MADRAS RECORD OFFICE.

Government of Madras.

Public DEPARTMENT.

G.O. No.	972	Press
		Mis.
Dated	14-8-1870	

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Department,
4th August 1870.*

No. 21. Read the following letter from the President of the Municipal Commission, Cuddapah, to the Chief Secretary to Government, Fort Saint George, dated Cuddapah, 27th June 1870, No. 26 :—

Agreeably to paragraph 4 of the Government Proceedings, No. 820, dated the 11th July 1867, I have the honour to forward, herewith, the Annual Report of the Cuddapah Municipality, and statements in detail of all the works executed by the Municipal Commissioners, and of all sums received and expended by them, as provided in Section 32 of the Act.

2. I deputed N. Murugasem Moodelliar, the Treasury Deputy Collector, to audit the accounts, to whom an honorarium of Rupees 100 will be disbursed from the Municipal Fund.

*ANNUAL REPORT of the Cuddapah Municipality for the year commencing 1st May 1869
and ending 30th April 1870.*

I have the honour to submit my Annual Report of this Municipality with great satisfaction.

2. The resources of the Municipality this year did not differ from those of the preceding twelve months. The income was derived chiefly from tolls, trade and house-taxes, license fees on carriages and animals, and registration of carts.

3. The estimated receipts, including the Government contribution for the year under review, were Rupees 29,394. The actual collections, as per Statement C. annexed, amounted to Rupees 28,256-4-9, or Rupees 1137-11-3 short of the estimate. The probable expenditure for the year was estimated at Rupees 29,394, and the actual sum expended was, as per Statement B., Rupees 27,994-6-0, or Rupees 1399-10-0 short.

4. NEW WORKS AND IMPROVEMENTS.—Eight temporary latrines have been constructed, and the Commissioners have introduced the trench and dry-earth system as suggested by Dr. Arnold Smith, which is working satisfactorily. The old trunk road from Madras to Bellary, (the longest road in this Municipality, not hitherto repaired by the Commissioners,) was undertaken during this year, the raising and widening of which cost Rupees 5679-14-4. The Commissioners, however, believe that nothing but the most trifling repair upon this road will be required for some time to come.

5. REPAIRS.—The Commissioners spent Rupees 1141-0-1 in repairing wells, tunnels, and latrines, and Rupees 2854-14-4 on other roads.

6. CONSERVANCY.—The amount estimated was Rupees 6700, and the actual expenditure Rupees 7237-13-7, or Rupees 537-13-7 in excess of the estimate.

7. The town has been kept remarkably clean by the Conservancy Department. There are ten bandies and twenty-eight scavengers employed for this purpose. The sweepings are carried away to some distance and deposited in pits and sold by public auction at stated periods. Nearly 150 dust-bins of blue stones have been constructed in different parts of the town. A great number of narrow and crooked lanes, through which no carts could pass before, have been widened and straightened. Many ruined and unoccupied houses and old mud walls were removed and levelled. Most of the pits and ditches within the town have been filled up and drained. Almost all the prickly-pears within the Municipal limits have also been removed and destroyed. There is every reason to believe that the health of the inhabitants has been considerably improved since the introduction of the Act. Fever is gradually diminishing, and assuming a milder and more tractable form. Cholera prevailed in an epidemic form to a limited extent, in the town of Cuddapah, during the month of August, and caused only about twenty deaths, though it committed great havoc in the surrounding hamlets, and some of the villages were temporarily deserted by the people. During its prevalence every precaution was adopted to arrest its progress, and medicines

Proceedings of the Madras Government, Public Department,
4th August 1870.

and medical aid were freely supplied to the people attacked with the disease. I may here mention that the Commissioners, at the suggestion of the Acting Zillah Surgeon, employed ten of the advanced native medical students from the class which attended and received instruction at the Civil Dispensary, to carry out the system of house-to-house visitation during the prevalence of the epidemic. The Commissioners remunerated them for their services, which they performed to their entire satisfaction. I am given to understand that people gratefully appreciated this timely and unexpected aid.

8. The Municipal accounts have been audited by the Treasury Deputy Collector—an official unconnected with the Commission.

(Signed) G. VANSAGNEW,
Presdt. of the Muncpl. Commn.

No. 22. ORDER THEREON, 4th August 1870, No. 972.

The foregoing papers are the Annual Report, and Statements of Receipts and Expenditure, of the Municipality of Cuddapah, for the year 1869-70.

