MADRAS RECORD OFFICE.

Government of Madras.

Public DEPARTMENT.

G.O. No. <i>824</i>	Press Mis.
Dated <i>30-6-1870</i>	

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Department,
30th June 1870.

Read the following papers :—

No. 119. From the Acting Collector of Malabar, to the Chief Secretary to Government, Fort Saint George, dated Beypore, 17th March 1870, No. 30-A.

I have the honour to report on the working of the several Civil Hospitals and Dispensaries in this District during the year ending 31st December 1869, as directed in G. O., dated 5th April 1867, No. 358.

Tellicherry, Calicut, Manjeri, Ponani, Palghat, Cochin, and Gudalur. There are seven Civil Hospitals and Dispensaries in the district, at the places mentioned in the margin.

2. The subjoined statement shows the number of patients who received aid from the several Hospitals during the year, as compared with those treated in the previous year :—

	1868.			1869.		
	In-patients.	Out-patients.	Total.	In-patients.	Out-patients.	Total.

* The Manjeri Hospital was opened in September 1868.

† The Ponani Hospital was opened in October 1868.

‡ Increase not accounted for.

30th June 1870.

4. The health of the people was generally good during the period under report, and no epidemic of any kind prevailed.

It is satisfactory to notice that the number of persons who received medical aid from the Hospitals shows an increase everywhere, notwithstanding the generally healthy character of the season, inasmuch as it indicates a better appreciation on the part of the public of the usefulness of these institutions, and increasing confidence in European treatment.

5. I will now notice separately the report of the several Medical Officers.

6. TELlicherry.—There has been considerable improvement in the management of the Hospital and Civil Dispensary at this station. The number of patients treated has increased by nearly fifty per cent. during the year.

The death-rate among the in-patients is high, about eight per cent.; but it appears that most of the patients who succumbed were almost past hope on their admission to the Hospital.

The usual financial Statement of Receipts and Disbursements has not been furnished to me by the Officer in charge of the Dispensary.

I have called for it, and any remarks I may have to make on its receipt will be submitted separately.

7. CALICUT.—The Civil Hospital and Dispensary at Calicut is deservedly popular, and is frequented by all classes. The building is in good repair and kept clean. Good accommodation is afforded to in-patients, and every attention paid to their diet, bedding, &c. When I visited the Dispensary in October, neither the building nor the bedding was clean, but Dr. Roberts has accounted for these defects.

I would beg attention to Dr. Roberts' remarks regarding the treatment of lunatics in the Hospital. On the completion of the Lunatic Asylum at this station, which I hope will be finished within the next official year, the inconvenience complained of will cease. Until then lunatics must be sent to the Dispensary for observation prior to their being sent to one of the existing Asylums in accordance with G. O., No. 1902, of 18th December 1868.

I was not aware, until the receipt of Dr. Roberts' report, that there was a lunatic in the Dispensary. I have now requested him to furnish me with the required certificate of lunacy, and on its receipt the lad will be sent to Madras.

Dr. Roberts considers the Hospital latrines to be unsuited to natives, and the Sub-Committee have sanctioned the erection of new ones with asphalt floors and accommodation on the "trough" principle.

The usual statement showing the funded capital has not been submitted, but I believe the capital is about the same as last year. The increase in the amount of interest realized is due to the interest on Rupees 15,000 withdrawn from the Bank in September 1868, and lent on mortgage to private parties at nine per cent. interest; the rate paid by the Bank having been only five per cent.

I do not consider the financial Statement of Receipts and Disbursements embraces all the transactions of the year, as there is no entry showing the Government contribution in the shape of medicines supplied, &c. It should also be

30th June 1870.

clearly shown whether or not there were any sick pauper travellers treated at the cost of Government during the year.

8. MANJERI.—The out-houses, viz., cook-room, dead-house, and privies have been completed during the year. The Hospital building, however, requires petty repairs, which will be carried out when the funds admit of the expenditure. The institution is a great boon to the people of the Ernad and Walluvanad Taluqs, in which fever is more or less prevalent throughout the year. It is supported mainly by local subscriptions, which amounted to nearly 1000 rupees during the year, Government only contributing medicines, and the pay of the dresser.

Owing to the present inadequacy of funds, the operations of this institution are curtailed. The diet allowed is exceedingly poor, and the supply of clothing and furniture is very limited. The inhabitants having, as noticed in the last report, contributed largely to the Calicut Dispensary are unable and unwilling to pay more for their own Dispensary, and consequently the efforts made to raise additional subscriptions have not succeeded.

