19th June 1871.

Read the following papers :—

No. 165. From the Acting President of the Municipal Commissions in Ganjam, to the Chief Secretary to Government, Fort St. George, dated Chicacole, 10th May 1871, No. 499.

With reference to the Government Proceedings, dated the 31st March last, No. 436, I have the honour to forward, herewith, the estimates of receipts and disbursements of the Berhampore and Chicacole Municipalities for eleven months of the current official year, prepared in reference to the instructions contained in the Government Proceedings under reply, and to the provisions of the Towns' Improvement Act III. of 1871. Certain alterations have been made in the estimates of the Berhampore Municipality, but they have been made after consultation with, and with the concurrence of, Mr. Walter, the Vice-President.

2. *Berhampore.*—The estimate includes all the sums to be paid to, and by, the Municipality on account of 1870-71, so as to enable the Commissioners to carry out the final adjustment, during the current official year, of all the items of that year.

3. The estimate of receipts from tolls has been framed on the basis of the existing rates as directed.

4. In the statement of charges on account of dispensaries appended to the Proceedings under reply, Rupees 1,112 are stated to be the cost hitherto charged to the Imperial Funds; of this 300 Rupees are to be paid by the Municipality. The Vice-President, under the impression that the whole expense of the dispensaries was to be borne by the Municipality without any contribution from Government, and calculating that the average expense of the last five years for the pay of the medical subordinates and cost of medical stores amounted to Rupees 2,500, entered the whole amount except the interest of Rupees 2,000 of Government promissory notes belonging to the Civil Dispensary. To meet this charge, and the sum provided for education, he proposed to raise the house-tax to the maximum of $7\frac{1}{2}$ per cent. It is clear, however, that the Government only intended that the Municipality should pay Rupees 300, themselves sanctioning a grant for the remaining amount. Mr. Walter, however, says, with great truth, that the voluntary subscriptions which now reach some Rupees 1,300 a year will in all probability cease, for people will be unwilling to subscribe to an object for which they are taxed. Nine-tenths of the subscriptions are paid by the small European official community, and, when they understand that the local increasing taxes they are called upon to pay are in part to meet the expenses of a dispensary which does not much benefit them, they will naturally cease to subscribe. The expense, therefore, which the Government will have to meet, will be about Rupees 2,000 a year. Mr. Walter

further said that he thought the estimate for the schools too high, and he proposes to cut it down to Rupees 717-12-0 for the eleven months. In this I agree with him; the estimate is Rupees 183 now paid by the State to the primary school, and Rupees 60 to be paid to each of the masters of ten pyal schools. This reduction from the original estimate will obviate the necessity, which had reluctantly been suggested, of raising the house-tax to the maximum of $7\frac{1}{2}$ per cent. Four per cent. is the present tax, and it might well be raised to five per cent., which is the amount I have entered in my revised estimate.

5. A sum of Rupees 330 has been provided on account of fees for registering births and deaths, as the Commissioners propose to pay Registrars at 10 Rupees for every seventy-five entries, and to employ the Divisional Inspectors in testing the Registrar's work, by visiting a certain number of houses in which a death or birth may have been reported, to guard against fictitious entries. The present registration is manifestly worthless, probably not more than a quarter of the births being registered; it is to be hoped, however, that the new registrars will give more valuable information.

6. Provision for the pay of a Vaccinator, who is already maintained by the Municipality, has been duly made. The Commissioners are of opinion that he should be under the supervision of a Local Fund Circle Superintendent, and strongly advocate that his pay should be dependent upon results instead of being fixed as at present, but I differ from them in this respect, as I consider it utterly impracticable, owing to the difficulty of ascertaining the exact amount of work performed by him and of guarding against fictitious entries. I would, however, though giving him a fixed salary, make it incumbent upon him, at every meeting of the Commissioners or whenever called upon, to show or point out some at least of those on whom he has operated.