2. The statements have been very incorrectly prepared, a number of items of receipt having been improperly included under fines and miscellaneous and of items of disbursement in the expenditure under Section 25. Further, the statements in addition to the actual transactions of the year include sums due on account of the year. In all cases the statements should show only the sums actually received and paid within the year to which they relate, any adjustments which may be necessary, and any anticipated receipts which the Commissioners may think fit to notice, being referred to in the report. The same erroneous principle which the Commissioners have now followed was adopted by them in framing the statements for 1868-69.

3. The marginal abstract exhibits the receipts correctly classified. The only items which can be retained under fines

Current—	RS.	A.	P.

Recoveries (Police).....	289	6	4
Balance brought forward.....	271	12	5
Total...	28,405	5	1

and miscellaneous as receipts, with reference to which Government should contribute, are Magisterial fines and distress fees, as these accrue under the provisions of the Act. The recoveries for the removal of prickly-pear should have been set-off against the sum entered under Conservancy as expended by the Commissioners for that purpose. The receipts of State contribution for the current year Rupees 5629-12-8 include, the Government presume, the sum of Rupees 53-12-4 entered

as due under the balance carried forward; as, if it be otherwise, the balance, Rupees 186-7-2, declared to have been in the hands of the Commissioners at the close of the year is incorrect. The receipts of State contribution are, therefore, taken at Rupees 5576-0-4. The balance brought forward from 1868-69, Rupees 271-12-5, is the real balance, but does not agree with the abstracts embodied in G. O., 7th September 1869, No. 1253, for the reason given in the last paragraph, that those abstracts are in fact fictitious.

Proceedings of the Madras Government, Public Department,
4th August 1870.

4. Notwithstanding the orders conveyed in paragraph 6 of the G. O. above cited, the sum of Rupees 1088-8-10 has been paid to the Commissioners without making the deduction there ordered, amounting to Rupees 113-10-6, and being

RS.	A.	P.
• 72	5	7
† 41	4	11
113	10	6

the State contribution drawn on the excess payment for Police* and on the sum paid by the Department of Public Works for the repair of the trunk road.†

5. The following items, viz., *New works*, wells Rupees 460, *Repairs*, wells Rupees 189-10-3, *Conservancy*, temporary water-pandals, Rupees 172-12-5, water-carts Rupees 63, *Establishment*, poor-house Rupees 120, avenue trees Rupees 148-1-0, (in default of explanation,) boundary stones Rupees 100, killing dogs Rupees 43-6-0, *Fort Saint George Gazette* Rupees 10, Court costs Rupees 59-10-9, in all Rupees 1366-8-5, must be transferred to “Purposes other than those specified in Section 25.” The last of these items seems to indicate that the Commissioners have been engaged in litigation, but the matter is not noticed in the report. The item “Removing encroachments Rupees 622-6-2” under Conservancy, seems to represent the cost of the widening of streets and lanes referred to in the report, and should have appeared under New Works. The sum overpaid for Police, Rupees 293-7-8, should be shown as advance recoverable, and not included in the balance in hand.

6. The Statement B. of expenditure, revised with reference to the above remarks, is as follows:—

	RS.	A.	P.
New Works	7,728	14	0
Repairs	3,899	6	10
Conservancy	6,310	11	3
Police	4,950	2	2
Establishment	2,841	15	10
	25,731	2	1
Purposes other than those specified in Section 25	2,194	4	2
Advances recoverable	293	7	8
Balance carried forward	136	7	2
Total...	28,405	5	1

7. The State contribution falls to be calculated on the current receipts and not on the expenditure, and amounts to Rupees 6228-5-10. The Commissioners have received directly Rupees 5576-0-4, and by remission of Police charges Rupees 1549-2-6. They have, therefore, overdrawn Rupees 896-13-0. Adding the items referred to in paragraph 4 supra, they owe to Government Rupees 1010-7-6, or allowing them to set-off the excess payment for Police, Rupees 716-15-10, which sum the President will at once adjust from the Municipal Fund.

8. The working of the Municipality has continued to be attended with excellent results during the year under review. Conservancy has been well attended to, and the Government have perused with much pleasure the following extract from the report:—

“There is every reason to believe that the health of the inhabitants has been considerably improved since the introduction of the Act. Fever is gradually

Proceedings of the Madras Government, Public Department,
4th August 1870.

diminishing and assuming a milder and more tractable form. Cholera prevailed in an epidemic form to a limited extent, in the town of Cuddapah, during the month of August, and caused only about twenty deaths, though it committed great havoc in the surrounding hamlets, and some of the villages were temporarily deserted by the people. During its prevalence every precaution was adopted to arrest its progress, and medicines and medical aid were freely supplied to the people attacked with the disease. I may here mention that the Commissioners, at the suggestion of the Acting Zillah Surgeon, employed ten of the advanced native medical students from the class which attended and received instruction at the Civil Dispensary, to carry out the system of house-to-house visitation during the prevalence of the epidemic. The Commissioners remunerated them for their services, which they performed to their entire satisfaction. I am given to understand that people gratefully appreciated this timely and unexpected aid."

