No. 154. Proceedings of Government, dated 31st March 1871, No. 436.

His Excellency the Governor in Council resolves to furnish to the Presidents of the several Municipalities in the Provinces copies of the Towns' Improvement Act III. of 1871, and to call upon them to furnish estimates of receipts and disbursements, framed with reference to its provisions and the instructions given below, for the year 1871-72.

2. It is intended to bring the Act into force on the 1st May 1871, at the end of the official year now current, and to make the first official year under the new Act one of eleven months, so that the year 1872-73 may commence on the 1st April 1872. The assessments of taxes, and estimates of receipts therefrom, should be made accordingly.

3. The chief difference between the old and new Acts is the withdrawal of the State grant-in-aid, and the relief of the Municipalities from all charges on account of Police. It is, however, certain that, in most towns, sums will remain to be paid in 1871-72 to and by the Commissioners under these heads, on account of 1870-71 and previous years, and the estimates of receipts and disbursements should make the requisite provisions for carrying out the final adjustment during 1871-72. Copies of G. O., No. 1033, dated 16th August 1870, will be furnished to the Presidents, to guide them in estimating for the adjustment with reference to the actuals of 1870-71, which are now sufficiently known to them, though not before Government.

4. The Government resolve to intimate to the Commissioners of those towns in which tolls are now levied that, at least for the year 1871-72, permission will be granted for the continuance of the impost. Hereafter, with reference to the arrangements to be made regarding the tolls on local roads under the Local Funds Act, it may be necessary to impose some restrictions. The maximum rates of tolls under the new Schedule are double those under the Schedule to Act X. of 1865; but the Commissioners will observe that the former are maxima, and their estimates of receipts from this source should be framed on the basis of the existing rates, pending the settlement of the question of local tolls generally.

5. The new charges to be imposed on Municipalities under the new Law consist for the present of the following items:—

- (i.) Charges on account of medical attendance and medicine in dispensaries, hitherto met from the imperial grant for "Medical Services."
- (ii.) Charges in connexion with schools principally for primary education, rate schools where such exist in Municipalities, and a proportion of the cost of training teachers for employment in elementary schools.
- (iii.) Registration of births and deaths.

6. A statement is appended to this Order showing the sums which ought to be provided by the several Municipalities to meet the charges under the first head. Provision should be made accordingly, over and above such grants for the general expenses of the dispensaries, as have hitherto been made in some towns.

7. The Government are not yet in a position to state with exactness the amounts which will be chargeable to Municipalities for education. Separate orders on this subject are about to be issued to the Director of Public Instruction. The Commissioners of the several towns can, however, from their local knowledge,

Proceedings of the Madras Government, Public Department,
31st March 1871.

estimate what the charges for the items above specified will amount to, and should provide such allotments for 1871-72 as may appear to them necessary and as their resources may allow. A Rate School exists in one Municipality only, viz., Palghaut. Act VI. of 1863 will have no force within the municipal limits after the introduction of the new Municipal Law; and the most appropriate way in which the quota hitherto contributed by the towns-people can be made up appears to be by an enhancement of the percentage rate on houses, and the payment by the Municipality of a contribution equal to the average proceeds of school rates within the town itself. The President of the Municipality, in forwarding its estimates, will report his and the Commissioners' opinions on this suggestion.

8. The charges for the registration of births and deaths will be of very small amount, and the Commissioners will have no difficulty in providing the necessary funds. The detailed arrangements for the collection of the statistics should be reported for the information of Government when the estimates are submitted for sanction.

9. The Government will in future require each Municipality to make adequate provision for vaccination within its limits. In most towns, vaccinators are now maintained at the expense of the Commissioners; but where this is not the case the requisite allotment of funds must now be made. The Local Funds Committees to be established under Act IV. of 1871 will be charged with the cost of the establishment of Vaccinators and District Superintendents now paid by the State; and the Government will be glad to receive from the Municipal Committees expressions of opinion whether the Municipal Vaccinators should work independently, or should be made subject to the same supervision as those employed in the neighbouring Local Fund Circles, and, in the latter case, what organization should be adopted. The cost of supervision would, if thought necessary, be rateably distributed between Local and Municipal Funds.