7. A copy of the bye-laws now in force distinguishing those which have been found practically most useful, as well as a statement showing the number of persons prosecuted and convicted under each bye-law in 1870-71, will shortly be submitted.

8. A list of persons to be appointed Commissioners, and a statement of the taxes which the Commissioners propose to levy, are herewith submitted for publication, and I beg to recommend that the Senior Assistant Collector for the time being may be appointed as Vice-President.

9. Mr. Walter has for some time acted Vice-President, and has by his assiduity and intelligent management been the main cause of the satisfactory working of the Municipality. He is naturally desirous, if another can be found to undertake the duty, of resigning his post; and I accordingly propose the Senior Assistant Collector for the time being as Vice-President. The Government, however, might, in supplanting Mr. Walter, remark upon the effectual way in which he has performed this work and strengthened the hands of the authorities, while always duly recognising local requirements.

10. There seems to be no objection to the alteration of the boundaries being made in the manner suggested in the Vice-President's letter, although the fact of

the house occupied by the Senior Assistant being outside the limits will not, under the new Act, prevent his sitting as Commissioner—in fact he will sit necessarily wherever his residence be. The newly-proposed limit encloses part of the road from Aska to Gopaulpore, but it is not proposed to make any alteration with regard to the levy of tolls upon it, which is now free in accordance with the orders of Government, No. 373, dated 23rd March 1869.

11. *Chicacole*.—Provision for all sums to be paid to, and by, the Municipality on account of 1870-71 has been duly made in the estimates.

12. Receipts from tolls have been estimated on the basis of the existing rates. I have, however, since ascertained that the tolls when put up to auction only realized Rupees 4,960, which is Rupees 540 below their estimate; it will accordingly be necessary to curtail their proposed expenditure.

13. Rupees 300 have been provided to meet the expenses of the Civil Dispensary, and not Rupees 400 as entered by the Commissioners.

14. A sum of Rupees 1,200 has been entered in the estimate for education, the Commissioners having been given to understand that payments to the extent of Rupees 642 were made to the teachers of the pyal schools in the town under the system of payment by results. There is no Grant-in-aid School within the limits of the Municipality, though there is an Anglo-Vernacular School maintained by the State. I have, however, in consultation with the Commissioners, reduced the amount to Rupees 1,000.

15. The Commissioners propose to appoint their Office Manager registrar of births and deaths, employing their Divisional Inspectors in assisting him in the way of gathering the necessary information in their respective divisions and to strengthen their Office Establishment by an additional hand at a cost of Rupees 180 to meet the extra work; but I should consider it preferable to employ a special Registrar and to remunerate him by payment on results as proposed by the Commissioners of Berhampore. However, there can be no objection to the plan of the Commissioners being tried.

16. Provision for the pay of a Vaccinator has been duly made. The Commissioners do not consider it desirable to subject the Vaccinator to the supervision of the Superintendent of the neighbouring Local Fund Circle as there is a Government Medical Officer stationed at Chicacole who is willing to supervise him, and I have nothing to say against the plan.

17. A copy of the bye-laws in force, distinguishing those which have been found practically most useful, as well as the statement showing the number of persons prosecuted and convicted under them during the year 1870-71, accompany this.

18. A list of persons to be appointed Commissioners, and a statement of taxes which the Commissioners propose to levy, are herewith submitted for publication. I beg to recommend that the Principal Assistant Collector and Magistrate for the time being may be appointed Vice-President.

Proceedings of the Madras Government, Public Department,
19th June 1871.

No. 166. From the Acting President of the Municipal Commissions in Ganjam, to the Acting Chief Secretary to Government, Fort St. George, dated Chetterpore, 3rd June 1871, No. 628.