9. PONANI.—A rented building is used as the Hospital at this station. The number of patients to whom medical aid was afforded was 1486, and, considering that the institution has been only recently established, and is situated in a town inhabited mainly by Moplahs, who are generally slow to avail themselves of the benefits of European medical treatment, the progress made is very satisfactory. The inhabitants have contributed during the year only Rupees 338-6-6, which, with the Government grant of Rupees 642 for the pay of the dresser, is scarcely sufficient for the expenses of the institution, and the Managing Committee are compelled, owing to paucity of funds, to make a small money payment of two annas per head as maintenance allowance to in-patients, instead of employing servants and dieting the patients in the building.

In the financial statement, submitted with the report on this Dispensary, Rupees 224-15-7 is shown as the balance brought forward from last year's accounts. A reference to the accounts, however, shows that the balance at the end of the year was only Rupees 168. The difference has not been accounted for. An explanation has, however, been called for. Under the head of "Receipts" an item of Rupees 392-5-7 occurs under "Miscellaneous." This appears to be an item of expenditure, and not one of receipt.

10. PALGHAT.—The report received regarding the working of the Dispensary at this station is very meagre. No financial statements have been submitted with it. These have been called for, and will be reported on separately when received.

This Hospital, as the Government are aware, had received very little support from the inhabitants of the Palghat Taluq, prior to the receipt of G. O., dated 19th March 1869, No. 355, Public Department. Some Rupees 1000 have been since collected and lodged in the Calicut Bank. A portion of this sum has been withdrawn to meet the current expenditure.

11. COCHIN.—The popularity of the Hospital at this station is steadily increasing under the able management of Dr. Whitton. The general cleanliness and order

which prevails in it, and the uniform attention paid to the patients, has been noticed by all who have visited the institution.

It is in contemplation to establish a Sailors' and a Small-pox Hospital at this station.

In the financial statement the funds invested in former years are included among the items of receipts for the year, whereas only the interest on them should be shown in it, the accumulated capital being entered in a separate statement with particulars of when and how invested, and the rates of interest obtained.

The subscriptions and donations should also be shown separately, as also the particulars of contribution by Natives and Europeans under each head.

The aggregate receipts of the year amounted to Rupees 3557-2-6, and the charges to Rupees 2855-14-0, leaving a balance of Rupees 701-4-6, of which Rupees 591 were invested in the Bank, thus raising the amount of funded capital to Rupees 3500.

12. GUDALUR.—The Civil Hospital and Dispensary at Gudalur has also worked well during the year. The number of patients treated was 4446 against 264 of 1868. The Hospital is in good order, and is very well managed.

The financial statement shows an increase of expenditure over receipts. This appears to be due to the balance in hand of 1868, viz., Rupees 418-14-3, not having been brought forward in the year's accounts.

	Rs.	A.	P.
Receipts.....	4,141	1	11
Expenditure.....	4,300	9	11
Increase...	159	8	0

13. Government are aware that the improvement of the Manantoddy Hospital, and the establishment of a similar institution at Vythery, has been for some time under consideration. I regret to have to report that the scheme has made but little progress. The planters in North Wynaad have not come forward with subscriptions, and seem to be unwilling to support the Hospital when the improvements are carried out. At present the condition of the institution is most deplorable. Government pay Rupees 150 per mensem to Dr. Cream for attendance and medicine. More than that they have declined to do. The consequence is that the building is very much out of repair and in a most filthy state. No sweeper is employed, and the condition of the inmates may be more easily imagined than described. Some remedy must be afforded, and if Government are disposed to consider favourably the reduction of the grant to Dr. Cream, and the expenditure of the amount so saved in the up-keep of the establishment, I will submit my proposals in a more detailed manner.

14. Rupees 1632-4-0 have been paid on account of subscriptions to the new Hospital at Vythery. Rupees 1330 still remain to be paid, but I am very doubtful if the planters will pay up their promised subscriptions. I recently sent a circular requesting early payment, and the answers I have hitherto received are not encouraging. There is every prospect of the ensuing year being exceedingly favourable for coffee, and should this anticipation be realized, we may succeed in getting the subscriptions collected. A medical officer has recently settled at Vythery, and the planters are not, therefore, in such need of medical attendance as formerly.

No. 120. From the Collector of Malabar, to the Chief Secretary to Government, Fort Saint George, dated Calicut, 14th April 1870, No. 36.

With reference to the Official Memorandum received from the Under Secretary to Government, dated 9th instant, No. 81, I have the honour to forward the accompanying Dispensary Reports, as noted in the margin, for the past year, and to request that they may be returned to this office when no longer required.

No. 121. ORDER THEREON, 30th June 1870, No. 824.

In the letter above recorded the Acting Collector of Malabar submits a report on the working of the several Hospitals and Dispensaries in the Malabar District for the year 1869.

