*Proceedings of the Madras Government, Public Department,
19th August 1871.*

No. 108. Read the following letter from the Second Member of the Board of Revenue, to the Chief Secretary to Government, Fort St. George, dated Madras, 9th August 1871:—

I have the honour to submit estimate and plan for the erection of Stabling and Coach Houses required for the Offices now located in the Chepauk buildings. They are four in number.

It is understood that the Office of the Superintending Engineer, 4th Division, is also to be accommodated.

2. Enclosed is a list of the number of horses, carriages, &c., which are usually in use by the officials, from which it will be seen that accommodation for twenty-seven carriages and thirty-six horses would require to be provided, with additions* for future accession of establishment were the full complement housed. I hope, however, that the accommodation provided will be made to suffice with the aid of a wooded courtyard.

* These are for the three Masters of the Engineering College, Chepauk Agent, and (when completed) the Senate House Establishment.

3. The great distances at which most of the officials live renders the detention of their carriages and horses in the compound a matter of absolute necessity; and, if this is permitted without accommodation being provided, the proper conservation of the park, which is now being laid out, will be impossible, to say nothing of the injury done to conveyances from exposure to sun and rain.

4. The old building which served as a stable for a few horses has been sold and is in course of removal, and a shed has been erected to supply its place temporarily. I, therefore, beg to recommend that the early sanction of Government be obtained to the plan and estimate now submitted, when the work will be proceeded with at once.

5. The site selected for the building on the north side of the centre tank has been seen and approved by His Excellency the Governor and, I believe, by the other Members of Government.

No. 109. ORDER THEREON, 19th August 1871, No. 1283.

The plan and estimate for Coach Houses and Stabling required for the Offices now located in the Chepauk buildings are approved. Funds cannot be provided this year. Temporary shelter of bamboo-matting and thatch should be provided for horses and carriages.

2. The Board are requested to furnish an estimate for these.
