Proceedings of the Madras Government, Public Department,
23rd September 1871.

No. 111. Read the following letter from the President of the Municipal Commission, Conjeveram, to the Chief Secretary to Government, Fort St. George, dated Sydapet, 6th September 1871, No. 211 :—

I have the honour to forward fresh estimates of receipts and charges for the Municipality of Conjeveram for the year 1871-72, revised with reference to the Order of Government, Public Department, No. 944, dated 29th June last.

2. The estimated receipts amount to Rupees 42,302-0-4 and the charges to Rupees 38,721-7-2, leaving a balance of Rupees 3,580-9-2.

3. It will be seen that the present estimate of income is Rupees 385 1-0 more than the former, and the cause of this difference is explained hereunder :—

4. The estimate of expenditure, as now revised, provides for an increased allotment of Rupees 16,706-4-1, which is due to the increased provision made for the items adverted to in paragraphs 5 and 6 of the Government Order under reference, as well as for a few others.

The particulars are given below :—

Proceedings of the Madras Government, Public Department,
23rd September 1871.

5. I return, herein enclosed, the list of Commissioners with the names of officials noted, as required in paragraph 7.

6. With reference to the remarks of Government, in paragraph 3, on the Demand, Collection, and Balance Statement furnished on the 5th June 1871 and rejected as incorrect, I now forward a revised statement, prepared in accordance with the instructions of Government.

7. The Government observe that the average annual demand of house-tax deduced from the rejected statement, copy of which is herewith forwarded for reference, is Rupees 6,524; this sum appears to be incorrect, the real amount being Rupees 7,524. I do not consider that the difference between this amount and that exhibited (Rupees 7,099) in the return of rating, furnished in reply to the circular of 20th April 1870, will appear great when it is remembered that the former only represents the average demand for the past four-and-a-half years and the latter the actual incidence of house-tax for one year, viz., 1869-70.

8. It is further remarked in the Government Order under reply that while the arrears up to April 1869 amounted only to Rupees 932-14-6, Rupees 7,723-12-6 were collected on account of them during 1869-70. This apparent absurdity is due to the arrears demand not having been added to the current demand to constitute the whole demand for the year in the rejected statement. The sum of Rupees 932-14-6, above referred to, merely represents the total arrears on the 30th April 1871 and not as they stood on the 30th April 1869, which, according to the revised statement, amount to Rupees 9,049-11-0, out of which Rupees 7,723-12-6 was really collected in 1869-70.

9. Further, the Government appear to have been under the impression that Rupees 14,390-6-3 represented all arrears that had ever accrued, and, therefore, included Rupees 7,723-12-6, being the arrears collections in 1869-70, and that, consequently, the amount yet to be collected should be Rupees 6,666-9-9, while the Commissioners expect to collect Rupees 14,361-11-0. From the explanation given in the preceding paragraph and the details annexed in the margin it will be seen that the above sum of Rupees 14,390-6-3 represents the outstanding balance on the 30th April 1871 exclusive of all previous collections.

10. Lastly, the Government observe that the total collections of house and trades taxes from April 1867 to April 1870 amounted, according to the statement, to Rupees 33,167-3-10, while according to the accounts rendered it was only Rupees 28,263-1-3. I cannot quite make out how this former figure has been arrived at, as by adding up the collections in the statement for the said period the total

obtained is Rupees 39,169-14-10. The difference between this amount and the said Rupees 28,263-1-3 corresponds exactly with the amount of collections made during 1870-71 on account of arrears up to April 1870, which has not been taken into calculation by Government, and for which accounts will be furnished with the annual report now due and nearly ready.

11. I may add that the Demand, Collection, and Balance Statement commented on comprises the demand for 1870-71 up to 31st March and not up to 30th April 1871, as appeared from the former return. This omission has now been supplied in the revised statement.

12. The special report called for in paragraph 4 regarding the realization of the arrears and the efficient organization of the Municipality will be forwarded as soon as it is received from the Sub-Collector, who has promised its early transmission.

No. 112. ORDER THEREON, 23rd September 1871, No. 1452.

