Mis.

Dated

16-6-1937

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Department,
16th June 1871.

No. 104. Read the following letter from the Inspector-General of Ordnance and Magazines, to the Chief Secretary to Government, Fort St. George, dated Fort St. George, 29th May 1871, No. 48-G. :—

Ordnance Department.

I have the honour, herewith, to forward the Administration Report of the Stationery Depôt for the year 1870-71.

2. That document is so complete in itself that I have only a few remarks to make.

3. The quality of certain articles of stationery supplied by the Home Authorities continues to be inferior and much complained of. The circumstance should, I think, be prominently brought to the notice of the Right Honourable the Secretary of State for India.

4. Steel-pens supplied from England should be, in a larger proportion of "fine points:" the ratio suggested by the Superintendent of Stationery appears suitable to meet the general demand for the several classes of pens.

5. The attention of Heads of Departments should be called to the lateness in which, in some instances, their indents are submitted to the Superintendent, and the number of supplementary indents that are sent in after their annual demand.

6. The Board of Revenue should be instructed to issue orders to prevent the recurrence of the matter brought to notice by the Superintendent of Stationery in paragraph 2, Section 6, of his Report.

7. If a paper like the fabric called "French-paper," which is at present obtained from manufacturers in France, is procurable in England and at as cheap a rate, it would, perhaps, be preferable that the supplies should be made by the Home Authorities. The contract for the supply will expire with the official year 1871-72.

8. The highest testimony continues to be borne to the efficiency of Mr. Clark, the Manager of the Stationery Office.

From the Superintendent of Stationery, to the Inspector-General of Ordnance and Magazines, Fort St. George, dated Fort St. George, 12th May 1871, No. 87.

With reference to the Order of Government in the Public Department, dated 28th November 1861, No. 1577, I have the honour to forward, for submission to Government, a report of the operations of the Stationery Office for the official year ending 31st March 1871.

I. Stock.—The value of stock at the commencement of the year was Rupees 4,81,884-15-7, the value of receipts from all sources during the year aggregate Rupees 1,61,692-10-1, while that of issues is Rupees 2,40,606-2-9. At the close of the year, the value of stock was (as shown in statement, appendix marked A) Rupees 4,02,971-6-11.

2. Among the articles of Europe stationery proper shown on stock returns 148 reams yellow paper only were purchased in the local market upon the emergent requisition of the Postmaster-General; the article was paid for by the Postal Department agreeably to the Resolution

Proceedings of the Madras Government, Public Department,
16th June 1871.

of the Government of India in the Financial Department, dated 18th August 1863, No. 3837, because there was not sufficient time to obtain the supply from England, the article not being included in the original estimated requirement received for the year. The purchase locally cost Rupees 1,073, whereas the cost of the supply from England, including freight and packing charges, would have been Rupees 852-13-11, or a difference in cost of Rupees 220-2-1, equal to little more than twenty per cent. in favour of the English supply.

3. The demands for printing-paper during the year were unusually large for Census Forms and Vernacular Legislative Acts; it is stated that paper for the latter purpose was heretofore supplied by private printers; and, notwithstanding the sudden and emergent large demand for this article which had not previously been shown in estimates, it was found practicable to make arrangements for meeting the most urgent demands from the reserve stock for ordinary requirements by withholding a part of the supply for the Collectorate Presses for the official year 1871-72, so as to admit of the balances due being received from England prior to the exhaustion of the part of the supply for 1871-72.

4. This suggestion originated in this office and was approved of by the Revenue Board. It was decidedly the most advantageous to Government, for it obviated the necessity of an application for a supplemental grant of Rupees 76,920, and it also effected a large saving of Rupees 36,790, being the difference in cost between the English prices and local market rates; this large saving must be considered a desideratum in a financial year when all public departments were specially enjoined to reduce their expenditure to the lowest limits.

II. RECEIPTS.—The value of receipts from England aggregates Rupees 75,616-14-0 against Rupees 2,93,661-7-4 in 1869-70, the difference being accounted for by the stores shipped per *Medusa* and *Mofussilite* not coming to hand up to the close of the official year, and the invoice cost of a part supply of the stores received in 1868-69 being included in the latter amount.

