MADRAS RECORD OFFICE.

Government of Madras.

Public DEPARTMENT.

G.O. No.	1737	Press Mis.
Dated	21-11-19	1877

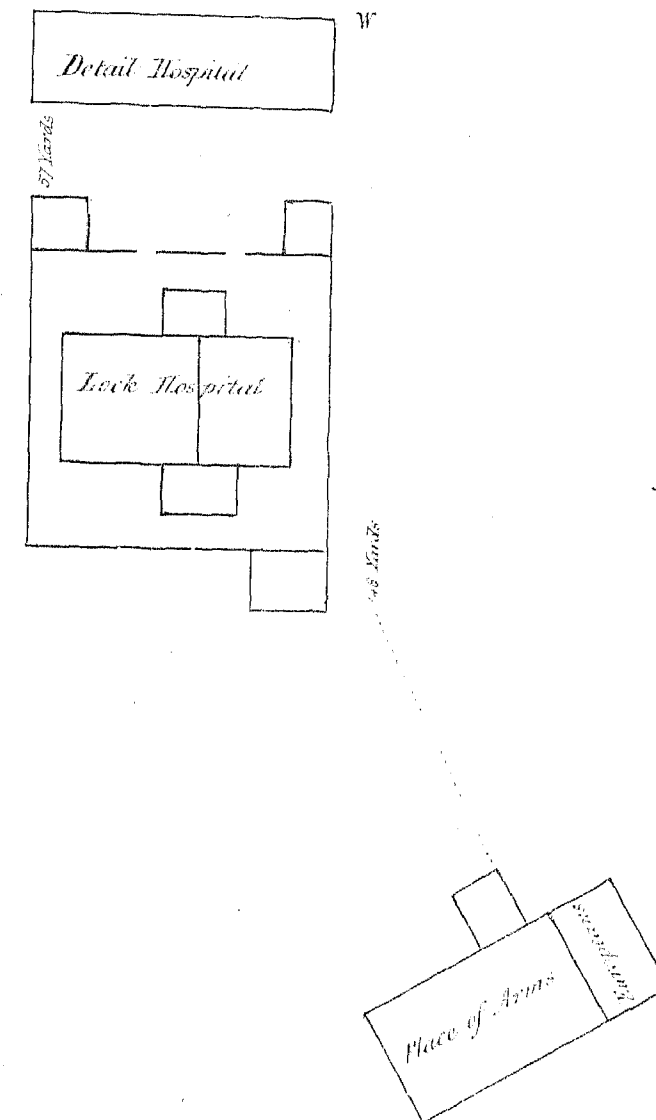

Not to be folded or roughly handled

No. 72. Read the following letter from the Acting Inspector-General, Indian Medical Department, to the Chief Secretary to Government, Fort St. George (through His Excellency the Commander-in-Chief), dated Fort St. George, 6th October 1871, No. 332:—

In the correspondence, as per margin, the Right Honourable the Governor and His Excellency the Commander-in-Chief have become aware that difficulty has been felt at St. Thomas' Mount in accommodating the sick who are attended by the Officers of the Indian Medical Department; but I visited that station to-day, and have now the honour to report that, by an expenditure of about Rupees 300 for a wall, the entire sick persons there, European and Native, combative and non-combative, men and women, can be well and comfortably located.

To Government.
Letter from Acting Inspector-General,
No. 250, dated 31st July 1871,
printed in Proceedings of Govern-
ment, Public Department, 21st Aug.
1871, No. 1290.
Letter from Deputy Inspector-General,
Presidency and Northern Districts,
No. 4537, dated 14th August 1871,
and enclosure sent with this Office
endorsement, No. 4331, dated 18th
August 1871. To His Excellency
the Commander-in-Chief in Quarter-
master General's Department.

2. At present, three buildings of the marginal form, and in the localities indicated, are occupied, but the block occupied as a Lock Hospital is one of the best built hospitals in the South of India; is admirably formed for the reception of men and women, Europeans, and for men and women, Natives, and is of amply sufficient dimensions to accommodate the sick of the Details, the sick of the Police, the European sick men and women, and any native woman, of civil life, who may be required to be admitted.

3. On the other hand, the building now occupied as a Detail Hospital is of ample dimensions to receive all the Lock patients, and all that

21st November 1871.

is needed to adapt it, for this class of sick, is to draw around it an earth-wall eight feet high.

4. An earth-wall seven feet high with a coping surrounds the present Lock Hospital, and I propose not to disturb it, excepting that as it has two entrance doors, and one is sufficient, the other can be removed to form a door in the new wall of the new Lock Hospital.

5. The total expenditure required to be incurred in making these changes is about Rupees 300; the whole changes needed for the re-arrangements could be completed in a month; the sick of the Mount and neighbourhood would then be provided with the amplest accommodation, all in a compact space, and the room in the north-west part of the place of arms, which has hitherto been allotted for the Europeans, will then be vacated by the Medical Department.

No. 5949.

Forwarded and states that His Excellency the Commander-in-Chief approves of the proposed change of Hospital buildings as mentioned in the letter, No. 332, dated 6th October 1871, from the Inspector-General, Indian Medical Department, to the Chief Secretary to Government.

(By order,)
