*Proceedings of the Madras Government, Public Department,
28th April 1870.*

No. 196. Read the following letter from the President of the Municipal Commission, Mangalore, to the Chief Secretary to Government, Fort Saint George, dated Mangalore, 25th March 1870, No. 51.

In pursuance of the provisions of Section 31 of the Towns' Improvement Act, (No. X. of 1865,) I have the honour to submit the statements of the proposed expenditure and estimated receipts of the Municipality of Mangalore for the official year 1870-71, accompanied by the Police Superintendent's estimate for the Town Police, and a list of Commissioners proposed for the ensuing year.

2. On a review of the estimate of new works, repairs, and establishment, already submitted for sanction, the Commissioners found that certain much-needed works and repairs had been omitted; consequently they have now included allotments under the following heads: (1,) completion of the Town Police station and fire-engine room; (2,) construction of twenty-five dust bins; (3,) purchase of a Norton's pump for the Thrishileshwar tank; and (4,) sundry repairs of Dassappa Naik's and Thrishileshwar tanks. The Commissioners have undertaken the completion of the Police station and fire-engine room during the current year in anticipation of Government sanction, their reasons for doing so being to avoid, for the future, the expense of renting a house for a Police station, as they have hitherto been obliged to do, and lest, in case of further delay, the monsoon may set in before the completion of the building and so delay it for a long time, besides injuring the work already done.

3. The works coming under the heads of public latrines and burial-grounds, which have been sanctioned for this year, still remain to be carried out, with the exception of German Mission Burial-ground and the Town Police station latrine; they are, therefore, transferred to the ensuing year's budget.

4. The Commissioners have proposed that measures be taken for watering the streets during the six hottest months of the year, because during that time the inhabitants, especially those living in the principal bazaars, are much annoyed by heat and dust, which inconvenience they hope to be thus enabled to counteract to some degree. Two allotments for this purpose appear under the head of "Conservancy."

5. As the Commissioners are to furnish the Sanitary Commissioner for Madras with returns of births and mortality, and the office work increases day by day, they are of opinion that the services of one more clerk on 15 rupees, and three Sub-Registrars (the Potails of the bazaar, Attawar and Codailbail,) on two rupees each per mensem, are required.

6. In conclusion, I beg to draw attention to the fact that the Commissioners have kept their estimated expenditure (Rupees 22,654-6-1) considerably below their estimated receipts, (Rupees 25,198-5-6,) in order that they may be able to meet any deficiency which may arise from the withdrawal of the Government contribution as contemplated by the new Act.

*Proceedings of the Madras Government, Public Department,
28th April 1870.*

No. 197. ORDER THEREON, 28th April 1870, No. 525.

The Commissioners of Mangalore have improperly included in their estimate of expenditure under Section 25 the following items:—

	RS.
<i>New works.</i> —Purchase of a Norton's Pump.....	100
<i>Conservancy.</i> —Watering streets.....	614
<i>Establishment.</i> —Registration of Births and Deaths } One Clerk on Rupees 15, and three Sub-Registrars }	252
Grant to the Civil Dispensary.....	100
Total...	1,066

These items do not fall within the scope of the Section referred to.

2. On the other hand a provision under Section 29 of Rupees 1500 for enclosing and improving burial-grounds should be included under "New works" in the Statement A. In the estimate of conservancy charges the cost of twenty toties at Rupees 8 per mensem, has been miscalculated, the correct amount being Rupees 1920, not Rupees 1800. Under "New works" Rupees 180 have been allotted for completing the new Police Station. This item must be transferred to Police. The nature of the miscellaneous charges under establishment has not been stated.

3. The corrections above indicated having been effected, the abstract of estimated expenditure is as follows:—

	RS.	A.	P.
New works.....	3,675	0	0
Repairs.....	3,200	0	0
Conservancy.....	4,511	0	0
Police.....	6,616	6	1

contribution have looked only to the expenditure, whereas the contribution must also be limited by the receipts. Certain receipts not particularized are shown under "Miscellaneous," and amount to Rupees 750. The Government are unable to say whether the receipts in question accrue under the Act or not, and must, therefore, exclude them from the computation. The current receipts including the State contribution

correctly calculated will be Rupees 18,973-5-4, or less than the estimated expenditure under Section 25. The contribution, therefore, is limited to one-fourth of the former, or Rupees 4743-5-4, not Rupees 5118-5-6. The gross receipts aggregate Rupees 24,823-5-4, being Rupees 2048-15-3 in excess of the expenditure.

5. The estimates as modified are sanctioned. The usual notifications will be published in the *Gazette*.