2. The miscellaneous receipts aggregate Rupees 430-4-9; these comprise articles which were issued from the Depot upon indents of the Medical Department and afterwards returned, being in excess of actual requirements on account of the abolition of the Medical Store Depôts at out-stations.

3. The black-lead pencils last received from England are of better quality than those heretofore supplied; the paper wrappers, however, were saturated with turpentine or some oily substance, hence the joints of the wood which they are filled in got loosened and had to be glued on again in this office.

III. LOCAL PURCHASE.—The local purchases during the year aggregate Rupees 84,370-8-6 against Rupees 98,797-3-10 in 1869-70.

2. The French-paper was purchased last year by contract from Messrs. Arbuthnot and Co. on behalf of Messrs. Glenison *et fils* of Bordeaux; notwithstanding the careful scrutiny in the Department to ascertain that this paper corresponds to the samples received from the Revenue Board and approved of by the High Court, still there have been instances of complaints regarding its inferior quality, and I have reason to believe that the papers, though seemingly of good quality when freshly received, frequently deteriorates and becomes discoloured after having been kept in store for any length of time.

3. The paper, 1st and 2nd sort, is purchased by contract at Rupees 1-11-3 and Rupees 1-6-9 per ream, respectively, against Rupees 2-12-0 and 1-8-0 as per samples received from the Revenue Board with their Proceedings dated 6th March 1865. The Revenue Board has intimated that paper of a better quality is required for the Revenue Department, although, in their Proceedings dated 6th March 1865, they objected to a better article being supplied by Messrs. Binny and Co. on account of the difference in price of 10 Annas per ream.

4. If, however, the quality of French-paper then considered suitable has after trial been found otherwise, the present time presents the most fitting opportunity to regulate future supplies as Messrs. Arbuthnot and Co.'s contract for its three years supply will expire with the current official year 1871-72.

Proceedings of the Madras Government, Public Department,
16th June 1871.

IV. ISSUES.—The cost of issues to public offices during the year aggregate Rs. 2,29,925-4-8 against Rupees 3,02,915-0-7 in the preceding year, and, if we are to deduct therefrom Rupees 2,698-2-8, the proportion chargeable to Local Funds, the cost will be still more favourable as compared with that of the preceding year, showing a difference in value of Rupees 75,687-14-7.

2. The above result, favourable as it is, would have been still more so if it were not that the following additional establishments had to be supplied for the first time with stationery articles during the year under review, viz. :—

Secretary, Medical Fund.

Barrack Master at the Presidency.

Public Works Stores' Machinery

Lithographic Press attached to the Gun Carriage Manufactory.

3. The large saving above adverted to demonstrates the efficient check exercised in this office under Mr. Clark's management, who has not failed to direct attention whenever the demands were in excess of the limited expenditure referred to in the Proceedings of Government, dated 12th October 1869, No. 477. In many instances, the quantities were reduced upon revised indents, while in others it was stated that the excess requirements were needed for the following reasons, viz. :—

Superintending Engineer, 3rd Division.—Most of the articles are in excess of the average of the last two full years owing to the enhanced amount of work from ranges.

Superintending Engineer, 8th Division.—Owing to the increase of the Office Establishment of the Resident at Trevandrum, the quantities of royal and demy paper included in the indent are required, as the last supply was found insufficient.

Commissioner of Paper Currency.—That the business of his Department has considerably increased in 1870-71.

Consulting Engineer for Irrigation and Canal Company.—The royal paper is required for returns not previously furnished to the Accountant-General, Calcutta.

V. COMPLAINTS.—Complaints continue to be made of the inferior quality of the supply of machine-made papers, and I am of opinion that these will be met if hand-made, machine-made, and cream-laid papers are hereafter issued in the proportions recommended in my letter, dated 26th April last, No. 54.

2. *Blue Printing Ink.*—Fifty pounds of blue printing-ink, received from England for the Paper Currency Department, have been returned by the Commissioner as unfit for his Stamp Presses. The supply of the following year, however, was approved by him and the quantity returned has been retained for issue for less important work than the Paper Currency stamps. If the article should again be objected to as unfit for ordinary requirements, it will be disposed of by public auction and the result noticed in the next annual report.

3. *Black-lead Pencils.*—The Collector of North Arcot states that the black-lead in the pencils is gritty and hard and scratches paper. The Superintending Engineer, 1st Division, states that the drawing pencils, marked B. B. and B., are soft lead ones and are of very little use for drawing purpose.

