Read the following papers:—

No. 68. From the President of the Municipal Commission, Nellore, to the Chief Secretary to Government, Fort St. George, dated Nellore, 18th April 1871, No. 718.

Adverting to G. O., Public Department, dated 31st ultimo, No. 436, I have the honour to submit estimates of the probable receipts and disbursements of the Nellore Municipality, framed in accordance with the instructions therein conveyed for eleven months of the official year 1871-72.

2. With reference to paragraph 9 of the G. O., I am of opinion that the Municipal Vaccinator should work independently of those employed in the Local Fund Circle under the direct supervision of the resident Medical Officers, who are both Commissioners for the town.

3. The subject of bye-laws will shortly be reported upon separately.

4. I beg to submit a list of the gentlemen who are willing to be appointed Commissioners. The first thirteen are officers salaried by Government, and the remaining thirteen are private individuals.

5. I beg to recommend the appointment, to be Vice-President, of Mr. John Wallace.

No. 69. From the President of the Municipal Commission, Nellore, to the Acting Chief Secretary to Government, Fort St. George, dated Kistnapatam, 13th May 1871, No. 869.

Adverting to G. O., Public Department, dated 9th instant, No. 609, wherein I am called upon to report whether the majority of the Municipal Commissioners of Nellore desire to elect their Vice-President, I have the honour to observe that, whereas the only Commissioners whom I could now consult are those appointed under the old Act, and very few of them are not officials, and whereas under the new Act I have proposed to double the number of Commissioners, and to introduce a large independent element into the Commission, it appears to me that, in regard to the question of the election of a Vice-President, it is only the new and not the old body of Commissioners who could with propriety be consulted.

2. If the Government concur in this view, I beg that the new Commissioners may be first appointed according to the list I have already submitted, and that I may then be allowed to ascertain their desire in regard to their Vice-President.

3. There are, besides, many other points in connexion with the introduction of the new Act, on which I should be glad to consult the new body of Commissioners as soon as possible, *e. g.*, the Deputy Inspector of Schools is not at present on the Commission, but I have proposed his name.

No. 70. ORDER THEREON, 14th June 1871, No. 823.

With the foregoing letter the President of the Municipal Commission, Nellore, submits revised estimates for that Municipality for the year 1871-72.

2. In the estimate of Current Receipts—Miscellaneous, appears an item, Rupees 300, for road cess. As the Road Cess Act will cease to have any effect within municipal limits from the date on which Act III. of 1871 comes into force, *viz.*, the 1st May 1871, this asset should not have been included. The Commissioners estimate that they will receive a sum of Rupees 860 on account of the adjustment of State contribution for past years. The Government observe that the estimated receipts from the registration of carts are much larger than in 1870-71, owing, the

14th June 1871.

Government presume, to the adoption by the Commissioners of the higher maximum fee admissible under Section 75. The rate fixed by the Commissioners should be stated for the approval of Government. The schedule of rates proposed for licences should also be submitted for orders.

3. The estimated receipts are as follow (omitting current road-cess) :—

Current—		Rs.
Rate on houses and lands, at 7½ per cent.	5,900	
Tolls	5,000	
Tax on carriages	1,900

	15,535	
Arrears—		
Tolls	263	
Miscellaneous	188	
State contribution	860	
	1,311	
Total	16,846	

4. The estimate of expenditure contains a provision of Rupees 200 for Government supervision. It is not likely that any charge will be made on this account in 1871-72, and the allotment will be struck out. There are allotments, amounting to Rupees 150, for repairs of choultries and dispensaries.

The President and Collector has been called on in a separate order to submit a list specifying the institutions which should be vested in the Commissioners under Section 15. The estimates do not give sufficient detail of the works, but the Government observe that Rupees 1,000 is a large allotment in a single year for avenue planting. The allotment will be reduced by Rupees 100 to bring the expenditure of the town within its receipts.

14th June 1871.

5. The estimates as modified are sanctioned.

6. A Notification authorizing the proposed taxes will be issued. The Government observe that the list of proposed Commissioners contains twenty-six names, thirteen of which are believed to belong to official persons. Including the President the proportion of official members is, therefore, excessive. Nos. 1, 7, 8, and 11 will be omitted, and the rest appointed. The reply to G. O., 9th May 1871, No. 609, is awaited.

NOTIFICATION.

Under the provisions of Section 38, Act III. of 1871 (the Towns' Improvement Act), the Governor in Council authorizes the Municipal Commissioners for the Town of Nellore, in the Nellore District, to levy during the year beginning 1st May 1871 and ending 31st March 1872—

PROCEEDINGS of the MARDAS GOVERNMENT.

Read the following letter from the

President of the Municipal Commission, Nellore

dated 18th April 1871 N. 718
18th May 1871 N. 869.

Order thereon 16th June 1871 N. 823.

With the foregoing letter the President of the Municipal Commission, Nellore, submits revised estimates for the Municipality for the year 1871-2.

2. In the estimate of current receipts, Miscellaneous, appears

an

an item, Rs 300, for road cess. As the road cess Act will cease to have any effect within Municipal limits from the date on which Act III of 1871 comes into force, viz: the 1st May 1871, this asset should not have been included. The Commissioners estimate that they will receive a sum of Rs 860 on account of the adjustment of State Contribution for past years. The Government observe that the estimated receipts from the registration of carts are much larger

Larger than in 1870-⁴₃₅ owing the Government presume to the adoption by the Commissioners of the higher maximum fee, admissible under Section 75. The rate fixed by the Commissioners should be stated for the approval of Government. The schedule of rates proposed for licenses should also be submitted for orders.

3. The estimated receipts are as follows (pertaining current road cess)

4. The estimate of expenditure contains a provision of Rs 200 for Government supervision. It is not likely that any change will be made in this account in 1871-2 and the allotment will be struck out. There are allotments amounting to Rs 150 for

for repairs of churches and dispensaries. 31
The President & Collector has been called on in a separate order to submit a list specifying the institutions which should be vested in the Commissioners under Section 15. The estimates do not give sufficient detail of the work but the Government observe that Rs 13,000 is a large allotment in a single year for revenue planting. The allotment will be reduced by Rs 100 to bring the expenditure of the town within its receipts.