9. The Auditor's report on the accounts should have been submitted for the perusal of Government.

113-10-6

These may be for selling on the limits of the municipality or some purpose which might fairly be considered necessary for the management, & so come under Section 25. The point is not of importance as the receipt & not the expenditure determine the contribution in the present case.

the sum paid by the S.P.M. for the repair of the Trunk Road.

5. The following items viz. New Works Wells No 460, Repairs Wells No 189-10-3, Conservancy, Temporary water ponds No 172-12-5, Water carts No 63, Establishment Poor house No 120, Avenue trees No 148-1-0 (in default of explanation) Boundary stones No 100, Killing dogs No 43-6-0, Fort St. George Bayette No 10, Court costs No 59-10-9, in all No 1366-8-5 must be transferred to "Purposes other than those specified in Section 25." The last of these items seems to indicate that the Commissioners have been engaged in litigation, but the matter is not noticed in the report. The item "removing riverbank" No 622-6-2" under Conservancy

Conservancy, seems to represent the cost of the widening of streets and lanes referred to in the report, and should have appeared under New Works. The sum over paid for Police Rs. 293-7-8. should be shown as advance recoverable and not included in the balance in hand.

b. The Statement B. of expenditure, revised with reference to the above remarks, is as follows.

New Works	Rs. - 4-8
Repairs	7720-14-11
Conservancy	3899-6-10
Police	6310-11-3
Establishment	4950-2-2
	2841-15-10
	25731-2-1
Purposes other than those specified in Section 25	2194-4-2
Advances recoverable	293-7-8
Balance, carried forward	186-7-2
	28405-5-1

* This sum tallies with the Superintendent's bill.

Expenditure	25731-2-1
add 1/4 Police	1897-2-8
	47260-4-9
	5820-1-1
Receipts	314685-4-5
	6497-8-4
	6228-5-10

6228-5-10	6407-8-6
7125-2-10	5576-0-4
896-13-0	1549-2-5
113-10-6	7125-2-10
1010-7-5	717-10-4
293-7-8	112-10-2
716-15-10	831-4-10
deduct	293-7-8
	537-13-2

7. The State Contribution falls to be calculated on the current receipts and not on the expenditure and amounts to Rs. ⁶²²⁸⁻⁵⁻¹⁰ ~~447-10-4~~. The Commissioners have received directly Rs. 5576-0-4, and by remission of Police charges Rs. 1549-2-5. They have therefore overdrawn Rs. ⁸⁹⁶⁻¹³⁻⁰ ~~447-10-4~~. Adding the items referred to in para 4 supra, they owe to Govt. Rs. ¹⁰¹⁰⁻⁷⁻⁵ ~~231-4-10~~, or allowing them to set off the excess payment for Police, Rs. ⁷¹⁶⁻¹⁵⁻¹⁰ ~~537-13-2~~, which sum the President will at once adjust from the Municipal Fund.

8. The working of the Municipality has continued to be attended with excellent results during the year under review.

Conservancy

Conservancy has been well attended to, and the Govt. have perused with much pleasure the following extract from the report.

There is every reason to believe that the health of the inhabitants has been considerably improved since the introduction of the Act. Fever is gradually diminishing and assuming a milder and more tractable form. Cholera prevailed in an epidemic form to a limited extent, in the town of Cuddapah during the month of August and caused only about 20 deaths, though it committed great havoc in the surrounding hamlets and some of the villages were temporarily deserted by

by the people. During its prevalence every precaution was adopted to arrest its progress and medicines and medical aid were freely supplied to the people attacked with the disease. I may here mention that the Commissioners, at the suggestion of the Acting Zillah Surgeon, employed ten of the advanced Native Medical Students from the class which attended and received instruction at the Civil Dispensary, to carry out the system of house to house visitation during the prevalence of the epidemic. The Commissioners remunerated them for their services, which they performed to their entire satisfaction. I

I am given to understand
that people gratefully
appreciated this timely
and unexpected aid."

9. The Auditor's
report on the accounts
should have been sub-
mitted for the perusal
of Govt. JRS
