Proceedings of the Madras Government, Public Department,

20th October 1871.

No. 98. Read the following Despatch from the Right Honourable the Secretary of State for India, to His Excellency the Right Honourable the Governor in Council, Fort St. George, dated India Office, London, 20th September 1871, No. 25 (Public) :—

I have considered in Council your Despatch, No. 21, of the 12th of July last, forwarding the Administration Report of the Superintendent of Stationery for 1870-71, and have to remark, as follows, on the points he specially brings to notice, viz. :—

Pencils.—The manufacturer of the pencils referred to is of opinion that the exuding of the oily substance complained of may be caused by the enamelled paper in which they are wrapped, and he proposes as a remedy to wrap them in future in ordinary white paper. Drawing pencils lettered B or BB are necessarily soft. If harder pencils be required those marked HB, H, or HH should be indented for.

Steel Pens.—The proportion of fine medium and broad-pointed steel-pens will be observed in all future supplies.

Quills.—A superior description of quill will be provided in future.

Paper.—I have already remarked on the supply of French-paper in my Despatch, No. 21, dated 15th of August last, and have only to add that it can no doubt be provided as cheaply from this country as if obtained direct from Bordeaux, but the indent must be accompanied with samples of the description and quality of paper desired.

No. 99. ORDER THEREON, 20th October 1871, No. 1586.

Communicated to the Inspector-General of Ordnance and Magazines with reference to G. O., dated the 16th June 1871, No. 845.
