Proceedings of the Madras Government, Public Department,
21st July 1871.

No. 201. Read the following Proceedings of the Board of Revenue, dated 29th June 1871, No. 2614 :—

From the Collector of Malabar, to the Acting Secretary to the Board of Revenue, dated Calicut, 1st June 1871, No. 138.

The Board have, in their Proceedings dated 27th April 1871, No. 1755, indicated the amounts to be contributed from local funds to meet the charges connected with Dispensaries.

2. The amount to be so contributed to the Leper Hospital at Palliport in this district is Rupees 2,076. The dieting charges, which annually come to Rupees 1,000, are, I believe, comprised in the 3,73,178 Rupees allotted from the Provincial Services.

3. Palliport is a small isolated tract of British territory at the extreme southern point of the district. The British territory there narrows to a mere strip and all the adjacent country is the territory of the Travancore and Cochin Circars, and the in-patients of the Leper Hospital are mostly subjects of those Governments. The last returns received show the proportion of British subjects to the aggregate number to be less than one to three. Even of this small proportion it is probable that the greater number are from the Cochin Municipality.

4. I addressed a letter to the Government on this subject, copy of which is enclosed. It seems scarcely fair to saddle the local funds with any portion of the charges connected with this Hospital.

5. If placed under any circle it would be under that of Calicut, and as the Board are aware there is a Leper Hospital at Calicut which has been now thrown on local funds which may, for the present, be fairly regarded as sufficient to meet the wants of the Calicut Circle.

6. I have the honour, under these circumstances, to recommend that the charges of the Hospital now transferred to the Board of Local Funds may be otherwise provided for.
