*Proceedings of the Madras Government, Public Department,
11th January 1871.*

No. 29. Read the following letter from the President of the Municipal Commission, Salem, to the Chief Secretary to Government, Fort Saint George, dated Salem, 15th December 1870, No. 45:—

I have the honour to request the sanction of Government for a slight modification* of the northern boundary of the Salem Municipality, so as to include the adjacent hamlets of Comarasamiputty and Husthumpetty within the limits.

* As per sketch enclosed.

2. The present boundaries of the Municipality were sanctioned in the Proceedings of Government, No. 1389, 5th November 1867. The experience of the Commissioners, for the past three years, has convinced them that it is very desirable, for the proper conservancy and health of the town, the two hamlets, above referred to, should be brought under the influence of the municipal laws. As the hamlets are situated between the town and the Central Jail and the Courts, diseases engendered on account of their present unconserved state may spread either into the town, or into the open and healthy locality in the direction of the Central Jail, and thus nullify all the efforts of the Commissioners for the sanitation of the town. The road leading from the town of Salem to the Shevaroy Hills, to the Court House, to the Offices of the Department of Public Works and Deputy Conservator of Forests, to the jail, and, lastly, to the Hindoo shrine at Chinna Tirupathi (just a mile beyond Husthumpetty), to which a large number of people flock every Saturday, passes right through these two hamlets. It is, therefore, of the greatest importance that the hamlets should no longer be permitted to remain beyond the limits.

3. The Commissioners do not consider that the additional expenditure, caused by the proposed change in the boundary line, will much exceed the receipts expected from the property situated in the two hamlets. The extent of road included in the new limits does not exceed three-fourths of a mile.

4. The boundaries, after the proposed modifications are sanctioned, will be as follow:—

North.—From the first bridge out of Shevapett on the Sooramungalum road in a direct line to the south-east corner of the Chucklers' tank, thence in a direct line to the first bridge on the road from Husthumpetty to Sooramungalum, thence along the road to the point where it cuts the road to the Shevaroy Hills and on to a pillar erected on the north side of the late Mr. G. Fischer's Indigo Factory.

East.—From the above pillar to the north of Mr. Fischer's Factory to the toll gate on the road from Veeranum to Ponnampett, thence in a direct line to the toll gate from Ammapett to Ponnampett, thence to the toll gate on the Salem and Cuddalore road.

South.—From the Cuddalore toll gate to a pillar south to the slaughter ground at Kitchipolliem, thence to Arnachellum Achary's Choultry on the Trichinopoly road, and continued on to a pillar south of the village of Goggay. From this pillar to the bridge over the Salem river near Annadanaputty.

West.—From the last-mentioned bridge in a direct line to the pillar erected on the road leading to the Khutha Musjid, and thence to the first bridge leading from Shevapett to Sooramungalum.

It will be seen that the wording of the western boundary is slightly altered. This has been done simply to define this limit more clearly, and to remove the doubts now entertained regarding it.
