*Proceedings of the Madras Government, Public Department,
8th March 1871.*

No. 43. Read the following letter from the Inspector-General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George, dated Fort Saint George, 2nd March 1871, No. 69:—

I have the honour to submit the following subject for the favourable consideration of Government.

2. The lepers in the Palliport Lazaretto are allowed Annas $1\frac{1}{2}$ per diem for diet, a sum long ago found to be insufficient, and the matter was brought to the notice of Government in the correspondence printed with their Proceedings, No. 794, of 20th July 1865.

3. The Deputy Inspector-General of the Southern District, after recent inspection of the institution, again brings the subject to notice in the following words:—

“A daily allowance of $1\frac{1}{2}$ Annas is given to each leper to provide food. Were other evidence wanting, which it is not, of the insufficiency of this dole, it was abundantly supplied by the wretched sufferers themselves, who, on the occasion of his inspecting the institution, crowded around the reporter, and, with an eloquence which had its true source in misery, made passionate appeals for more food,—more food was still their cry, and that they were hungry, and that this hunger intensified their pains, which never ceased to torment them. A promise was rung from him to bring the subject to notice, a promise which he now fulfils.

4. I have the honour, under these circumstances, respectfully to recommend that the allowance be raised to two Annas each per diem.

5. Should Government be pleased to sanction the increase, the additional charge for the present number of patients (twenty) can be met from savings in the budget.

No. 44. ORDER THEREON, 8th March 1871, No. 288.

The increase in the allowance for the diet of the lepers in the Paliport Lazaretto from $1\frac{1}{2}$ Annas per diem to 2 Annas is sanctioned.

(True Extract.)
