Not to be folded or roughly handled

Proceedings of the Madras Government, Public Department.

28th April 1871.

Read the following papers:—

Proceedings of Government, Military Department, dated 26th April 1871, No. 1403.

No. 113. From the Acting Magistrate and President of the Municipal Commission of Bellary, to the Chief Secretary to Government, Fort Saint George, dated Bellary, 19th April 1871, No. 34.

In consequence of the great scarcity of water at present existing in Bellary, the Municipal Commissioners propose to bring it in from the Huggry river (in the sandy bed of which it is obtainable at no great depth) by rail.

2. They have requested me to ask the Government to allow them the use, during the hot weather, of some of the Iron Tanks formerly in use in the Abyssinian Expedition, and now, it is believed, lying unused at Madras.

3. I have the honour, therefore, to request that the Government will be pleased to allow Iron Tanks, sufficient to hold (20,000) twenty thousand gallons, to be despatched by rail to this place, the cost of their carriage to be paid here.

4. I would beg that early orders be issued on the subject, as time in such a matter is a great object, and already the hot weather is far advanced.

Referred to the Military Department.

(Signed) W. HUDLESTON,
Acting Chief Secretary.

No. 519.

No. 113-A.

MEMORANDUM.

The undersigned has the honour to acknowledge the receipt of Memorandum of the 25th April 1871, and, in reply, to state that Iron Water Tanks are available, and a number sufficient to contain 20,000 gallons will be despatched to Bellary by Thursday's train, if the Railway authorities can take them.

MADRAS, (Signed) E. E. MILLER, Colonel,
25th April 1871. Commissary-General.

To the Secretary to Government, Military Department, Fort Saint George.

ORDER.—The Right Honourable the Governor in Council authorizes the Commissary-General to issue, on loan, to the Municipal Commission of Bellary, the Iron Tanks applied for in the foregoing letter from their President, all attendant charges being borne by the Commission.

2. It is observed that the Commissary-General purposes to despatch the Tanks on Thursday, the 27th instant.

(True Extract.)

Communicative Proceedings in the Military Department, authorizing the Commissary-General to issue, on loan, to the Municipal Commission of Belary, the Iron Tanks applied for.

No. 1403

Proceedings of the Madras Government,
 26th April 1871.

Read the following Paper:—

Bellary Magistrate's Office.
 19th April 1871.

Sir,

From the Acting Magistrate & President
 Municipal Commission of
 Bellary.
 To the Chief Secretary to Government,
 Madras.

Sir,

In consequence of the great scarcity
 of water at present existing in Bellary,
 the Municipal Commissioners propose
 to bring it in from the Huggery river
 (in the sandy bed of which it is obtain-
 able at no great depth) by rail.

2. They have requested me to ask
 the Government to allow them the use
 during

during the hot weather, of some of the iron tanks, formerly in use in the Abyssinian expedition, and now it is believed, lying unused at Madras.

3. I have the honor, therefore, to request that the Government will be pleased to allow iron tanks, sufficient to hold (20,000) twenty thousand gallons, to be despatched by rail to this place, the cost of their carriage to be paid here.

4. I would beg that early notice be issued on this subject, as time in such a matter is a great object, & already the hot weather is far advanced.

I have the honor to be,
