*Proceedings of the Madras Government, Public Department,
30th August 1871.*

Read the following papers:—

No. 163. From the Acting Inspector-General, Indian Medical Department, to the Chief Secretary to Government, Fort St. George, dated Fort St. George, 22nd July 1871, No. 241.

I have the honour, at the request of the author, Pensioned Dresser M. Jagannathum Naidoo, to forward, for submission to Government, a copy of a Tamil work, entitled "A Compendium of English Medical Science."

2. It is stated to be a compilation from the works of various standard English medical authors, and has been prepared with the view of its forming a manual of instruction for native medical practitioners and students. The work is rather an ambitious one, as it embraces the whole range of medical science, but its execution is reported on very favourably by Dr. Shortt and S. Nevinz Pillay, B.A. and B.L., in the attached letters.

3. Government were pleased, in Order, No. 1481, of 27th November 1867, to sanction the purchase of 300 copies of a Catechism of Anatomy and Physiology by the same author, and he has asked me to recommend Government to purchase a number of copies of this work. In a foot-note the author names the selling price of the work at Rupees 7 per copy, but he verbally mentions that, if a considerable number be taken, it will be reduced to Rupees 5.

No. 164. From the Acting Inspector-General, Indian Medical Department, to the Chief Secretary to Government, Fort St. George, dated Fort St. George, 22nd August 1871, No. 277.

I have the honour, with reference to your Memorandum, No. 207, of 7th August 1871, to recommend that Government purchase fifty copies of the "Compendium of Medical Science," and that the copies be distributed to Deputy Inspectors-General of Divisions for sale, at cost price, to persons desirous of obtaining copies, crediting to Government the amounts realized by sales.

No. 165. ORDER THEREON, 30th August 1871, No. 1333.

The Government sanction the purchase of fifty (50) copies of the Tamil "Compendium of English Medical Science," for distribution and sale, as suggested in the second of the letters above recorded.
