*Proceedings of the Madras Government, Public Department,
1st May 1871.*

No. 1. Read the following Proceedings of the Government of India in the Financial Department, dated Fort William, 30th November 1870, No. 3539, (Accounts):—

Read—

Extract from the Proceedings of Government in the Military Department, No. 181, dated 10th October 1870, forwarding a report from the Controller-General of Military Expenditure, in which objection is taken to a ruling of the Accountant-General, Bombay, that Medical Subordinates attached to Charitable Dispensaries maintained by Municipal or other private Companies, when on leave, shall draw their pay from the Military Department.

RESOLUTION.—The Governor-General in Council observes that were the charge for Apothecaries on leave from Charitable Dispensaries maintained by Municipalities or private Corporations to be paid by the State in any case, it would be debitable to the Civil Department under Financial Resolution, No. 594, dated 20th June 1868; but in the absence of a ruling to the contrary, on special cause shown, the charge should be paid by the Municipalities or Corporations concerned.

Ordered that a copy of the above and of the report from the Controller-General of Military Expenditure be sent to the several Departments, Governments, Accountants-General, and the Comptroller-General of Accounts, the original papers received from the Military Department being returned, and copies being kept for record.

(Signed) R. H. HOLLINGBERRY,
Asst. Secy. to the Govt. of India.

—

Memorandum by Major-General A. Broom, Controller-General of Military Expenditure, dated 26th September 1870, No. 431-A.

In reply to Military Department's Office Memorandum, No. 247, of the 12th instant (original enclosure herewith returned), requesting a report on the notification issued by the Accountant-General of Bombay, "that Medical Subordinates attached to Charitable Dispensaries maintained by Municipal or other private Corporations when allowed leave of absence will, simultaneously with the grant of such leave, be transferred temporarily to the Military Department, to enable them to draw their pay from that Department," the undersigned has the honour to observe that he is not aware of the circumstances or terms under which Medical Subordinates in the Bombay Presidency are employed on such duties by the Civil Department, nor can he understand on what ground or under what authority the notification in question was issued, it being entirely opposed to the principle laid down in Financial Resolutions of the 18th January 1862 and No. 594 of 20th June 1868.

2. When the Subordinate Medical Department was reorganized by G. G. O., No. 550, dated 5th June 1868, it was ruled that the effective strength of both the "Apothecary" and "Hospital Assistant" classes was to comprise the numbers requisite for the sanctioned Military appointments, with a margin of 15 per cent. to provide for detachments, absentees, &c. All those employed on Civil duties to be considered extra to the establishment, to be seconded, and their names borne in the Army Lists in italics.

3. With a full provision for all Military purposes, it would press very unfairly on the Military expenditure if the subordinates thus specially maintained for Civil duties are to become a Military charge when on leave.

4. As it is, the Military Department has to bear a considerable portion of the cost of training these subordinates and also of their final pensions, although that Department may never have any

*Proceedings of the Madras Government, Public Department,

benefit from their services ; to add to this expenditure, the furlough or leave pay of this class whilst in actual Civil employ would apparently be inequitable. It is also questionable how far any official is justified in saddling the Military Department with a charge of this nature without the authority of Government.

5. If the funds of any particular Dispensary or Corporation are unable to meet the contingency of occasional absence on the part of the Medical Subordinate in charge, those funds are insufficient, and the appointment should not apparently be sanctioned unless Government is disposed to render assistance, which should in such case fall on the Civil, not the Military, Charges.
