Dated 13-6-1918

Not to be folded or roughly handled

13th June 1871.

No. 64. Read the following letter from W. M. CADELL, Esq., Officiating President of the Municipal Commission, Combaconum; to the Acting Chief Secretary to Government, Fort St. George, dated Tanjore, 21st April 1871, No. 82:—

With advertence to the orders of Government marginally noted, I have the honour, herewith, to submit estimates of receipts and disbursements for the Municipality of Combaconum,

P. D., No. 436, 31st March 1871.
with reference to the provisions of Act III. of 1871, for the eleven months ending 31st March 1872, also a list of the taxes proposed to be raised and of the Commissioners recommended to be appointed under the Act.

In the Statement A, the amount entered for widening and improving the road from the jail buildings to the Cauvery bridge seems to me, from my knowledge of the locality, unnecessarily large. It is also to be borne in mind that this road is the embankment of the river, and that, under recent order of Government, the land which the Commissioners propose to buy up will be required by the Department of Public Works for the bank of the river. The traffic on the road is also in the present day not so large as, in my opinion, to warrant so large an expenditure.

As regards the drainage works, for which a sum of Rupees 2,000 is set down, I would beg to recommend that this expenditure be postponed until a complete and comprehensive system of drainage has been mapped out and sanctioned by professional authority. The town of Combaconum is, for the most part, situated on land which is considerably below the level of the rivers when in flood and which lie to the north and south of it; the slope of the country from west to east is also very small, and, to ensure the success of any scheme of drainage, both great care as well as professional knowledge are urgently required.

The store for which a sum of Rupees 1,000 is set down seems to me now unnecessary, as the building built for a Police Hospital, and which, under recent orders of Government, is not required for that purpose, can easily be converted into a store.

The allotment for the registration of births and deaths seems to me too large, and a sum of Rupees 250 ought to be sufficient.

Lighting, Rupees 800. In my judgment this provision is insufficient, and I would propose to raise the same to Rupees 1,200. Great satisfaction has been felt and is expressed by the inhabitants of Negapatam and Nagore, as also of Tanjore, at the introduction of their lamp-posts, and this mode of spending a part of municipal monies is one which can be seen and appreciated by all classes.

The cost for taking the census, and which has been placed at Rupees 800, is much too large. Rupees 300 ought to be amply sufficient.

The alterations proposed will leave a balance of Rupees 4,290, or of Rupees 2,290 if the drainage works are determined on.

It is proposed out of this to spend Rupees 400 in forming a nursery and Rupees 600 in renewing the avenues. The latter are old and decayed, and the importance of shade in this country cannot be over-estimated.

The information regarding the detailed arrangements for the collection of vital statistics are given in the Vice-President's letter. The employment of four

13th June 1871.

Clerks seems unnecessary, and a sum of Rupees 250 ought to cover all expenses under this head.

The information called for in paragraphs 9 and 10 of the Government Order will be submitted shortly.

I would beg, in conclusion, that K. Ragunatha Row be nominated Vice-President of the Combaconum Municipality.

No. 65. ORDER THEREON, 13th June 1871, No. 819.

The receipts in Combaconum for 1871-72 are expected to amount to Rupees				33,503, and the balance, Rupees 6,542,			
being added, the Commissioners will				have at their disposal Rupees 40,045.			
The tolls seem to be diminishing in				productiveness. The large amount of			
magisterial fines, Rupees 2,000, indicates				a somewhat stringent enforcement of the			
law.							
2. The expenditure proposed by the				Commissioners is shown in the margin.			
The President takes objection to the				following allotments:—			
(i.) Rupees 2,000 for the road (new				work) from the jail buildings to the			
Cauvery bridge, that it is unnecessarily				large; that the land which for the work			
the Commissioners must buy up belongs				to the river bank, and is required by the			
Public Works Department, and that the				traffic is not sufficient to warrant the			
expenditure;							
(ii.) Rupees 2,000 for drains, new				works, that the expenditure should be			
postponed until a complete system for the				town can be devised by professional			
authority;							
(iii.) Rupees 1,000 for a Municipal Store, that it is not required, as the				building built for a Police Hospital will answer the purpose;			
(iv.) That the allotment for the registration of births and that for the				census are too large; and			
(v.) That for lighting, Rupees 800, too small.							
3. The opinions of the President should have been brought before the				Commissioners, who might have then modified the estimates, or, if they adhered to			
the allotments, recorded their reasons. The first allotment cannot be sanctioned by				Government until it is ascertained from the Superintending Engineer whether the			

13th June 1871.

land can be made over, and from the Commissioners whether they still desire to make the road.