4. *White Blotting Paper.*—The Revenue Board intimates that this article was of very inferior quality. This subject was brought to notice in my letter, 24th June 1869, No. 212, and pink blotting-paper has since been received.

5. *Quills.*—The Collector of Coimbatore reports that the quills received are of very inferior quality.

6. *Penknives.*—The Inspector-General, British Medical Department, intimates that the penknives supplied are of cast-iron and of very bad quality. This subject also was alluded to in my last report: advice has been received of the shipment of Rodgers' new pattern desk-knives, but these have not yet come to hand for report.

Proceedings of the Madras Government, Public Department.
16th June 1871.

7. *Ordnance Steel-pens.*—There is a general dislike to the present supply of Ordnance steel-pens as compared with the expensive magnum bonum barrel pens heretofore supplied; the latter article is more expensive than quills which it is intended to replace. Perhaps there will not be occasion for complaints so generally if ordinary pens are hereafter supplied in the following proportions, viz. :—

Broad points, one-eighth.
Medium do. three-eighths.
Fine do. four-eighths.

VI. *GENERAL INDENTS.*—The General Indent of the Revenue Board for 1871-72 was received on 1st April only, and that of the Deputy Inspector-General, Indian Medical Department, for the Civil Hospitals, Northern District, is not yet to hand; the demand for extensive supplies for out-stations in April is most inopportune, the Stationery Department being very fully engaged at this time in issuing articles to offices at the Presidency.

2. It was almost immediately after the receipt of the Revenue Board's General Indent that several service telegrams and letters were received in this office to expedite the transmission of stationery articles urgently required, and the means of this Department were heavily taxed to respond to the pressing calls from the Collectors of South Arcot, Salem, Kistna, Tinnevely, South Canara, Malabar, Cocanada, Chingleput, Madura, Bellary, Cuddapah, and Nellore, all intimating their pressing wants for stationery articles to replace their stock which was stated to be exhausted. 108 supplemental indents in all were received during the year, thirty of these are from the Revenue Board, six of the latter are dated 1st, 6th, 9th, 27th, 28th, and 30th September 1870, respectively, and four of 14th, 19th, 20th, and 27th January 1871; so that there is not an interval of even one day between the dates of submission of some of these indents. Five of these supplemental indents are exclusively for the Madras Collectorates' requirements and five for the Tanjore Collectorates, while there are three separate indents in less than one month, each of them for sixty reams of double double pott thick paper for the Collector of Malabar.

3. There is no doubt that a large saving will be effected in the expenditure of stationery articles if the check contemplated by Government in paragraph 16 of their Order, dated 28th November 1861, No. 1577, and paragraph 3 of 9th April 1862, No. 429, be carefully looked to by controlling Heads of Department to ascertain whether there are any marked differences in the demands of subordinate offices of apparently similar requirements.

VII. *COST OF ESTABLISHMENT.*—This establishment continues to be worked as economically as in former years, the cost including Superintendent's salary for the whole year being Rupees 7,756-14-10, and the net cost Rupees 5,174-11-8, after deducting the sums realized in the margin.

	RS.	A.	P.
Commission realized on sale indents	142	11	6
Sale of waste-paper packing materials	1,870	9	0
Contractors' deposits forfeited	209	8	0
Gain by sale of Indian Atlas sheets, maps, &c.	359	6	8
Total	2,582	3	2

2. The economical suggestion that the emergent pressing demands for printing-paper be met from ordinary stock rather than that we be forced into the local market to purchase it at considerably higher rates than those at which it could be obtained direct from England, as also the suggestion of adopting the cheaper agency for the transmission of stationery goods referred to in Government Proceedings, dated 14th July 1870, originated with the Manager, Mr. James Clark, who continues to exercise a careful scrutiny and watchfulness over public expenditure, and, in reference to the Order of Government dated 25th July 1870, No. 917, I would confidently recommend that Mr. Clark's memorial receive favourable consideration. I take this opportunity to reiterate the opinion expressed by my predecessor Colonel Napier Campbell that Mr. Clark is one of the best public servants an officer ever had under him, and his removal from the Department, with the working of which he is so conversant, would, I believe, be injurious to the interests of Government. In behalf of those interests, if for no other reason, it would be prudent to secure his services so long as he is capable of performing his duties as efficiently as at present.

