*Proceedings of the Madras Government, Public Department,
7th March 1871.*

No. 33. Read the following Despatch from the Right Honourable the Secretary of State for India, to His Excellency the Right Honourable the Governor in Council, Fort Saint George, dated India Office, London, 31st January 1871, No. 2 (Public):—

I have considered in Council your letter in this Department, No. 25, dated 18th October 1870, forwarding certain explanations regarding lithographic papers demanded for the Superintendent of Revenue Survey, to the great cost of which your attention was drawn in my Despatch, No. 20, dated 21st July 1870.

2. On reference to the indent it appears that all the lithographic papers were specified as *plate* papers. From the information now afforded, it appears evident that the insertion of the word “plate” at Madras was a clerical error. I have consequently directed that the remaining Double Royal and Medium papers should be provided of ordinary quality, similar to previous supplies.

3. As you were informed in my previous Despatch on this subject, the quantities of lithographic (plate) paper noted in the margin were ordered in July last. These were shipped in November by the *Mofussilite*.

4. It is desirable, as a check against similar errors in future, that the weight per ream should be inserted against each demand for paper.

No. 34. ORDER THEREON, 7th March 1871, No. 271.

Communicated to the Inspector-General of Ordnance and Magazines, with reference to his letter, dated the 26th September 1870, No. 184-C.

2. The instructions contained in paragraph 4 will be kept in view in the preparation of indents for paper.
