*Proceedings of the Madras Government, Public Department,
18th July 1871.*

Read the following papers:—

No. 152. From the President of the Municipal Commission, Negapatam, to the Acting Chief Secretary to Government, Fort St. George, dated Negapatam, 25th April 1871, No. 84.

With reference to the Proceedings of Government, Public Department, No. 436, dated 31st ultimo, I have the honour to forward copy of a letter received from the Vice-President of the Negapatam Municipality, enclosing the Budget Estimates for the eleven months ending 31st March 1872, as well as two lists—one showing the names of the Commissioners proposed to be appointed and the other of the taxes proposed to be levied with their several rates.

2. The opinions of the Commissioners, called for in paragraphs 7, 8, 9, and 10 of the Government Order, are fully given in the letter of the Vice-President. I shall, however, again address Government on this subject when Vice-Presidents of all the Municipal Commissions in the District have sent in their opinions with regard to the existing bye-laws, and the arrangements to be made for the collection of vital statistics and the superintendence of vaccination.

3. I beg to recommend that Mr. Henry John Stokes be appointed Vice-President of the Negapatam Municipality.

No. 153. From the President of the Municipal Commission, Negapatam, to the Acting Chief Secretary to Government, Fort St. George, dated Point Calimere, 6th May 1871, No. 111.

As Mr. Alexander Cruikshank has been appointed Acting Sub-Collector of the Tanjore District during the absence of Mr. H. J. Stokes on privilege leave, I have the honour to nominate him as Vice-President of the Negapatam Municipal Commission during the time he acts as Sub-Collector.

No. 154. ORDER THEREON, 18th July 1871, No. 1084.

The estimated receipts in the Municipality of Negapatam, for the year ending 31st March 1872, amount to Rupees

Rate on Houses, &c.....	Rs. 7,791
Tax on Arts, &c.....	13,750

50,000, including Rupees 3,000 as State contribution and Police refund and the grant for the maintenance of Road No. 36, Rupees 4,574. The Collector will report from what source this grant has hitherto been paid. In G. O., 7th June 1871, No. 216, a grant from provincial funds of Rupees 4,990 was assigned to the local funds of the district of Tanjore to meet the grant to the Municipality which the

Government believed to have been hitherto made from the imperial allotment for the maintenance of a trunk road; but an order appears to have been passed, under date 27th May 1867, No. 1190, Revenue Department, directing that the road should be

*Proceedings of the Madras Government, Public Department,
18th July 1871.*

maintained from the District Road Fund. If the grant has hitherto been made from that source, the provincial grant of Rupees 4,990 to the local funds must be withdrawn, and provision must be made in the Local Fund Budget of the circle for the grant to the Municipality for the current year. Its continuance in future years will be a matter for the consideration of the Local Fund Board. The estimate shows no arrears to be collected, but it is strange that a Municipality like Negapatam should open the year without any funds in hand. The increased estimates of collections from trades-tax and tolls indicate that the town is increasing in prosperity, and the Government think it probable that a re-assessment of the house rate is required. The percentage adopted, four per cent., is low.

2. The whole sum has been allotted for expenditure. As explained in G. O., 30th ultimo, No. 265, the Commissioners will not be required to pay the salaries of the dispensary servants for May 1871, but the actual amount is not known, and the whole sum, Rupees 1,200, the allotment of which was directed in G. O., 17th April 1871, No. 491, should have been provided. It has been entered in the margin and the Public Works grant reduced accordingly by Rupees 100. The sum provided for compensation for the removal of houses on the site of the proposed market is part of the cost of the work, and has been placed under Public Works, as has also the allotment of

3. The Commissioners have allotted Rupees 2,000 for Education, and, from paragraph 3 of the Vice-President's letter, it appears that they contemplate improving the Government elementary school at Nagore and perhaps establishing a school at Negapatam. The Government school at Nagore is a Taluq school ranked in the middle class; and, as the funds of the Municipality are for the present to be devoted to lower class and purely elementary instruction only, they will not be charged on account of the Nagore school, nor of the Missionary institutions for advanced education in Negapatam. The amount provided will suffice for the establishment of one or two good primary schools and for improving existing pial schools within the town.

4. The estimates are passed. The proposed Commissioners will be appointed. With reference to the President's letter, dated 29th May 1871, No. 139, the Commissioners are authorized, under Section 10 of the Act, to elect their Vice-President. The Acting Sub-Collector is an ex-officio member of the Commission.

NOTIFICATION.

Sir With reference to your letter No. 66 dated 5th April 1871, I have the honour to forward a revised estimate of the receipts and expenditure for the eleven months ending 31st March 1872.

2 The exact amount which will remain unadjusted between the Government and this Municipality on the 30th April cannot yet be ascertained; but it is calculated approximately as Rupees 2600 for Government contribution, and Rupees 400 for Police refunds due to the Municipality.

3 Provision for the charges of the dispensary has been made as directed. A sum of Rupees 2000 has been allotted for education. It is believed that this will be sufficient as a beginning. The Commissioners do not expect to have to contribute to the missionary educational institutions in Negapatam which provide sufficiently for more advanced education; but they are conscious of the necessity of improving the Government Elementary School in Negore, and are of opinion that an elementary school might also be established with advantage in

in a letter

in Negapatam. I presume that more information on this head will be subsequently required—

4 It is estimated that Rupees 720 will be sufficient to cover the cost of registration of births and deaths. The Commissioners propose to give a salary of Rupees 12 to three officials whose duty it will be to keep the registers; one to reside in Negapatam one in Velipalayam, and one in Nagore. The Patnamaniager (whose duty it now is to make returns of births and deaths) is the fittest person to hold this office in Negapatam; a clerk in the Municipal Office in Velipalayam will be registrar for the central part of the town; and the Municipal Overseer will do the work in Nagore, where the registration office will be in his house—

5 This Commission has adopted the system of payment by results for vaccination and is satisfied that it is the right one. The Commissioners prefer that their vaccinator should work under their own supervision which (aided by that of the Assistant Apothecary) they believe to be effectual. Twice a month the vaccinator gives in a list of operations, showing the name, age and residence of the person vaccinated and

and the date. A certain percentage of these cases are taken at random and reported on by some of the Commissioners. This is found to be a sufficient check—

6 A copy of the Bye-laws in force in the Municipality is enclosed. The Commissioners cannot recommend the repeal of any of them. Bye-laws 2, 4, 9, 13, 20 are most commonly used, but a glance at the other bye-laws will show that they may be very useful as restrictive measures and on particular occasions, although not constantly required. The number of prosecutions is not a fair test of usefulness, for frequently it is preferred to enforce observance of a bye-law by a threat of prosecution, and so to avoid inconvenience to all parties. For instance it is found impossible constantly to enforce bye-law 24; but occasionally it enables the Commissioners to insist on cleaning of cess-pools. Bye-law 23 too is seldom used, but may be at times extremely necessary—

6 The item of Rupees 200 entered as

as compensation for houses is to be expended
in compensating owners of houses on the
proposed market site -

The estimated receipts in the Municipality of Singapore, amount to Rs 50,000 including Rs 30,000 as State contribution and Police reward & the grant for the maintenance of Road No 36, Rs 4,574. The Collector will report from what source the grant has hitherto been paid. In J. O. 7th June 1871, Rs 200 a grant from Provincial funds of Rs 4,990 was assigned to the local funds of the District.