Proceedings of the Madras Government, Public Department,
16th June 1871.

FORT ST. GEORGE,
12th May 1871.

(Signed) R. G. F. HENEGAN, Lieut.-Col.,
Superintendent of Stationery.

No. 105. ORDER THEREON, 16th June 1871, No. 845.

The Inspector-General of Ordnance and Magazines submits, with his letter above recorded, the Administration Report of the Superintendent of Stationery for the year 1870-71.

2. It appears from the report that the value of the balance of stock at the end of 1869-70 was Rupees 4,81,844-15-7, and that the value of supplies received from England and purchased in India in 1870-71 amounted to Rupees 75,616-14-0 and Rupees 86,075-12-1, respectively. The aggregate value of stock dealt with during the year was Rupees 6,43,577-9-8 against Rupees 7,88,376-2-3 in 1869-70.

3. The stock issued during 1870-71 was valued at Rupees 2,40,606-2-9 against Rupees 3,06,491-2-8 in 1869-70.

4. The net value of stock remaining at the close of 1870-71 was Rupees 4,02,971-6-11, or Rupees 78,913-8-8 less than that of 1869-70.

5. The large decrease of Rupees 2,18,044-9-4 in the value of supplies received from England during the year 1870-71, as compared with 1869-70, is explained by the Superintendent of Stationery to be due partly to the stores shipped per *Medusa* and *Mofussilite* having arrived after the close of the official year, and partly to the invoice price of stores received in 1868-69 having been included in the accounts for 1869-70.

Proceedings of the Madras Government, Public Department,

16th June 1871.

6. The value of stores purchased in India in 1870-71 fell short of that of purchases in 1869-70 by Rupees 14,426-11-4.

7. The Government notice with satisfaction a decrease of Rupees 72,989-11-11 in the value of the stores issued in 1870-71, as compared with the year preceding, notwithstanding the addition during the year of four offices to the number previously supplied.

8. The question of charging local funds with a percentage of the cost of stationery supplied to departments having the management of those funds cannot be disposed of until the Government of India reply to the reference made to them on the subject.

9. The attention of the Secretary of State for India will be drawn to the remarks of the Superintendent of Stationery relative to the wrappers put over the black-lead pencils last received from England being saturated with turpentine or some oily substance, and the joints of the wood having thereby become loosened; to the quills supplied being of inferior quality; and to the desirableness of the steel-pens supplied being in the proportions specified in paragraph 7 of the Superintendent's letter.

10. The attention of the Secretary of State was requested to the inferior quality of the machine-made paper in the Despatch to his address, dated the 30th November 1870, No. 32.

11. A sample of the paper procured direct from the manufacturers in Bordeaux was sent to the Secretary of State with Despatch, dated the 23rd ultimo, No. 15, and his attention will now be requested to the suggestion contained in paragraph 7 of the letter from the Inspector-General of Ordnance and Magazines.

12. The attention of the Board of Revenue and Heads of Departments will be called to the remarks in Clauses 2 and 3 of Section VI., "General Indents," of the Report of the Superintendent of Stationery.

13. The Inspector-General of Ordnance and Magazines and the Superintendent of Stationery will be informed that the Administration Report of the Stationery Depôt should be restricted exclusively to observations on the working of the Depôt, and that any recommendations on behalf of subordinates employed in the Depôt should be submitted separately for the orders of Government.

Colonel L. Barrow C. B.

Inspector General of Ordnance and Magazines.

To

The Chief Secretary to Government

Sir,

I have the honor herewith to forward the
Administration Report of the Stationery Dept for
the Year 1870/71.

2 That document is so complete in itself that
I have only a few remarks to make.

3 The quality of certain articles of Stationery
supplied by the Home Authorities continues to be
inferior and much complained of. The circumstances
should, I think, be prominently brought to the
notice of the Right Honorable the Secretary of State
for India.

4 Steel pens supplied from England should
be in a larger proportion of "fine points," the ratio
suggested by the Superintendent of Stationery appears
suitable to meet the general demand for the
several classes of pens.

The

5 The attention of Heads of Departments should be called to the lateness in which in some instances their indents are submitted to the Superintendent, and the number of Supplementary Indents that are sent in after their Annual demand.