With the foregoing letter, the President of the Municipal Commission, Conjeveram, submits amended estimates of receipts and disbursements for the Municipality for the year 1871-72, and an amended Demand, Collection and Balance Statement in lieu of that commented on in G. O., 29th June 1871, No. 944.

2. The latter appears to be correctly framed, and the discrepancies noticed by Government in the statement for which it is substituted are due to its having been taken by Government to represent the collections in the periods specified instead of for them. The result, however, is that, on the 1st May 1871, there were outstanding arrears to the extent of Rupees 7,149-7-7 under house-tax, and Rupees 3,378-14-8 under trades-tax; total Rupees 15,528-6-3. The Government await the special report called for on the subject.

3. The revised estimate of receipts amounts to Rupees 42,302-0-4, and of this Rupees 38,721-7-2 are allotted by the Commissioners for expenditure. The difference from the former estimate arises from the actual balance on the 1st May having been now entered, and from the excess of arrears due to the inclusion of the demand for the month of April 1871.

4. The allotment of Rupees 600 for refuse carts should come under "Conservancy" and that for repair of lanterns under "Lighting." The Lalakal Channel is properly a new work. The Government observe that the Commissioners have not taken credit for the grant on this account which the Government have sanctioned. The allotment

for education is Rupees 1,400 against Rupees 600 in the former estimate, but no detail is given. The charges for establishment and for sundry purposes in connexion with the office are exceedingly high. The Government have struck out the charge for an iron safe. The collections must be sent daily in the gross to the Treasury, and, beyond a few Rupees for current petty contingencies to be provided for by a small permanent advance, no money whatever should be

kept in the office. The sums entered for Police payment in arrear and for refund of State contribution differ from those entered in the former estimate and are unexplained. The exact sum due will be settled on review of the annual report.

5. The revised estimates are sanctioned and the proposed Commissioners appointed. Under Section 10 they are authorized to elect their Vice-President.

NOTIFICATION.

Under the provisions of Sections 7 and 8, Act III. of 1871 (the Towns' Improvement Act), the Governor in Council hereby appoints the under-mentioned persons to be Town Commissioners for carrying out in the town of Conjeveram, in the Chingleput District, the purposes of the said Act:—

From,

R. W. Barlow Esq^r

President, Municipal Commission
Cojoveram.

To,

The Honorable R. S. Ellis Esq.

Chief Secretary to Government

Sir,

I have the honor to forward
fresh estimates of receipts and
charges for the Municipality of
Cojoveram for the year 1871-72,
revised with reference to the
order of Government, Public
Department, N: 944 dated 29th June
last.

2

The estimated receipts
amount to Rs. 42,302-5-4, and the
charges to Rs. 38,721-7-2, leaving
a balance of Rs. 3,580-9-2.

3

It will be seen that the
present estimate of income is

Rs

N. 385 1. more than the former,
and the cause of this difference is
explained hereunder.

4 The estimate of expenditure,
as now revised, provides for an in-
creased allotment of Rs. 16,706-4-1,
which is due to the increased provi-
sion made for the items adverted
to in paras 5 and 6 of the Government
Order, under reference, as well as
for a few others.

5 I return, herein enclosed,
the list of Commissioners with the
names of officials noted, as required
in para 7.

6 With reference to the re-
marks of Government in para 3 on
the Demand Collection and Balance
statement furnished on the 5th June
1871 and rejected as incorrect, I
now forward a revised statement,

prepared

proposed in accordance with the
instructions of Government.

7 The Government observe
that the average annual demand
of house-tax deduced from the re-
jected statement, copy of which is
herewith forwarded for reference,
is Rs. 9524, this sum appears to be in-
correct, the real amount being Rs.
7624. I do not consider that the

difference between this amount &
that exhibited (Rs. 7099) in the return
of rating furnished in reply to the
Circular of 20th April 1870 will appear
great, when it is remembered that
the former only represents the average
demand for the past 4 1/2 years, and
the latter the actual incidence of
house-tax for one year viz^t 1869-70.

