No. 58. Read the following letter from the President of the Municipal Commission, Mangalore, to the Chief Secretary to Government, Fort Saint George, dated Mangalore, 4th January 1871, No. 46:—

The Municipal Commissioners have had under consideration the advisability of constructing a public market in a central situation in the town of Mangalore, and have requested me to apply to Government for a loan for the purpose.

2. The plan of market proposed is shown in the accompanying rough sketch. The wings are according to the plan of the Madras Suburban Market, but radiate from the centre rotunda, instead of being built in a quadrangular form. The Assistant Engineer, who is ex-officio a member of the Municipal Commission, has kindly consented to draw up a plan and estimate; but, as its preparation will take some time, and may, in the event of the Government declining to accede to the Commissioners' application for a loan, be unnecessary, I have the honour to request that the Government will be pleased to inform me whether they will be prepared to advance the money required.

3. It is estimated that the building will not cost more than Rupees 15,000 at the outside. It will be substantially built and tiled with the machine-made tiles of the Mission Manufactory. The Commissioners will repay the amount advanced by yearly instalments of Rupees 3,000, together with interest at five per cent.

4. Should the Government be disposed to advance the amount, the preparation of the plan and estimate will be expedited, and arrangements will be made for putting the work in hand at the commencement of the next municipal year.

5. The site proposed for the market is that alluded to in my letter of the 26th June last, in which I requested the Government to make the land over to the Municipal Commissioners.

No. 59. ORDER THEREON, 18th January 1871, No. 65.

The Government must defer passing orders on this application, pending the consideration of the Towns' Improvement Bill now before the Local Legislative Council.
