*Proceedings of the Madras Government, Public Department,
29th July 1870.*

No. 128. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, Fort Saint George, dated Madras, 9th July 1870, No. 1579 :—

With reference to the orders as per margin, I have the honour to forward
G. O., No. 87, 8th Jan. 1870, a plan and estimate, amounting to Rupees 444, for the
,, ,, 60, 9th March 1870. cost of the works for conveying the sewage of the left-wing lines of the Perambore Barracks to a spot west of the present covered drain in the bank of the Otary nullah, and for clearing the ground of prickly-pear.

2. The estimate provides for the construction of a well to receive the sewage at the embouchure of a covered drain which was built two years ago by our department for the purpose of discharging the refuse water of the left-wing lines of the barracks into the Otary nullah, for erecting a picottah, fixing pipes across the bridge as well as throwing up an embankment, to raise and lead the sewage to the land which is to be cleared and prepared for it.

3. The levels were made and the estimate nearly ready when I inspected the locality with the Executive Engineer lately in charge, but on Captain Goddard's departure for Europe there was delay incurred in completing the estimate and in ascertaining the cost of some of the items included in it.

Transferred to the Public Department, with reference to Proceedings in that Department, No. 1718, dated 15th December 1869.

FORT SAINT GEORGE, (Signed) C. A. ORR, Colonel, R.E.,