8 It is further remarked in
the Government Order, under reply,

3 116
that while the arrears upto April
1869 amounted only to Rs. 932-14-6, Rs.
7723-12-6 were collected on account of
them during 1869-70. This apparent
absurdity, is due to the arrears demand
not having been added to the current
demand to constitute the whole de-
mand for the year in the rejected state-
ment. The sum of Rs. 932-14-6, above
referred to, merely represents the total
arrears on the 30th April 1871 and not
as they stood on the 30th April 1869, which
according to the revised statement, a-
mounts to Rs. 9049-11-0, out of which
Rs. 7723-12-6 was really collected in
1869-70.

9 Further, the Government
appear to have been under the im-
pression that Rs. 14390-6-2 represented
all arrears that had ever accrued,
and therefore included Rs. 7723-12-6.

being,

being the arrears collections in 1869-70, and that consequently the amount yet to be collected should be Rs. 6666-9-9, while the Commissioner expects to collect Rs. 14,361-11-0. From the explanation given in the preceding para and the details annexed in the

margin, it will be seen that the above sum of Rs. 14,390-6-3 represents the outstanding balance on the 30th April 1871, exclusive of all previous collections.

rendered, it was only Rs. 28,263-1-3. I cannot quite make out how this former figure has been arrived at, as by adding up the collections in the statements for the said period, the total obtained is Rs. 39,169-14-10. The difference between this amount & the said Rs. 28,263-1-3, corresponds exactly with the amount of collections made during 1870-71, on account of arrears upto April 1870, which has not been taken into calculation by Government, and for which accounts will be furnished with the annual report now due and nearly ready.

10 Lastly, the Government observe that the total collections of house and trades taxes from April 1867 to April 1870, amounted according to the statements to Rs. 33,167-3-10, while according to the accounts

11 I may add that the Demand Collection and Balance Statement commented on, comprises the demand for 1870-71 upto 31st March and not upto 30th April 1871, as appeared from the former return; this omission has

now been supplied in the revised
statement.

12 The special report called
for in para 4 regarding the realiza-
tion of the arrears and the efficient
organization of the Municipality,
will be forwarded as soon as it
is received from the Sub Collector,
who has promised its early trans-
mission.

I have the honor to be

Your most obed^t Servant.

No 1452
I request that all
of the above date
Conjeveram No 3 may
may be added to the
list of Commissions
the Commission having

1871, No. 944.

2. The latter appears to be correctly framed, and the discrepancies noticed by Government in the ^{statement from which it is substituted} ~~former~~, are due to its having been taken by Govt to represent the collections in the periods specified instead of for them. The result however is that on the 1st May 1871 there were outstanding arrears to the extent of Rs 7,149-7-7 under house tax, and Rs 8,378-14-8 under trades tax - total Rs 15,528-6-3.

The Government await the special report called for on the subject.

3. The revised estimate

estimate of receipts

amounts to Rs 42,302-0-4

and of this Rs 38,721-7-2

are allotted ^{by the Commission} for expenditure.

The difference from the former estimate arises ~~as shown~~ from the actual balance on the 1st May having been now entered, and ^{from} the excess of arrears due to the inclusion ^{the demand for} of the month of April 1871.

The

4 The allotment of Rs 600 for refuse carts should come under "Conservancy" and that for repair of lanterns under "Lighting". The Salakal Channel is properly a new work. The Govt observe that the Commissioners have not taken credit ~~in the estimate~~ for the grant in this account which the Govt have sanctioned. The allotment for Education is Rs 1400 against Rs 600 in the former estimate, but no detail is given. The charges for establishment and for sundry purposes in connexion with the office are exceedingly high. The Govt have

strictly

struck out the charge:
for an iron safe. The
collections must be sent
daily in the gross to
the treasury, and beyond
a few rupees for current
petty contingencies to
be provided for by a
small permanent ad-
vance, no money what-
ever should be kept in
the office. The sums en-
tered for police payments
in arrears, and for refund
of State contribution,
differ from those en-
tered in the former es-
timate, and are unex-
plained. The exact sum
due will be settled
on review of the annual
report.

are sanctioned and the
proposed Commissioners
appointed. Under section
10 they are authorized
to elect their Vice Pre-
sident.
