Dated 21-10-1937	

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Department,

21st October 1871.

No. 112. Proceedings of Government, dated 21st October 1871, No. 1596.

The Governor in Council is desirous of improving the grounds of "Stone-house" which is State property. With this view he desires that the Commissioner will have the eastern saddle to the verge of the existing cultivation enclosed with a ditch and living fence, so as effectually to exclude cattle. The space within will then be cleared and prepared for planting at the proper season with the "Cupressus torulosa," the trees being planted in quincunx order, at distances from each other of not less than forty feet, so that they may have ample space for development. The Superintendent of the Government Gardens will supply the necessary seeds and plants, and carry out the work under the Commissioner's orders. A grant of Rupees 250 is now sanctioned for the purpose.

2. The Governor in Council would also desire that attention be paid to the improvement and preservation of the Rhododendra in the compound.