Adverting to Proceedings of Government, Public Department, dated 9th May 1871, No. 609, calling upon all Presidents of Municipal Commissions to report whether the majority of the Commissioners of any of the municipal towns in their districts desire the authorization of Government for the election by the Commissioners of their Vice-President, I have the honour to state, in reply, that the Commissioners of the Municipality of Berhampore have decided that their Vice-President should be appointed by Government, and those of the Chicacole Municipality do not at present desire to be vested with authority to elect their Vice-President under Section 10 of Act III. of 1871.

No. 167. ORDER THEREON, 19th June 1871, No. 880.

With the foregoing letter, the President of the Municipal Commissions in Ganjam submits the estimates of receipts and disbursements, in 1871-72, for the Municipalities of Chicacole and Berhampore.

2. The *Chicacole* receipts are shown in the margin. They amount, including an adjustment of State contribution but without any balance, to Rupees 8,856. The estimated receipts from house-tax and cart registration are the same as in the budget of 1870-71, while the tax on carriages is expected to produce Rupees 200 more. The full annual demand of house-tax being Rupees 1,971 it appears, however, that due deduction has been made by the Commissioners on account of the year having eleven months only.

	1,853	
Total...	8,856	

3. The proposed expenditure is unobjectionable. The Commissioners propose to erect a market at a cost of Rupees 500. They already derive revenue from an existing market, and the necessity for another one should have been explained. As the Commissioners desire it, and as the President does not seem to consider the allotment to require remark, the Government pass it. The estimate does not provide for the census. This charge will be a small one, and must be met by savings or reduction of allotments.

Proceedings of the Madras Government, Public Department,
19th June 1871.

4. The estimates of receipts and expenditure are approved.

5. *Berhampore*.—In Berhampore the Commissioners expect to realize Rupees 14,778, of which Rupees 12,740 are the proceeds of current taxation. They anticipate that they will receive from Government a sum of Rupees 1,918. The percentage rate of house-tax is to be raised from four to five per cent. which is approved.

6. The Government have again to call the attention of the President to the

necessity of detail in the estimate of expenditure; the way in which the two large allotments, each of Rupees 2,600, for roads and drains are to be spent should have been given. With regard to the provision for the Dispensary, the Government observe that the balance of the sum, Rupees 1,192, which the institution has hitherto cost to Government, will be paid from local funds (G. O., 17th April 1871, No. 491). The Dispensary will probably be transferred to the Commissioners under the provisions of the Act, and they will then have to bear such charges in addition to the sum now provided as cannot be met from the local contributions and the contribution of the Local Fund Board. The Government trust that the local contributions will not cease, and they anticipate that the sum provided by the Commissioners will suffice for this year. The allotment for education will also probably be ample.

7. The Government consider that the principle of payment by results is not at all applicable to the collection of statistical information. The Registrars of births and deaths should be put on fixed salaries, and, if sufficient precautions are taken by means of independent reports by police and village officers, publication of the provisions of the law, the enforcement of its penalties in a few cases, and perhaps the offer of small rewards for the detection of unregistered cases, to be paid from the Registrar's salary, the risk of non-entry might be reduced to a greater extent than would be possible as regards the risk of fictitious entry under the system of payment by results. That system has, however, been successfully applied in the case of municipal vaccination, and is recommended by the Sanitary Commissioner.

8. The Berhampore estimates are passed. The Government do not think that the necessity of a revision of the boundaries has been made out. A map showing the present and proposed limits should be submitted.

9. The Government observe that, in the lists of proposed Commissioners for both towns, the official Members, including the Collector and the Divisional Revenue

Proceedings of the Madras Government, Public Department,
19th June 1871.

officers, who are ex-officio Commissioners, are in excess. Accordingly the names of the Tahsildar in the Berhampore list and of the Sub-Division Sheristadar in that for Chicacole will be struck out. The Government regret that Surgeon-Major Walter proposes to resign the office of Vice-President of Berhampore. With reference to the President's letter, No. 628, dated 3rd June 1871, the persons recommended by him will be appointed Vice-Presidents. The usual notifications regarding the taxes will be published. The bye-laws and the question of the supervision of municipal vaccination will be separately disposed of.