4. As regards the drains, the Government observe that to postpone all drainage works till a comprehensive scheme of drainage for the execution of which the municipal revenues will be adequate can be devised is equivalent to abandoning all effort at improvement in this direction. The proposed amount is small, and the Commissioners are authorized to spend it if they think fit.

5. A Police Hospital, at a cost of Rupees 1,945, was built by the Commissioners in 1869-70. This will be taken over by Government, and the Commissioners' expenditure repaid to them. The store will consequently be necessary, and the allotment is sanctioned.

6. The Government do not think Rupees 40 per mensem too large an expenditure for a good system of registration of births and deaths in a large town, and sanction that allotment. The assignment for the census is reduced to Rupees 300, the sum named by Mr. Cadell. The Commissioners will have to pay only half the cost. The expenditure of the balance of the census allotment on lighting is sanctioned.

7. With reference to the Vice-President's remarks in paragraph 5 of his letter, the Commissioners are informed that all the charges of the Dispensary hitherto borne by Government are transferred—a portion to the Municipality and a portion to local funds.

8. The estimates as modified are passed. The proposed Commissioners are appointed.

9. With reference to the President's letter, No. 139, dated 29th May 1871, the Government, under Section 10, Act III. of 1871, authorize the Commissioners to elect their Vice-President.

NOTIFICATION.

Under the provisions of Section 38, Act III. of 1871 (the Towns' Improvement Act), the Governor in Council authorizes the Municipal Commissioners for the Town of Combaconum, in the District of Tanjore, to levy during the year beginning 1st May 1871 and ending 31st March 1872—

- A rate on houses, buildings, and lands, according to the annual value thereof.
- Tolls on carriages, carts, and animals entering the municipal limits.
- Taxes on carriages, horses, and other animals as described in Schedule C. to the above Act annexed.

NOTIFICATION.

Under the provisions of Section 7, Act III. of 1871 (the Towns' Improvement Act), the Governor in Council hereby appoints the under-mentioned persons to be

No. 83
Statement showing
the rate per pie
levied in the Municipal
district during the year 1871-72

To Wm Cadell Esquire

Offg President

Municipal Commission

Combaconum

Sir,

With reference to your letter No 68 of the 5th Inst and Government Proceedings No 436 dated 31st March 1871. I have the honor to forward the revised estimates of Receipts and expenditure together with the statement of Taxes proposed to be levied.

1. One twelfth part of the Receipts in previous Budget estimate have been deducted as the present amount is only for eleven months

2. With reference to the Professional Tax, the Commissioners are of opinion that it would not be advisable to introduce it at present, as the receipt from other sources, it is hoped, will suffice to meet the proposed expenditure and that it would be very hard to impose this additional tax, as the people are now paying the maximum rate of House Tax, (7 $\frac{1}{2}$ per cent). Some of the items under the "new works"

In a letter

From the offg President

Municipal Commission

To the offg President
of Government
Combaconum

Dated 21st April 1871

No 82

Deat of James Johnson

to be levied during the

year 1871/72.

in the previous Budget have been now reduced by half and under the items "Conservancy" and Repairs some deductions have also been made. The changes thus effected will enable us to make provision for the new charges without imposing any additional

Tax -

3 A sum of Rupees 500 is entered in the Receipts as the probable amount recoverable from Government on account of Police, this item being calculated on the actual cost of the Police for the previous year - Again the Government Grant-in-aid calculated as nearly as possible on the actuals of 1870/71 shows a sum of Rupees 2192 overdrawn by Commissioners which will have to be adjusted

4 The amount of Receipts set down under the head "Tolls" has been calculated at the present rates (Schedule B Act I of 1865), that is half those laid down in Schedule D Act III of 1871. Should

however

24
however the Receipts under this head be affected by the introduction of the Local Funds Bill, it will, it is thought, be then necessary to impose the Professional Tax -

5 With reference to the new charges imposed Medical attendance &c., :-

In the expenditure Rs 2,000 have been set down for this purpose as directed by Government, but it is not clearly understood if this sum is to include the whole pay and allowances of all Government Servants attached to the Dispensary or only as a Contribution - if the former, the amount is certainly inadequate to meet the charges on this account. Schools. Rupees 3000 are set down as being sufficient to meet all demands at present on this account. There are five elementary schools (3 boys and 2 girls) receiving grant-in-aid from Government to the amount of about Rupees 2500, so that a surplus of Rupees 450 has been allowed to meet any other miscellaneous charges and also

if

if possible to contribute Rupees 100 out of the above surplus towards maintenance of free schools, to be given to them under certain Conditions—

Registration of births and deaths.

