not been shown in sufficient detail. The President of the Commission will be good enough to see that in future, the expenditure on "new works" and purposes other than those specified in Section 25,

should be full detail. The amounts at present involved being small, the Govt. will not delay passing the estimates on account of them. The number of carts and bullocks, and the number and rates of pay of totis and sweepers maintained for conservancy purposes.

* In the present estimates Rs 500 and Rs 200 respectively, are entered for expenditure under Section 25, without explanation.

sum of Rs 2500 which seems to be a very large provision, has been entered under 'Conservancy' for removing filth.

63
purposes should have been specified. The proposed expenditure is as follows:

New Works —	Rs 1450.00
Repairs —	1046.00
Conservancy —	4588.00
Police —	700.00
Establishment —	1116.00

8900.00
Purposes other than those specified in Section 25 — 600.00
9500.00

8. With regard to the charges for supervision of the police at the rate of 10 per cent of the pay and allowances of the men, the attention of the Inspector General is requested to para 5 of G.O. 18th May 1869, No. 60, which is still unplied to. It is observed that the charge has been omitted from the

for 1870-71.

9. The estimates for the towns of Bellary Anantapur and Gooty as above modified are sanctioned. The usual notifications will be published in the Fort St George Gazette.

10. Before passing orders on the estimates of the Adoni municipality, the Govt. desire to be informed why, and under what authority it is proposed to increase the scale of Police establishment to so great an extent. The sanctioned estimate for 1869-70 and that now submitted for 1870-71 are contrasted below:—

Strength

Strength	1869-70	1870-71
Head Constable — 1	—	1
Deputy Constables — 1	—	2
Constable 1 st class — 5	—	7
Do — 2 nd class — 8	—	13

Contingencies —	113-8-0	116-6-0
Spotting —	140-12-8	283-10-0
	1850-4-3	2728-1-0

The President and the Inspector General of Police will report upon the point without delay in order that the estimates may be disposed of.

11. The President will also furnish details of the proposed expenditure in Adoni under the head "Repairs of Buildings" and "purposes other than those specified in Section 257."

and will submit memo-
- randa showing the rates
of license fees which have
been adopted by the Mu-
- nicipalities of Adoni and
Mantapur, as the sanction
of Govt. to these rates which
is necessary under section
of the Act, has not, it is
believed, been yet obtained.