NOTIFICATION.

Under the provisions of Sections 10 and 7, Act III. of 1871 (the Towns' Improvement Act), the Governor in Council hereby appoints the under-mentioned persons to be Vice-President and Town Commissioners for carrying out in the Town of Chicacole, in the Ganjam District, the purposes of the said Act.—

The Principal Assistant Collector, Vice-President.
Honorary Assistant-Surgeon D. Gillespie.
Mr. J. J. Thompson.

Nidamarti Esmarappa Pantulu.
Cantarow Pantulu.
Nabhy Hoosein Sahib.
Gudivada Suryanarayana.

Under the provisions of Section 38, Act III. of 1871 (the Towns' Improvement Act), the Governor in Council authorizes the Municipal Commissioners for the Town of Chicacole, in the Ganjam District, to levy during the year beginning 1st May 1871 and ending 31st March 1872—

A rate on houses and buildings, according to the annual value thereof.
Tolls on carriages, carts, and animals entering the municipal limits.
Taxes on carriages, horses, and other animals as described in Schedule C to the above Act annexed.
Fees on the registration of carts.

NOTIFICATION.

Under the provisions of Sections 10 and 7, Act III. of 1871 (the Towns' Improvement Act), the Governor in Council hereby appoints the under-mentioned persons to be Vice-President and Town Commissioners for carrying out in the Town of Berhampore, in the Ganjam District, the purposes of the said Act.—

24/6
1871

alterations have been made in the estimates of the Berhampore Municipality: but they have been made after consultation with, and with the concurrence of, Mr. Walter the Vice President.

Berhampore. } 2. The estimate includes all the sums to be paid to and by the Municipality on account of 1870-71 so as to enable the Commissioners to carry out the final adjustment during the Current Official year of all the items of that year.

3. The estimate of receipts from tolls has been framed on the basis of the existing rates as directed.

4. In the statement of charges on account

15
account of dispensaries appended to the Proceedings under reply No. 1112 are stated to be the cost hitherto charged to the ^{Imperial} ~~Municipal~~ Funds: of this sum are to be paid by the Municipality. The Vice President under the impression that the whole expense of the dispensaries was to be borne by the Municipality without any contribution from Government, and calculating that the average expense of the last 5 years for the pay of the medical subordinates, and cost of medical stores amounted to Rs 2,500, entered the whole amount except the interest ^{of Rs 2,500} of Government promissory notes belonging to the Civil Dispensary. To meet this charge and the

the sum provided for education he proposed to raise the house tax to the maximum of $7\frac{1}{2}$ per cent. It is clear however that the Government only intended that the Municipality should pay Rs 300, themselves sanctioning a grant for the remaining amount. Mr. Walter however says with great truth that the voluntary subscriptions which now reach some Rs 1300 a year will in all probability cease, for people will be unwilling to subscribe to an object for which they are taxed. Nine tenths of the subscriptions are paid by the small European official community; and when they understand that the local increasing taxes they are called upon to pay are imposts

to

17.

to meet the expenses of a dispensary which does not much benefit them, they will naturally cease to subscribe. The expense therefore which the Government will have to meet will be about Rs 2,000 a year. Mr. Walter further said that he thought the Estimate for the schools too high, and he proposes to cut it down to Rs 717-12- for the eleven months. In this I agree with him; the Estimate is Rs 183 now paid by the State to the Primary School, Rs 60 to be paid to each of the masters of 10 pyal Schools. This reduction from the original Estimate will obviate the necessity, which had reluctantly been suggested of raising the house tax to the maximum of $7\frac{1}{2}$ per

per

per cent. Four per cent is the present
tax, and it might well be raised to
5 per cent which is the amount I have
entered in my revised Estimate.