10. The bye-laws now in force are, for the most part, confused, ill-drawn, and unnecessarily numerous. The Government think that the revision of these bye-laws is a matter of urgent importance, and they have no doubt that the unnecessary multiplication of them has done much to prevent municipal institutions, which, if judiciously conducted, must commend themselves as of direct benefit to the towns-people, from being appreciated as they otherwise would have been. The Presidents are requested to submit to Government complete copies of the bye-laws now in force in the several towns, distinguishing those which, in the opinion of the Commissioners, have been found practically most useful. They will also furnish a statement showing the number of persons prosecuted and convicted under each bye-law in 1870-71.

11. The estimates under Act X. of 1865 already received from the Municipalities noted in the margin will be returned for revision. The estimates now called for from all Municipalities should be submitted at the earliest possible date. Lists of persons to be appointed Commissioners, with the Presidents' recommendations

Sir,
Parl. With reference to the order
of Government dated 19th December N.
1655, I have the honor to report that
I have repeatedly explained to the
Trustees of the Pagoda, and the
principal residents of Sreerungam, the
advantages expected to result from
the application of the Towns im-
provement Act to that place. They
are still however opposed to the
measure and profess their willing-
ness to consent to any arrangements
for the proper conservancy of the
streets within the Temple walls
provided the Act be not introduced
there.

 the approximate of

 with the names of the
 Committee members proposed
 to be appointed for the
 year 1871-72.

2. It appears to me that we shall find some difficulty in raising sufficient funds under the Act to provide for drainage and other necessary sanitary improvements in addition to the cost of the police and of mere surface cleanings. Clearly the income will be insufficient unless all the large villages in the island be included in the Municipality, as proposed by Mr. Sadell in para 6 of his letter dated 12 November 1870 N. 48. The Municipality thus formed will be three miles long and two miles broad and will include twelve ^{separate} villages, thus differing essentially from any other Municipality now existing in this Presidency.

3. I would recommend the following taxes and give a rough estimate of the amount each is likely to produce.

Tax on Houses, Buildings &c. Calculated at the rate of 5 per cent on the Estimated gross Annual Rental.	1673-12-00	
Tax on the Estimated Annual Rental of Nanyahs, Panyah & Inam land at 5 per cent.	968-8-00	2637-4-00
Tax on Arts, Trades and Professions		1122-0-00
Tax on Carriages and Animals		785-8-00
Total.	4544-12-00	
Government Contribution at 1/3	1514-14-8	
Total.	6059-10-8	

4. It is not proposed that any tolls should be levied. A toll at the Coleroon Bridge would merely rob the Trichinopoly Municipality. The Traffic between the island and the North side of the Coleroon is very small, and Carts could not be required to pay toll both at the Coleroon and Cauvery Bridges.

5. The Expenditure proposed is as follows.

Maintenance of Police.

1 Head Constable at 22 Rupees.	22-0-0
1 Deputy do. at 12 1/2 do.	12-8-0
3. 1 st Class do. at 8 Rs. each.	24-0-0
6. 2 ^d Class do. at 7 Rs. each.	42-0-0

Conservancy Establishment.

1 Muisane Inspectors at 20 Rs.	20-0-0
1 do. do. at 10 Rs.	10-0-0
8. Scavenging Carts at 14 Rs. each.	112-0-0
6. - Toties for 6 Latrines at 5 Rs. each.	30-0-0
3. - Night Carts at 14 Rs. each.	42-0-0
Per Mensem	214-0-0
Per Annum	2568-0-0
Total	4469-6-6

6. The total expenditure proposed amounts to Rs. 4,469-6-6. Deducting this sum from the estimated receipts viz Rs. 6,059-10-8 there remains a balance of Rs. 1,590-4-2 available for Roads, Drainage, Building Latrines &c.

7. A Draft Notification is annexed shewing the proposed limits of the Municipality, and the names of the Commissioners it is proposed to appoint. A sketch is also forwarded in which the boundaries are shown by a red line.

8. I have some difficulty in naming any one for the office of Vice President and I have come to the conclusion that it will be necessary to appoint Venkata Rao Head Clerk in this office for the first year at least. He has always resided in Sreerangam where he has a large house and he is I think qualified to perform the duties of Vice President which will

will be a little difficult at the commencement.

With reference to Government Order No. 820 Dated 11th July 1867, I have the honor to submit Estimates showing the Expenditure which it is proposed by the Commissioners of the Municipality in this district, as noted in the accompanying statement for the year 1871-72. The names of the persons proposed for Commissioners are also entered.

