*Proceedings of the Madras Government, Public Department,
9th August 1870.*

No. 52. Read the following letter from the Commandant at Poonamallee, to the Quartermaster-General, Fort Saint George, dated Poonamallee, 8th July 1870, No. 692-A. :—

The Civil authorities of the district having reserved to themselves the right of applying to revenue purposes the loppings of the trees on one of the roads within the limits of the Cantonment, I have the honour to request that you will be good enough to submit the case to His Excellency the Commander-in-Chief, with a view, should His Excellency's opinion concur with mine, that all sums derived from the loppings of trees on roads within the Cantonment should, under clause 10, paragraph 4 of the Cantonment Regulations, be credited to the Cantonment Fund, of obtaining the orders of Government on the question.

2. The road in question is the Avady road, and the portion of it within the limits of the Cantonment runs through what were formerly the Sepoy Lines, and extends as far as the village of Coopum.

3. Last year when the trees growing in this portion of the road were lopped, the Secretary of the Cantonment Fund remonstrated on the ground that all sums derivable from the loppings of trees on public ground within the Cantonment were to be credited to the Cantonment Fund.

4. The Assistant Collector, to whom the case was referred, stated that, as there were no tolls levied on the Avady road, he was not prepared to allow the proceeds from the loppings of trees growing thereon to be credited to any other source than the District Road Fund.

5. I would beg to point out that paragraph 4 of clause 10 of the Cantonment Regulations lays down that any sums derived from the sale of wood, &c., growing upon parades, practice grounds and *all other public ground* within the limits of the Cantonment, not being ground set apart by the Commander-in-Chief for other purposes, will be one of the sources from which the Cantonment Fund will be formed, and, should the Collector have power to appropriate sums derived from these sources to revenue purposes, it will enhance the difficulty of furnishing an estimate of sums which may be obtained from local sources for the Cantonment Fund, besides materially impoverishing the resources of the fund for conservancy purposes, in aid of which a very small amount is granted annually by Government.

No. 322.

MEMORANDUM.

Forwarded for the decision of Government with reference to clause 4, paragraph 10 of Chapter 2 of the Cantonment Regulations under Act I. of 1866.

2. As the road in question appears to be repaired from the District Road Fund, His Excellency considers that the produce of the loppings of the trees referred to should pertain to the Civil authorities, and not to the Cantonment Fund.