It is intended to divide the Town into four districts, appointing one Registrar for each, who will be required to reside as nearly as possible in the centre of their respective Districts with his name and designation affixed to some conspicuous place outside his dwelling; they will record all the Cases reported in Registers furnished them, from which a certified copy will be sent daily for record in the office Registrar. The amount set down Rs 440 does not include miscellaneous or Contingent Charges for registers &c. - as this item of expenditure has been included in the miscellaneous charges under the head of establishment.

6. One Vaccinator is maintained in this Municipality

Municipality on a salary of Rs 10 per mensem and since his appointment by the Hospital Committee in 1866, and his subsequent transfer to the Commissioners in 1868. his work has been supervised by myself, as the Medical Officer of the station. The Commissioners are of opinion that it is not necessary to make any change in the Supervision at present.

7. The Bye Laws and statements alluded to in para 10 will be forwarded as soon as possible after the close of the current year.

In conclusion, I beg to represent that in referring to Commissioners' opinion in this report, I mean it as the opinion of those who were present at the Special meeting. There were only two present although with the notice, a special request in Tamil was sent round requesting their attendance most particularly. Two of the Commissioners I am aware are absent from the Town. Mr Govinda Row and Ranganatha Row, and I believe also Ramalingasethu.

Ramalinga Chettiar. The Commissioners present
at the meeting were Jopalasami Chettiar and Srinivasa
Row. Commissioner Ponnasami Mudaliar of
course as already stated in my letter of the
24th February last is ailing and unable to attend.

The list of the Commissioners have been sent
in with the letter referred to above. I now beg to
enclose a Supplementary list of persons eligible
to serve as Commissioners from whom I leave
you to choose either the whole or as many as you
may think necessary.

system for the town can be devised by professional authority.

(iii) Rs 1,000 for a municipal store, that it is not required, as the building built for a police hospital will answer the purpose.

(iv) That the allotment for the registration of births, and that for the Census are too large, and

(v) That for lighting, Rs 800, too small.

3. The opinions of the President should have been brought before the Commissioners, before the

who might have them modified the estimates, or if they adhered to the allotments, recorded their reasons.

The first allotment cannot be sanctioned by Government

2. Government until it is
ascertained from the Su-
perintending Engineer
whether the land can be
made over, and from the
Commissioners whether
they ^{other desire} ~~permit in their in-~~ State desire
structions to make the road.
4. As regards the drains,
the Government observe
that to postpone all
drainage works till a com-
prehensive scheme of
drainage for the execu-
tion of which the mu-
nicipal revenues will
be adequate, ^{can be devised} is equivalent
to abandoning all effort
at improvement in this
direction. The proposed
amount is small, and the
Commissioners are authorized
to

6³³
to spend it if they think
fit.

5. A police hospital at a
cost of Rs 1945 was built
by the Commissioners in
1869-70. This will be taken
over by Government and
the Commissioners' expendi-
ture repaid to them. The
store will consequently be
necessary, and the allotment
is sanctioned.

6. The Government do
not think Rs 40 per men-
-seu too large an expendi-
-ture for a good system
of registration of births
and deaths in a large
town, and sanction that
allotment. The assignment
for the Census is reduced
to

to Rs 300, the sum named
by Mr. Cadell. The Com-
missioners will have to
pay only half the cost.
The expenditure of the bal-
ance of the Census ab-
stinent on lighting, is
sanctioned.

7. With reference to the
Vice President's remarks
in para 5 of his letter,
the Commissioners are
informed that all the
charges of the dispensary
hitherto borne by Govt
are transferred, a portion
to the municipality, and
a portion to local funds.

8. The estimates as sus-
-pended, are passed. The
proposed

proposed Commissioners
are appointed. The names

With reference to the President's ~~letter~~ of a Vice President
Letter No 139 dated 29th May 1871
the Govt. order under which to act is ~~is~~ deferred.
The Govt. authorizes the Com^{rs}
to elect a Vice President.