2. The report is, on the whole, very satisfactory, both as regards the financial condition and the management of these institutions. The number of persons receiving medical aid at the Hospitals and Dispensaries has very largely increased, although the year has been unusually healthy, indicating, as remarked by the Acting Collector, a better appreciation on the part of the public of the usefulness of these institutions, and increasing confidence in European treatment.

3. The attention of the Department of Public Works will be directed to the necessity of completing, at an early date, the Lunatic Asylum at Calicut, there being no means available at the small Hospitals and Dispensaries of the District for the proper control and treatment of the insane.

4. It is gratifying to find that the Hospital at Ponani has proved useful, and that the Moplahs are so willing to avail themselves of the benefits of the institution.

5. The Hospital at Cochin continues to maintain the high character which it has acquired under the able direction of Dr. Whitton.

6. The Government learn with satisfaction that the inhabitants of Palghat have come forward and contributed 1000 rupees to the support of the Dispensary which was reported last year to be in an unsatisfactory condition.

7. The Government regret to learn that the planters in Wynaad evince so little disposition to contribute to the improvement of the Manantoddy Hospital, and to the establishment of a similar institution at Vythery.

8. The Government will be prepared to consider the propriety of a reduction of the allowance to Dr. Cream, with a view to providing for the cost of the Hospital Establishment, on hearing from the Collector the result of his appeal to the planters of Wynaad for the subscriptions which were formerly promised.

Tellicherry -

4 The health of the people was generally good during the period under report and no epidemic of any kind prevailed.

It is satisfactory to notice that the number of persons who received medical aid from the hospitals shows an increase every where, notwithstanding the generally healthy character of the season, in as much as it indicates a better appreciation on the part of the public of the usefulness of these institutions, and increasing confidence in European treatment.

5 I will now notice separately the report of the several medical officers.

6 There has been considerable improvement in the management of the Hospital & Civil Dispensary at this station. The number of patients treated has increased by nearly 50 percent during the year.

The death rate among the in-patients is high - about 8 per cent; but it appears that most of the patients who succumbed were almost past hope on their admission to the Hospital.

The

The usual financial Statement of receipts and disbursements has not been furnished to me by the officer in charge of the Dispensary.

I have called for it and any remarks I may have to make on its receipt will be submitted separately.

7. The Civil Hospital & Dispensary at Calicut is deservedly popular & is frequented by all classes. The building is in good repair & kept clean - Good accommodation is afforded to inpatients and every attention paid to their diet, bedding &c.

When I visited the Dispensary in October, neither the building nor the bedding was clean, but Dr. Roberts has accounted for these defects.

I would beg attention to Dr. Roberts' remarks regarding the treatment of lunatics in the Hospital. On the completion of the Lunatic Asylum at this station, which I hope will be finished within the next official year, the inconvenience complained of, will cease. Until then lunatics must be sent to the Dispensary for observation prior to their being sent

to

Calicut.

to one of the existing Asylums in accordance with G.O. No. 1902 of 18 December 1868.

I was not aware until the receipt of Dr. Roberts' report that there was a lunatic in the Dispensary. I have now requested him to furnish me with the required certificate of lunacy, and on its receipt the lad will be sent to Madras.

Dr. Roberts considers the Hospital Latrines to be unsuited to Natives, and the Sub Committee have sanctioned the erection of new ones with asphalted floors & accommodation on the "Trough" principle.

The usual statement showing the funded capital has not been submitted, but I believe the capital is about the same as last year. The increase in the amount of interest realized is due to the interest on ^{Rs.} 15,000 withdrawn from the Bank in September 1868, and lent on Mortgage to private parties at 9% interest, the rate paid by the Bank having been only 5%.

I

1. Do not consider the financial
2. statement of receipts & disburse-
3. ments embraces all the transactions
4. of the year, as there is no entry show-
5. ing the Government contribution
6. in the shape of medicines supplied &c.
7. It should also be clearly shown whether
8. or not there were any sick pauper travellers
9. treated at the cost of Government
10. during the year.

11. 8 The out houses viz Cook-room,
12. dead-house, & privies have been com-
13. pleted during the year. The Hos-
14. pital building however requires petty
15. repairs which will be carried out
16. when the funds admit of the ex-
17. penditure. The institution is a great
18. boon to the people of the Ennad &
19. Walluvanad Taluks in which fever
20. is more or less prevalent throughout
21. the year. It is supported mainly
22. by local subscriptions which amounted
23. to nearly 1000 Rs during the year,
24. Government only contributing medicines
25. and the pay of the Dresser.