5. A sum of Rs 330 has been pro-
vided on account of fees for registering
births and deaths as the Commissioners
propose to pay Registrars at 10 Rs for
every 75 entries and to employ the Di-
visional Inspectors in testing the Re-
gistrars work by visiting a certain num-
ber of houses in which a death or
birth may have been reported, to guard
against fictitious entries. The present
registration is manifestly worthless,
probably not more than a quarter of
the births being registered; it is to be
hoped

This is not a fictitious entry
which is to be guarded against
as much as non entry.

19
hoped however that the new registrars
will give more valuable information.

b. Provision for the pay of a Vac-
-cinator who is already maintained by
the Municipality has been duly made.
The Commissioners are of opinion that
he should be under the supervision
of a local fund Circle Superintendent
and strongly advocate that his pay should
be dependent upon results instead of
being fixed as at present, but I differ
from them in this respect as I consider
it utterly impracticable, owing to the
difficulty of ascertaining the exact
amount of work performed by him and
of guarding against fictitious entries.
I would however though giving him

a fixed salary make it incumbent upon him at every meeting of the Commissioners or whenever called upon to show or point, some at least of those on whom he has operated.

7. A copy of the bye laws now in force distinguishing those which have been found practically most useful as well as a statement shewing the number of persons prosecuted and convicted under each bye law in 1870-71 will shortly be submitted.

8. A list of persons to be appointed Commissioners and a statement of the taxes which the Commissioners propose to levy are herewith submitted for publication and I beg to recommend that the
Senior

21
Senior Assistant Collector for the time being may be appointed as Vice President.
9. Mr. Walter has for some time acted Vice President and has by his assiduity and intelligent management been the main cause of the satisfactory working of the Municipality. He is naturally desirous, if another can be found to undertake the duty, of resigning his post: and I accordingly propose the Senior Assistant Collector for the time being, as Vice President. The Government however might in supplanting Mr. Walter remark upon the effectual way in which he has performed this work and strengthened the hands of the authorities, while always duly recognizing local requirements.

There

10. There seems to be no objection to the alteration of the boundaries being made in the manner suggested in the Vice President's letter, although the fact of the house occupied by the Senior Assistant being outside the limits will not under the new Act prevent his sitting as Commissioner, in fact he will sit necessarily wherever his residence be. The newly proposed limit encloses part of the road from Akha to Copaulpore but it is not proposed to make any alteration with regard to the levy of tolls upon it, which is now free in accordance with the orders of Government No. 373 dated 23rd March/53.

23

Chicacole. } 11. Provision for all dues to be paid to and by the municipality on account of 1870-71 has been duly made in the Estimates.

12. Receipts from tolls have been estimated on the basis of the existing rates. I have however since ascertained that the tolls when put up to auction only realized Rs. 4,960 which is Rs. 540 below their Estimate it will accordingly be necessary to curtail their proposed expenditure.

13. Rs. 300 have been provided to meet the expenses of the Civil Dispensary and not Rs. 400 as entered by the Commissioners.

14. A sum of Rs 1200 has been entered in the estimate for education the Commissioners having been given to understand that the amount of Rs 642 were made to the teachers of the Oyal Schools in the town under the system of Payment by results. There is no grant in aid school within the limits of the Municipality though there is an Anglo Vernacular School maintained by the state. I have however in consultation with the Commissioners reduced the amount to Rs 1000.

15. The Commissioners propose to appoint their Office Manager Registrar of births and deaths employing their divisional inspectors in assisting

25
assisting him in the way of gathering the necessary information in their respective divisions and to strengthen the office establishment by an addition on hand at a cost of Rs 180 to meet the extra work: but I should consider it preferable to employ a special Registrar and to remunerate him by payment on results as proposed by the Commissioners of Berhampore. However there can be no objection to the plan of the Commissioners being tried.

16. Provision for the pay of a Vaccinator has been duly made. The Commissioners do not consider it desirable to subject the Vaccinator to the supervision of

of the Superintendent of the neighbour-
ing local Fund Circle as there is a Gov-
ernment Medical Officer stationed
at Chiencole who is willing to supervise
him, and I have nothing to say against
the plan.

