Proceedings of the Madras Government, Public Department,
10th October 1871.

Read the following papers :—

No. 36-A. From the Magistrate of Coimbatore, to the Chief Secretary to Government, Fort St. George, dated Coimbatore, 9th September 1871, No. 54.

I have the honour to suggest, for the consideration and orders of Government, the advisability of the appointment of a medical subordinate to the town of Erode.

2. It is an important place on the line of railway, and will presently be a Municipality, which will, in a short time, be able to provide a small dispensary. It is the head-quarters of a division. The Deputy Collector informs me that there are "eight European families in and about Erode, besides a large number of native Government servants belonging to the Moonsiff's Court, the Department of Public Works, Forest, and Police. The Taluq Cutcherry will shortly be removed to Erode. The want of a medical officer is greatly felt, and I feel confident that the funds for erecting a Civil Dispensary will shortly be forthcoming."

3. In a magisterial point of view there has been frequent occasion for post mortems to be held, and hitherto the police and magistracy have been dependent on the Railway Apothecary, whose services have been remunerated during the past year with fees amounting to Rupees 334, the saving of which would conduce to pay part of the salary of a medical subordinate of the first class.

Referred to the Inspector-General, Indian Medical Department, for report.

OOTACAMUND,
14th September 1871.

(Signed) R. S. ELLIS,
Chief Secretary.

No. 36-B. From the Acting Inspector-General, Indian Medical Department, to the Chief Secretary to Government, Fort St. George, dated Fort St. George, 26th September 1871, No. 315.

I have the honour to re-enclose letter, No. 54, from the Collector and Magistrate of Coimbatore, which was referred to me for report.

2. I visited Erode on the 18th instant; went through and through it in every direction, and carefully estimated its capabilities and requirements.

3. It is evidently a town of people in comfortable circumstances, who could support a medical man and undertake the charges of a dispensary for out-door sick, perhaps even pay for a small hospital for two or three in-patients with ailments threatening life or limb.

4. About half-a-mile distant, however, is the Erode junction of the railways to Beypore and Negapatam, where the railway medical officer resides. He is a highly intelligent medical man, on receipt of pay and allowances of value about Rupees 220, and his services are available to all the Erode community on payment.

5. There is, at present, a great demand for medical men; but if Erode be prepared to pay for one, and will name the salary that can be afforded, I will be ready to supply one.

6. Under the orders of Government, however, as contained in paragraph 2 of G. O., No. 418, dated 31st

*Proceedings of the Madras Government, Public Department,
10th October 1871.*

August last, I do not recommend that Government bear any of the expense of a medical man, dispensary or hospital for the town of Erode.

No. 36-C. ORDER THEREON, 10th October 1871, No. 1531.

The Government do not consider it necessary to appoint a medical officer to Erode at present.

2. The question of establishing a dispensary will come under consideration now that a Municipality is formed at Erode, and in the meantime the aid of the Railway Medical Officer who resides there is, on emergency, available.