26. Owing to the present inadequacy
27. of

Manjeri

Ponani

13x
of funds, the operations of this insti-
-tution are curtailed. The diet allow-
-ed is exceedingly poor, and the supply
of clothing and furniture is very
limited. The inhabitants, having
as noticed in the last report con-
-tributed largely to the Calicut
dispensary, are unable & unwilling
to pay more for their own dispensary,
and consequently the efforts made to
raise additional subscriptions have
not succeeded.

9. A rented building is used as
the Hospital at this station. The
number of patients to whom medical
aid was afforded was 1,486, and
considering that the institution has
been only recently established and
is situated in a town inhabited
mainly, ———— by Nipalaks,
who are generally slow to avail
themselves of the benefit of European
medical treatment, the progress made
is very satisfactory. The inhabitants
have contributed during the year
only Rs 338-6-6 which with the
Govt

Government grant of Rs 642 ...
for the pay of the Doctor is scarcely
sufficient for the expenses of the
institution, and the managing Com-
mittee are compelled, owing to
paucity of funds, to make a small
money payment of 2 Annas per
head as maintenance allowance
to in-patients, instead of employing
servants & dusting the patients in
the building -

In the financial statement sub-
mitted with the report on this Dis-
pensary Rs 224-15-7 is shown as the
balance brought forward from last
year's accounts - A reference to the
accounts however shows that the
balance at the end of the year
was only Rs 168- The difference has
not been accounted for - An ex-
planation has however been called
for Under the head of Receipts
an item of Rs 392-5-7 occurs under
Miscellaneous. This appears to be an
item of expenditure and not one of
receipt.

The

Palghat-10 The report received regarding the
working of the Dispensary at this
station is very meagre. No financial
statements have been submitted with
it. These have been called for and
will be reported on separately when
received -

Sub. report! This Hospital as the Government
are aware had received very little
support from the inhabitants of the
Palghat Taluk, prior to the receipt
of G.O. dated 19 March 1869 n^o 355-
Some Rs 1000 have been since collected
and lodged in the Calcut Bank. A
portion of this sum has been put down
to meet the current expenditure -

Cochin. 11. The popularity of the Hospital
at this station is steadily increasing
under the able management of
Dr Whetton. The general cleanliness
and order which prevails in it,
and the uniform attention paid
to the patients has been noticed
by all who have visited the insti-
tution -

It is in contemplation to establish

a Sailors' and a small pox hospital at this station.

In the financial statement the funds invested in former years are included among the items of receipts for the year, whereas only the interest on them should be shown in it, the accumulated capital, ^{being entered} in a separate statement with particulars of when and how invested, and the rates of interest obtained.

The Subscriptions and Donations should also be shown separately, as also the particulars of contribution by Natives & Europeans under each head.

The aggregate receipts of the year amounted to Rs. 3537-2-6 and the charges to Rs. 2855-14-0, leaving a balance of Rs. 701-14-6 of which Rs. 591 were invested in the Bank, thus raising the amount of funded capital to Rs. 3500.

12. The Civil Hospital & Dispensary at Gudalur has also worked well during the year. The number of patients treated

Gudalur

Receipts	Rs.	a	p
	4141	1	11
Expenditure	4300	9	11
Increase	158	8	0

treated was 4146 against 264 of 1868. The Hospital is in good order & is very well managed.

The financial Statement shows an increase of expenditure over receipts. This appears to be due to the balance in hand of 1868 viz. Rs. 418-14-3 not having been brought forward in the year's accounts.

13. Government are aware that the improvement of the Manantoddi Hospital and the establishment of a similar institution at Nylthery has been for some time under consideration. I regret to have to report that the scheme has made but little progress. The Planters in North Wynad have not come forward with subscriptions, and seem to be unwilling to support the Hospital when the improvements are carried out.

At present the condition of the institution is most deplorable. Government pay Rs. 150 per mensem to Dr. Cream for attendance and medicine. More than that they have declined

declined to do. The consequence is that the building is very much out of repair and in ^amost filthy state. No sweeper is employed, and the condition of the inmates may be more easily imagined than described. Some remedy must be afforded, and if Government are disposed to consider favorably the reduction of the grant to Dr. Cream, and the expenditure of the amount so saved in the up-keep of the Establishment, I will submit my proposals in a more detailed manner.

Rs 1632-4-0 have been paid on account of subscriptions to the new Hospital at Vythery. Rs 1330- still remain to be paid, but I am very doubtful if the Donors will pay up their promised subscriptions. I recently sent a circular requesting early payment, and the answers I have hitherto received are not encouraging. There is every prospect of the ensuing year being exceedingly favorable for

for coffee, and should this anticipation be realized, we may succeed in getting the subscriptions collected. A medical officer has recently settled at Vythery and the Donors are not therefore, in such need of medical attendance as formerly.

Have the honor to be,