17. A copy of the bye laws in force
distinguishing those which have been
found practically most useful as
well as the statement shewing the num-
ber of persons prosecuted and convicted
under them during the year 1870-71 ac-
cords thereto.

18. A list of persons to be appoint-
ed Commissioners and a statement of
taxes which the Commissioners propose
to levy are herewith submitted for
publication.

27
publication. I beg to recommend
that the Principal Assistant Collector
and Magistrate for the time being may
be appointed Vice President.

To

The Resident

Canton Municipalities

- Chetterspore.

Sir,

Referring to C. O. N^o 436

of the 31st ultimo, and your endorsement

thereon N^o 393 of the 11th instant, the

Commissioners of the Municipality of

Chicacole have the honor to submit

the accompanying Estimates of Receipts

and disbursements for the eleven months

ensuing.

2. The amount yet to be paid to the

Para 3 of C. O. Police by the Municipality is Rs 233, be-

-ing the salaries for the current month,

which will be disbursed in the month of

May. The Government contribution still

due

Enclosed in a letter from

the Acting Resident, Municipalities

for the Canton, Canton District,

to the Chief Secretary to Govt.

- Government, with a copy of the

dated Canton, Canton District

10th May 1871, C. O. 439.

List of Commissioners &

be appointed for the Canton

- Canton Municipalities

Statement of Receipts &

- Receipts & Disbursements.

due to the Municipality will amount to Rs 46, the particulars of which will be submitted in the usual course at the end of this month. These sums have been entered under disbursements and Receipts respectively. Copy of C. O. No. 1033 dated 16th August 1870, referred to in para 3 C. O. has not yet been furnished to this Municipality.

3. As ordered in para 4 of C. O., the Para 4 C. O. Estimate of receipts from tolls has been framed on the basis of the existing rates. With reference to the para in question, the Commissioners have only to remind you that in this Municipality the item of tolls is the most important source of income, and without it, it would not be practicable to

to meet the numerous charges imposed on the Municipality. 43

4. A sum of Rs 100 has been put down over and above the Rs 300 fixed by Government for the general expenses of the Dispensary.

5. Rs 1200 have been allotted for primary Education. The Commissioners have no proper data upon which they could make their Estimate. On this subject they are given to understand that last year payments to the extent of Rs 800 were made to several teachers of the pial schools in this town under the "Payment by results" system, and that should the same system be followed this year, a larger amount would be required,

a in consequence of the higher attainments
of the pupils. - This the Commissioners
have taken as a rough guide in their
estimation. As to the advisability or
otherwise of continuing this system or
of introducing some other system in
lieu of it, the Commissioners are not
at present prepared to offer any re-
marks - and how the above mentioned
sum of Rs 1200 will be disposed of
will have to be determined upon after
the receipt of the instructions about
to be issued by Government as stated
in para 7 of the G. O.:-

b. No separate provision has been Para 8. G. O.
made for the registration of Births and
Deaths. The Commissioners propose in
appointing

appointing their Office Manager Re-
gistrar of Births and Deaths for the
whole town. - They do not deem it ne-
cessary to divide the town into divisions
for this purpose. The town has already
been divided for the purposes of con-
servancy into 3 divisions, each of
which has its Inspector. These In-
spectors can be advantageously employed
in assisting the Registrar in gathering
the necessary information in their res-
pective divisions. - The tabulation of
these statistics, however, as well as the
several other details which will here-
after devolve on the Municipality
will, of course increase the amount of
work in the office. - The Commissioners
have

have therefore thought it proper to provide an addition of Rs 180 to the existing charge for establishment, with a view to employing an additional hand in the office work.