6 The Board of Revenue should be instructed to issue orders to prevent the recurrence of the matter brought to notice by the Superintendent of Stationery in para 2 Section VII of his Report.

7 If a paper like the fabric called "French paper" which is at present obtained from Manufacturers in France is procurable in England, and at as cheap a rate, it would perhaps be preferable that the supplies should be made by the Home Authorities. The Contract for the supply will expire with the official Year 1871/72

8. The highest testimony continues to be borne to the efficiency of Mr. Clarke the Manager of the Stationery Office.

I have the honor to be
Sir
Your most Obedient Servant
J. H. B. O. S. & Co. Secy. to the
Inspector General of Ordnance & Stores

Public Department.

PROCEEDINGS of the MADRAS GOVERNMENT.

Read the following letter from the

Inspector General of Ordnance
and Magazines of 29th May 1871.
No. 48.

Order thereon 16 June 1871 No. 845.

The Inspector General
of Ordnance and Magazines
submits with his letter above
recorded the Administrative
Report of the Superintendent of
Stationery for the year 1870-71.

2. It appears from
the report that the value of the
balance of Stock at the end
of 1869-70 was Rs. 1,81,874-15-7.
and that the value of supplies
received from England and
purchased

No. 11245/1871-72-73

Forwards Communication
Report of the Stationery Dept
for 1870/71

1074

purchased in India in 1870-71 amounted to Rs. 75,616-14-1 and Rs. 86,075-12-1 respectively. The aggregate value of stock dealt with during the year was Rs. 5,577-9-8 against Rs. 7,883-7-2 in 1869-70.

3. The stock issued during 1870-71 was valued at Rs. 24,066-2-9 against Rs. 30,649-2-8 in 1869-70.

4. The net value of stock remaining at the close of 1870-71 was Rs. 4,029-7-6, or Rs. 789-3-8 less than that of 1869-70.

5. The large decrease of Rs. 2,804-4-9 in the value of supplies received from England during the year 1870-71, compared with 1869-70, is explained by the Superintendent of

19
12
of Stationery to be ^{partly} due to the stores shipped per "Madras" and "Mopussile" having arrived after the close of the official year, and partly to the lower price of stores received in 1869-70 having been included in the accounts for 1869-70.

6. The value of stores purchased in India in 1870-71 fell short of that purchased in 1869-70 by Rs. 11,476-11-11.

7. The last notice with satisfaction is a decrease of Rs. 7,298-11-11 in the value of the stores issued in 1870-71 as compared with the year preceding, notwithstanding the addition during the year of four offices to the number previously supplied.

8. The question of charging local funds with a percentage of the cost of Stationery

that they supplied to Depart-
ments having the management
of these pens cannot be dis-
posed of with the least of im-
partiality to the reference
made to them on the subject.

9. The attention of the
Secretary of State for India
will be drawn to the remarks
of the Superintendent of Sta-
tionery relative to the wrap-
pers put over the Black lead
pencil last received from
England being saturated with
Turpentine or some oily sub-
stance, and the joints of the
wood having thereby become
loosened; to the Quills sup-
plied being of inferior quality;
and to the desirableness of the
steel pens supplied being in
the proportions specified in
paragraph 7 of the Sept^r
letter.

The

10. The attention of
the Secretary of State will be re-
quested to the inferior qual-
ity of the machinery &c
paper in the Despatch to
his address dated the 30th Nov.
1870 N. 37.

11. A. Sample of the
paper procured direct from
the manufacturers in India
has been sent to the Secy
of State with the Despatch of
the 23rd ultimo N. 15, and his
attention ^{will now} be requested to the
suggestions contained in para-
graph 7 of the letter from the
Inspector General of Ordnance
and magazines. —

12. The attention of
the Board of Revenue and
Heads of Departments will
be called to the remarks in
clauses 2 and 3 of section VII
General

Quarto Students of the Report
of the Superintendent of Stationery
13. The Superintendent General
of Ordnance and Magazines
and the Superintendent of Sta-
tionery will be informed that
the Administration Report
of the Stationery Dept should
be submitted unanimously, when
making out the working of the
Dept, and that any receive-
mentations on behalf of
Subordinate employees in
the Dept should be sub-
mitted separately for the
order of Government.