2d. It will be observed that the Commission
in the Railway have made provision for a
considerable modification in the salaries
of the establishment as they were of opinion
that the receipts and expenditure of the
Company having increased nearly
twofold since its commencement, the
salaries paid to their servants required
revision.

In pursuance of the provisions of the Towns' Improvement Act of 1865 and Government Proceedings No. January 1868, No. 820, Public Department, I have the honor to submit the Estimates of Receipts and Expenditure of the all Bangalore Municipality for the year 1871/72.

2 The estimate of expenditure provides the sum of Rupees 15,000 for the construction of a market in the centre of the town for which a site was proposed in my letter of the 26th June 1870 and which has been granted to the Commissioners by Government in their Order dated 4th January 1871, No. 6. The Executive Engineer of the Range has been requested to furnish me with an estimate for the same. The amount now proposed is merely a rough allotment.

of the Current year have not been commenced as yet and as there is a difficulty in procuring eligible sites, will not be completed within the present year. Sites have been selected and liberal offers to purchase have been made by the Commissioners but have been declined by the owners. The Commissioners propose therefore to put 15 of the sites into operation. In the mean-while the items have been transferred to the estimate now submitted for the ensuing year. The want of public latrines, is not however so seriously felt as most of the houses in the town have private latrines which are kept clean by the Municipal scavengers.

4 The Commissioners originally intended to erect nine public latrines at a cost of Rs 1,500; but as the allotment provided would not suffice for really strong and substantial buildings being constructed, they have reduced the number to six which they anticipate will be sufficient to meet the immediate requirements of the bazar portion of the town.

5 Small pox of a serious type being prevalent, the Commissioners have entertained two vaccinators instead of one as sanctioned, and an allotment has been made in the Budget for the extra expenditure required for the ensuing year.

6 As regards other allotments coming under the heads of "Repairs, Conservancy, Police and establishment" the Commissioners have adhered to

to the current year's Budget with slight alterations where such were deemed necessary.

A list of gentlemen proposed to be appointed commissioners for the ensuing year and an Estimate of Police Charges furnished by the Superintendent, are herewith forwarded.

Memorandum for Orders

Orders are requested for the disposal of the estimates of Receipts and disbursements of Municipalities for the year 1871-72, most of which have been received.

2. They have been framed under Act I of 1865, and provide for the payment of Public charges by the Municipalities, and for the receipt per contra of State Contributions.

Should the new bills become law, these attestments will become inapplicable, and the whole estimates will have to be revised so as to

to provide for the additional charges which will, it is presumed, be thrown on Municipalities under the new law.

3. It is submitted that in order to save time the estimates should be returned at once, in anticipation of the Bills coming into force at the end of the current of fiscal year, i.e. on the 1st May 1871. The simplest mode of introducing the new official year from 1st April, will be to make the first official year under the new Act, one of ~~review~~ months only. This course will give time for the preparation of new estimates, ~~providing~~ the submission of ~~which~~ the persons nominated for appointment as Commissioners for 1871-72, might

might be gazetted. To close the accounts at the ordinary time, that is on 30th April, will facilitate the adjustment of the State Contribution for the year, and the winding up of the transactions between the Municipalities and the State under the existing law.

4. The chief points upon which general instructions for the preparation of revised estimates under the new bill, copies of which might be furnished to the President, are as follows.

- (i) Provision for final adjustment of the State Contribution, and police balances, to the end of the current year.
- (ii) The levy of tolls.
- (iii) The provision for educational charges.
- (iv) That for registration of

of births and deaths.

(1) The medical charges.

5. The gross State contribu-

- tions sanctioned for 1869-70

was Rs 2,29,237. The sum

drawn in cash on account

of current contributions, was

Rs 1,73,550 - but large sums

have been drawn by way of

set off against the cost of

Police. The arrears drawn

in 1869-70 were Rs 52,535.

The gross cost of the police in

1869-70 was Rs 2,35,068.

The ordinary gross contribution

for 1870-71 may be estimated

at Rs 2,35,000. The cost of

the Police will be about the

same, in 1869-70. At the end

of that year there were outstanding

against the towns listed

in the margin, charges on

account

account of police cost in former

years amounting to Rs 28,319.

