Public DEPARTMENT.

G.O. No.	771	Press ~~Mis.~~
Dated	20-6-1937	

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Department,
20th June 1870.

No. 72. Read the following letter from the Officiating Secretary to the Chief Commissioner of Mysore, to the Chief Secretary to Government, Fort Saint George, dated Nandidroog, 9th June 1870, No. 1341-8G. :—

The Deputy Inspector-General of the Indian Medical Department, Mysore Division, having suggested, in view to the prevention of the introduction of cholera into Bangalore by railway travellers, that some means might be adopted for inspecting the latter at the Jollarpett junction, and for the detention and treatment there of persons found to be suffering from the disease, I have the honour, by desire of the Officiating Chief Commissioner of Mysore, to solicit that the subject may be laid before His Excellency the Governor in Council for his consideration, and to submit that, as the disease was so introduced last year into Bangalore, it seems to the Officiating Chief Commissioner very desirable that some such precaution as that suggested should be adopted. Colonel Meade would further suggest that it would be advantageous if such inspection in a general way were held at all stations, in view to persons suffering from the disease being at once removed from the train and placed under treatment.

No. 73. ORDER THEREON, 20th June 1870, No. 771.

Resolved that this letter be communicated to the Consulting Engineer for Railways, with a view to his conferring with the Manager of the Madras Railway as to the feasibility and the best means of carrying out the suggestion of the Chief Commissioner of Mysore.

(True Extract.)

that the subject may be laid
before His Excellency the Governor
in Council for his consideration
and to submit that as the disease
was so introduced last year into
Bangalore it seems to the Officiating
Chief Commissioner very desirable
that some such precaution as
that suggested should be adopted.
Colonel Meade would further
suggest that it would be advan-
tageous if such inspection in a
general way were held at all
stations in view to persons suffer-
ing from the disease being at
once removed from the train and
placed under treatment.

Order thereon 20 June 1870 No. 771.

Resolved that this
letter be communicated to the Con-
sulting Engineer for Railways
with a view to his conferring
with

3
with the manager of the Madras
Railway as to the feasibility and
the best means of carrying out
the suggestion of the Chief Com-
missioner, Mysore.

Mysore Chief Commissioner's Office.

From,

The Offg: Secretary to the
Chief Commissioner
of Mysore.

To, The Chief Secretary
to Government
Fort St. George.

Dated Mandidroog 9th June 1870.

Sir,

The Deputy Inspector General, Indian Medical
Department, Mysore Division, having suggested,
in view to the prevention of the introduction of
Cholera into Bangalore by Railway Travellers, that
some means might be adopted for inspecting
the latter at the Jollarpet Junction, and for
the detention and treatment there of persons
found to be suffering from the disease, I have
the honor, by desire of the Offg: Chief Commissioner
of Mysore, to solicit that the subject may be
laid before His Excellency the Governor in Council
for his consideration, and to submit that, as the
disease was so introduced last year into Bangalore,

it seems to the Offg: Chief Commissioner very desirable that some such precaution as that suggested should be adopted. Colonel Meade would further suggest that it would be advantageous if such inspection in a general way were held at all Stations, in view to persons suffering from the disease being at once removed from the train and placed under treatment.

I have the honor to be

Sir

Your Most Obedient Servant

[Signature]

Offg: Secretary.

I agree with Mr. Smith in thinking that we must be cautious in conferring any extraordinary power of examination and charge on subordinate Railway authorities. He suggests that the doctor of a carriage should where there is a hospital. People must use some means for the removal of their fellow creatures.

This kind of the
 is in the letter. The
 Main long act as well
 contains the Co. I have
 known, to be known to
 select the being from
 to be often in cases.
 To let them know
 of all classes. It is
 to let in a train it may
 be used but by the end
 to classes & of the train.
 to have any hospital
 at present but a small
 station where the rules
 could be written. They
 can not be left on the
 track side. I hope.

Per Mr. 1870. Sept
