The Committee are not yet prepared to
 name a Chairman well qualified however for the
 post of Governor they have for upwards of two
 years considered the Mr. Atkinson as
 a suitable man of the strongest character and
 a man of great talents, and with the principles of
 a suitable detached residence on the premises,
 and the same has been so in the whole
 satisfied with his order and regularity in his
 conduct. They are of opinion however
 that the future Governor of the Markhouse
 should be a person of higher education than
 it was possible for the Committee to secure out
 of the limited funds at their command and
 that he should be able not only to keep the
 accounts of the House but also to corres-
 pond in due order with the Committee with the
 Chancellor and other authorities likely to
 communicate with him in his official
 capacity. The minimum salary of the Governor
 should be at least £1000 per annum. In
 a temporary arrangement it is
 suggested that Mr. Atkinson should officiate
 as Governor of the Markhouse. The

Committee will again address the Governor
 on this point at a future date -

In para 3 of the Government Order now
 under consideration the Government propose
 that the embarkation of persons proposed to
 be Governor for the Markhouse should be supervised
 by the Master Attendant. Although this has been
 done in the case of the Governor of the
 Markhouse and as the Master Attendant has no
 agency at his command in connection with
 the Markhouse the managing Committee think it to be
 desirable that the arrangement should continue.

The Governor of the Markhouse is the keeper
 of the Markhouse and he should take charge of
 them horses on their arrival and they should
 be received into the Markhouse.

In regard to section III of the Bill
 which provides that the Governor of a
 Markhouse may appropriate on behalf of
 the Government the money or other effects found
 in possession of a vagrant by the Committee
 we value to record those suggestions that the
 section is slightly permissive, giving to the

governor of the State a discretionary
power of release which could not be exercised
to the extent of confinement, in special cases,
and under the orders of the managing committee

The Committee resolve to submit a copy
of these proceedings for the information and
order of the directors of the governor
in Council.

PROCEEDINGS of the MADRAS GOVERNMENT.

Read the following letter from the President of the Committee for the Strangers Home, dated 21st March 1871.

Order No. 470. 13th July. It appears from the foregoing proceedings of the Committee appointed for the management of the Government Establishments, that the average expenditure incurred for the maintenance of the Strangers Home at Royapuram, during the three years ending 30th October 1870 was Rs. 7,200 for annum, as per statement in paragraph 1 of the ...

proper qualifications which
would enable him, not only
to keep the accounts of the
Committee, but also to carry on
correspondence, under the
orders of the Committee,
with the Magistrate, and
other authorities who are
likely to communicate
him in his official capacity,
and they would the further
communication which the
Committee propose to receive
them on this point, to the
Magistrate, the government
sanction the temporary
employment of the person
to officiate as clerk of
the Magistrate, recommended
by the Committee.

Under the circumstances
stated in para 5 of the
Committee

Committee's Proceedings,
the government resolved to
appoint the Commissioner
of Police for the island of
Madras, under section 13
of the European Vagrancy Act,
to ^{assist and} superintend the embarkation
of vagrants from the port of
Madras, and to impose the
charge of the Workhouse, and
Art 8 of the Rules framed
under section 36 of the Act,
to receive into his custody
vagrants sent for detention
from the Hospital and to
keep them in the Workhouse
until their embarkation.
The government agree
with the Committee in the
opinion that the provisions
of section 13 of the Act, relating
to the disposal of the
effects of vagrants admitted
into the Workhouse, are
merely permissive, and not
imperative, and they direct