Should these sums have been

paid in 1870-71, contributions

will be allowed upon them

and may be set down as

Rs 6000, or less than a fourth

as the receipts will be the

limit in some cases. Thus

the contribution for the year

will be Rs 2,41,000. The

Commissioners should be

instructed to include in

their estimate of receipts for

1871-72 the probable balance

which will be due to them

on account of contributions

for 1870-71, and, on the dis-

bursement side, to provide

for the payment of any sums

which may be due by them

on account of Police. It is

a question whether State

Contributions should be allowed

in

in 1871-72 on such police charges unadjusted at the close of 1870-71. With this contribution has been allowed on payments in one year on account of previous ones.

No provision has been made in the Budget for 1871-72 on account of contribution to Municipalities payable in that year, on account of previous ones. It is not easy to estimate what this amount will be, as the matter is complicated by the instructions given by the Accountant General in 1869-70 that one fourth of the police cost ~~was~~ not be paid in cash, but set off against the State Contribution, and these instructions are not observed in all towns. Supposing they were

2,35,000
58,750
1,76,250

24,000
58,750
1,82,250

were, the cash payments by Municipalities in 1870-71 for police should be Rs. 1,76,250 and the contributions payable in cash, Rs. 1,82,250. At the end of 1869-70 there was a net balance due to Municipalities amounting to, roughly, Rs. 21,000. Municipalities might therefore draw in 1870-71, Rs. 2,03,250. In the eight months ending November 1870, they had drawn Rs. 1,17,784. At this rate they would draw for the twelve months, Rs. 1,76,646, say Rs. 1,80,000, and Rs. 23,000 ^(roughly) would be due, to be paid in 1871-72. On the other hand they were liable to pay in 1870-71, for Police, Rs. 2,35,000 current, and Rs. 28,000 arrears—total Rs. 2,63,000. They paid in eight months Rs. 1,34,714 or in excess of

Total Municipal pay 208042
Mun. Mem. 8 months 73328
134714

of the current proportion (Rs 1,14,500) by Rs 14,214. Probably therefore their debt for police will be reduced to Rs 11,000 and the net adjustment to be made in 1871-72 would be Rs 12,000. The exact amount may be ascertained with more accuracy when the provincial budget, in which it appears it is to be provided, is under preparation; as the actuals of twelve months of 1870-71 may then be had from the Accountant General.

With regard to the levy of tolls by municipalities, it is presumed from the omission, in the act as passed, of the restrictive section which found a place in the bill, that it is not intended that the tax should be an alternative one only, but that it

* allowing for a
Grand total 2, 31
8 months 1, 24
of this 3/4 1, 14

it will be continued in all towns where it now exists. Explicit information on this point should be given to the Commissioners in view to the preparation of their estimates.

I have tried to ascertain from the last Public Instruction Report, the amount of charges in connexion with primary education which ought to be thrown on Municipalities - but cannot compile a satisfactory statement. I submit that the Director of Public Instruction should at once submit proposals on this matter, and that, in the meantime, general instructions might be given to Municipalities to enable them to make some provision in their estimates.

A separate statement has

has been prepared by Mr.
Hammett showing the charges
in connexion with dispensaries
hospitals &c, which are to
fall on Municipalities. It
is submitted that the Com-
missioners of the several
towns, should be informed
of these arrangements.

10. The registration of
births and deaths is a mat-
ter regarding which the
Commissioners can estimate
their own requirements.

11. I submit that the oppor-
tunity should be taken
on the introduction of the
new act to call for and re-
vise the bye-laws now
in force, which are nume-
rously numerous, and, in
many cases, vexatious.

provisions and the instructions
given below, for the year 1871-2.

2. It is intended to bring
the Act into force on the 1st
May 1871, at the end of the
official year now current,
and to make the first offi-
cial year under the new Act,
one of eleven months, so
that the year 1872-3 may
commence on the 1st April
1872. The assessments of
taxes and estimates of receipts
therefrom should be made
accordingly.

3. The chief difference
between the old and new
~~Acts~~, is the withdrawal of
the State grant-in-aid, and
the relief of the municipa-
lities from all charges on
account of Police. It is,
however,

891
however certain that ~~the~~ ~~sums~~
towards, sums will remain
to be paid in 1871-2, to and
by the Commissioners under
these heads on account of 1870-1
and previous years, and the
estimates of receipts and dis-
bursements should make
the requisite provision for
carrying out the final ad-
justment during 1871-2. Co-
pies of L.O. N^o 1033 dated
16th August 1870 will be furnished
to the Presidents to guide
them in estimating for the
adjustment with reference
to the actuals of 1870-1, which
are now sufficiently known
to them, though not before
Govt.

