Two Resolutions from the Home Department, dated 2nd June 1870, Nos. 2710—2733 and 11th August 1870, No. 2703.

OBSERVATIONS.—His Excellency the Viceroy and Governor-General in Council in this Department observes that the distribution of official reports has been necessarily affected by the re-distribution of work owing to the formation of the Department of Agriculture, Revenue, and Commerce, and the transfer of the control of the Ajmere Chief Commissionership to this office. The matter, therefore, needs thorough revision. So far as the Foreign Department is concerned, the official reports may be divided into the following classes:—

I.—Those reports and publications which are printed and published by the Foreign Office, and also those distributed under its authority.

II.—Those reports which are sent to this office for general information, and which are, or may be, sent or received direct by subordinate Administrations under the Foreign Office to or from each other, and to other Departments of Government.

III.—Those reports which are sent to this office for record and occasional information.

2. I.—In the first class would fall the following reports:—

(a.)—Rajpootana Annual Administration Report.

(b.)—Central India „ „

(c.)—Munnipoor „ „

(d.)—Ajmere „ „

(e.)—Hyderabad „ „

(f.)—Mysore „ „

*Proceedings of the Madras Government, Public Department,
15th November 1871.*

(g.)—Mysore Report or Public Instruction.

(h.)—Selections from the Foreign Office Records.

3. The first four and the last are printed in the Foreign Office Press. The others are printed in the local Presses.

4. After full consideration His Excellency in Council in this Department is of opinion that the distribution of the reports which fall under Class I. should be made according to the appended list marked A., those printed in the local Presses being distributed by the local Governments, after the orders of the Government of India on them are received.

5. This proposed distribution has been determined by the consideration of the comparative interest that may be felt by the several Administrations in these several reports arising from similarity of constitution and neighbouring position, and by the consideration of their relative usefulness.

6. It would be a waste of expenditure, His Excellency in Council thinks, to send an equal number of reports to all Administrations and offices, as in many cases they are of little use, and unnecessarily swell and burthen a library.

7. There is one other report received in the Foreign Office, viz., the Rajpootana Dispensary and Vaccination Report, which is not at present printed, but which it appears advisable in future to distribute as follows:—

	No. of copies.
Secretary of State	30
His Excellency the Viceroy	1
Home Department	12
Department of Agriculture, Revenue, and Commerce	6
Other Departments* (each 2)	8
Rajpootana	12
Ajmere	2
Central India	12
Mysore	1
Hyderabad	1
Bombay	5
Sanitary Commissioner with the Government of India	2
Total	92

8. II.—As regards the reports that fall into the second class, the distribution might, for the purposes of this Department and the Administrations under it, fairly be made according to the appended statement, marked B.

9. A departure from this list should be made as regards selections from records and other publications, in cases in which the subject-matter is of interest or likely to prove useful to a neighbouring Administration, when a greater number of copies may be sent.

10. There are two publications which fall under Class II., but which cannot be entered in any table. These are—

(1.) The Annals of Indian Administration.

* Military, Financial, Public Works, and Legislative.

*Proceedings of the Madras Government, Public Department,
15th November 1871.*

It will suffice if two copies are sent to the Foreign Office, and a distribution made direct by the Home Department to the Administrations under it, as follows:—

	No. of copies.
(1.) Mysore	16
(2.) Hyderabad	12
(3.) Ajmere	2
(4.) Rajpootana	12
(5.) Central India	12
(6.) Munnipoor	1
(7.) Nipal	1
(8.) General Superintendent, Thuggee, &c.	1
(9.) Political Agent, Turkish Arabia	1
Total	58

(2.) Publications of the Geological Survey of India, viz.:—

(1.) Memoirs.

(2.) Records.

(3.) Palæontologica Indica.

Two copies will be sufficient for the purposes of this office, and one copy of each may be sent direct to Mysore, Hyderabad, Ajmere, Rajpootana, and Central India.

11. III.—Of the reports which fall under Class III. and which are specified

on the margin, the requirements of this office will be met by two copies of (1) the Post Office Report, (2) the Report on the Trade and Resources of the Central Provinces, and (3) of the Cotton Commissioner's Report. A copy of the Cotton Commissioner's Report may also be sent direct to the Chief Commissioner of Mysore, and the Chief Commissioner of Ajmere. It is presumed the Resident, Hyderabad, already receives a sufficient number of copies of this last report.
