Madras 11th Decr 1827

To
The Hon^{ble} Mr. Col. C. B.
Chief Secretary to Government.

Sir,

I have the honor to inform you that I have received from Col. Applegath three small consignments of specimens from the Boreigns at Juggiapett and I consider that they are becoming of a more favorable character as the borings are carried to greater depths.

2.

I have requested the Secretary to the Board of Revenue to forward to you my reply to Col. Applegath along with some drawings & engravings of fossil plants which accompany coal in Bengal, England and Scotland. I heard last night from Col. Applegath of the arrival of a box of specimens of the minerals, fossils, metals & strata which accompany coal in England Scotland Bengal & the Godavery which I lately dispatched to Juggiapett and the strata already received in Col. Applegath's consignments to me of the 19th Nov^r 25th Nov^r & 10th Decem^r bear a striking resemblance to some of those from the Nagmahal & Godavery coal fields. The fossil impressions of plants received in the last consignment also bear considerable resemblance to some of those in the accompanying drawings particularly the *Palmocaria Bengalensis* & the *Cycadites*

Plajuma haleensis.

3. I think it my duty to bring these matters to the notice of the Board of Revenue for record & to keep Government informed of what we are doing - as Col Applegath appears to be a zealous & persevering officer.

4. I would also respectfully suggest to Government that it would be well if possible to keep Col Applegath and theappers who are employed in boring under his direction, for a longer period for this work, and if they could afterward be sent to bore under the sandstones and shales at Palnad and Datchapilly, further up the Nistrah, I think there is every probability of thicker seams of coal being found in these localities as I have received very promising mineral, metallurgical & other indications of coal from J. Roswell Esq the collector of the District.

5. I shall be much obliged if you will kindly order the accompanying drawings, answers to questions, & letters to be forwarded to Col Applegath as soon as possible.

I have the honor to be
Yours most obedt servt

Wm. S. S. S. S.

To, The Secretary
 Board of Revenue
 Sir,
 I have the honor to request you will
 do me the favor to submit the accompanying
 letter to Sir C. Colclough & Applegath with
 the answers to his questions and the draw-
 ings of Bengal Coal plants to the Honorable
 R. S. Ellis Chief Secretary to Government
 along with my letter, as I consider that the
 samples which Col. & Applegath has for-
 warded from the Borings at Juggiahatt are
 of a favorable kind, and some of the strata
 and fossils are very like those from the
 Rajmahal, Chunda and Dummagoodum
 Coal fields which lately sent to Col.
 Applegath and which I hear by a
 letter received last night had just
 arrived at Juggiahatt.

2. I think it is well that Government
 should be kept informed of what
 Col

Col. Applegate is finding, and as soon as
larger samples of the fossils are received
I will submit them to government.