4. The Govt resolve to inte-
mate to the Commissioners
of

of those towns in which
tolls are now levied, that,
at least for the year 1871-2,
permission will be granted
for the continuance of the
impost. Hereafter, with
reference to the arrange-
ments to be made regard-
ing the tolls on local roads
under the Local Funds Act,
it may be necessary to im-
pose some restrictions. The
maximum rates of tolls under
the new schedule are double
those under the schedule

to Act I of 1865 but the
Commissioners will observe that
these are maxima, and their
estimates of receipts from this
source should be framed
on the basis of the existing
rates, pending the settlement

The new Act does not contain
any provision as to the
mode of determining the
rates to be levied, and the
Commissioners will observe that

of the question of local tolls
generally.

5. The new charges to be
imposed on Municipalities
under the new law consist,
for the present, of the fol-
lowing items.

(i) Charges on account of
medical attendance and me-
dicine in dispensaries, hi-
therto met from the imperial
grant for medical services.

(ii) Charges in connection
with schools, ^{principally} for primary
education, rate schools when
such exist in Municipalities,
and a proportion of the cost
of training teachers for em-
ployment in elementary
schools.

(iii) Registration of births
and deaths.

A statement is appended
to

to this order showing the
sums which ought to be
provided by the several
Municipalities to meet the
charges under the first
head. Provision should be
made accordingly, over and
above such grants for the
general expenses of the dis-
pensaries as have hitherto
been made in some towns.

The Govt are not yet in
a position to state with ex-
actness, the amounts which
will be chargeable to Mu-
nicipalities under Educa-
tion. Separate orders on this
subject are about to be issued
to the Director of Public In-
struction. The Commissioners
of the several towns can, how-
ever, from their local knowledge,
estimate what the
charges.

The Government are not yet in a position to state with exactness the amounts which will be chargeable to Municipalities under Education. Separate orders on this subject are about to be issued to the Director of Public Instruction. The Commissioners of the several towns can, however, from their local knowledge, estimate what the charges will be.

Charges for the items above
specified will amount to
and should provide such
allotment for 1871-72 as
as may appear to them as
necessary and as their re-
sources may allow. A rate
school exists in one Mu-
nicipality only, viz. Talpoh
Act III of 1863 will have no
force within Municipal
limits after the introduction
of the new Municipal Law
and the most appropriate
way in which the quota
hitherto contributed by the
townspeople can be made
up, appears to be an in-
crease of the per-
centage rate on houses, and
the payment by the Mu-
nicipality of a contribution
equal to the average pro-
ceeds of school rates within
the town itself. The President
of the Municipality in for-
warding its estimates
will

will report his and the Com-
missioners' opinions on
this suggestion.

8. The charges for the re-
gistration of births and
deaths will be of very
small amount, and the
Commissioners will have
no difficulty in providing
the requisite funds. The
detailed arrangements
for the collection of these
statistics should be reported
for the information of Govt.
when the estimates are
submitted for sanction.

9. The bylaws now in
force are for the most
part confused, ill drawn,
and unnecessarily numerous.
The Govt think that the
revision of these bylaws
is a matter of urgent
importance, and they have
no doubt that that the
unnecessary multiplication
of these has done much to

9. The Govt will in future
require each Municipality
to make adequate provision
for vaccination within its
limits. In most towns vac-
cination are now maintained
at the expense of the Com-
missioners; but when this
is not the case, the requi-
site allotment of funds
must now be made. The
local Funds Committee
to be established under
Act IV of 1871 will be
charged with the cost
of the establishment of vac-
cination & district super-
intendents now paid by
the State; and the Govt
will be glad to receive
from the Municipal Com-
mittees

possible state. Lists of persons to be appointed Commissioners with the President's recommendations as to the appointments by Government of Vice Presidents (Section X) and statements of the taxes which the Commissioners propose to levy, and at any rate, be submitted in time for publication before the 1st of May. The Commissioners will be careful to show separately in their budgets the estimated receipts from arrears and current taxes.
