of Coimbatore to construct a number of butchers' shops or stalls for the sale of meat close to my office at Coimbatore. The nuisance these meat stalls or shops will be to the occupants of my office, when used by some fifteen or twenty butchers, is pointed out in my letter to the Commissioners protesting against their

being built at all, which they have refused to listen to. I have, therefore, no alternative but very respectfully to solicit Government to interfere in the matter, and have requested the Commissioners to defer the construction of the buildings pending the receipt of the orders of Government on the subject.

No. 71. ORDER THEREON, 16th October 1871, No. 1563.

The Government cannot interfere in this matter. The arrangement is connected with the establishment of a general market, and the details have evidently been carefully considered by the Municipal Commissioners, who express themselves satisfied that the precautions against the meat-stalls becoming a nuisance are sufficient.

2. The President of the Commission will be requested to bring to the notice of the Commissioners the desire of Government that a row of trees may be planted and carefully raised between the meat-stalls and the Superintending Engineer's Office.

He had better discuss this at Council. It seems part of the arrangement for a general meeting, and the Com. evidently have some belief in the matter.
