*Proceedings of the Madras Government, Public Department,  
4th June 1870.*

No. 27. Read the following Despatch from the Right Honourable the Secretary of State for India, to His Excellency the Right Honourable the Governor-General of India in Council, dated India Office, London, 17th March 1870, No. 9, (Sanitary):—

I forward, herewith, for communication to the Sanitary Commissioner with the Government of your Excellency in Council, and to the Local Governments and Administrations, the accompanying copy of a Despatch from the Foreign Office, with enclosure, reporting that the Board of Health at Constantinople has decided on retaining the distinctive names of cholera now in use in India.

From C. S. RICE, Esq., to the Under Secretary of State, India Office, dated Foreign Office, 5th February 1870.

I am directed by the Secretary of State to transmit to you, to be laid before the Duke of Argyll, copy of a Despatch, No. C, from Her Majesty's Chargé d'Affaires at Constantinople, reporting that the Board of Health has decided on retaining the distinctive names of cholera now in use in India.

From H. BARON, Esq., to the Earl of Clarendon, K.G., &c., &c., dated Constantinople, 22nd January 1870, No. 6, (Commercial.)

With reference to your Lordship's Commercial, No. 99, of 4th December last, I have the honour to report that Mr. Dickson has called the attention of the Board of Health to the remark made in the Despatch, dated 24th August 1869, addressed by the Officiating Junior Secretary of the Bengal Government, to the Officiating Commissioner of Police at Calcutta, as to the distinction required by the Cholera Conference of 1866, in bills of health between European or non-invading cholera and Asiatic or the invading form.

2. The Board is quite aware that such distinction could not well be applied to cholera in *India*, and it has, therefore, requested Dr. Dickson to say that the terms *sporadic* and *epidemic* at present in use there are excellent, and need not be altered.