7. With reference to para 7 of C. O. the Commissioners do not think it desirable, so far as this town concerned, that the Municipal Vaccinator should be made subject to the same supervision as those employed in the neighbouring Local Fund Circles. There is always a Government Medical Officer stationed at Chicacole who is and will continue to be one of the Commissioners and who can effectually superintend the operations

at

of the Municipal Vaccinator. No other supervision is necessary. 47

Para 10 C. O. 8. As called for in para 10 of C. O., a copy of the Bye laws of this Municipality is herewith submitted, together with a statement showing the number of persons prosecuted and convicted under them in 1870-71. It will be seen that the only Bye laws used were 1st, 2nd, 18th and 20th.

Para 10 C. O. 9. The list of Commissioners to be appointed and the Statement of taxes proposed to be levied have already been sent you with the Vice President's letter No 36 dated 21st March 1871.

1

J. C. Carr Esquire
Acting President Municipalities
Gangnam District
Burhampton

Sir

I have the honor to
forward an Estimate of Receipts and
Disbursements framed with reference
to the provisions of the Town's Improvement
Act III of 1871.

The Estimated Sum
standing to the Credit of the Municipality
after payment of all outstanding debts at
the close of the present year is Rs 2,965
the whole of which Sum, together with the
Government Contribution for the
last quarter of the present year, estimated

Enclosed in a letter from
the Acting President, Municipalities,
Gangnam District,
to the Chief Secretary to the
Government, dated 18th March 1871,
dated 18th March 1871, at Rs 499.

Estimate of Receipts and
Disbursements 8th of the
Burhampton Municipality
City, prepared in the
presence of Mr A, B, and C.

at Rs. 2347, will be required for the
extensive works in the hands of the
Contractors now in progress.

Of the three items
the Charge of which is now newly imposed
upon the Municipality, it will be
necessary to observe

1st On account of medical attendance
and medicine in Dispensaries;

appended Statement to the Proceedings
of Madras Government, dated 31st March
1871 No 436, shows a Sum of Rs 300 to
be paid by Berhampore for this purpose,
but the Actual Estimated Cost for these
two items alone is shown to be Rs. 1192
and these constitute only about a third
of the whole working expenses of the
Institution.

The average annual
cost

59
Cost of which for the last five years, including
the Medical Subordinate's pay and European
medicine, has been Rs 2500, this sum
minus Rs 80, the interest on 2000 Capital
belonging to the Dispensary, which is
interested in Government 4 percents is
- the sum shown as that which will
probably be required for the ensuing year;
for in all probability Subscriptions to
the Charity will now cease: no doubt a
large proportion of this amount ought
to be paid as a Contribution from the
funds of adjoining Local Circles, which
derive equal advantages from the benefits
of the Hospital, but having no means
of ascertaining what may be the amount
derivable from this source, the Estimate
is given as above.

II. Charge in Connection with Schools.

The Commissioners are of opinion that owing to the large demands now made upon their Funds, they will be unable to appropriate more than Rs 1083 to this purpose; thus Rs 183 the present Government Contribution to the Grant-in-aid School, and Rs 5 per mensem in addition to fees received from boys, to 15 selected Ryal School masters. This Charge will have to be met by raising the present rate of houses from $\frac{1}{4}$ per Cent to $7\frac{1}{2}$ the maximum sanctioned by the new Act. No enhancement of which higher rate would be expedient.

III. Registration of Births and Deaths.

As the population of
the

the town is probably about 25000 souls⁶⁵ and estimating roughly, a death and birth rate, of about 5 per Cent each, the entries in the two registrations will be about 2500 annually; two Registrars ought to suffice.

It appears to the Commissioners that the only way to secure anything approaching exactitude in this work, and stimulate the men to diligence in seeking out all cases, will be to pay them by number, say at the rate of ten rupees for every 75 entries, by which they should each earn about 15 rupees a month. It will of course be necessary to guard against fictitious entries, and this they propose to do by making the General Division Inspectors visit

a certain percentage of the houses in which a death or birth may have been reported; and so test the accuracy of each man's work before he is paid. These men should be able to write English, as there will, no doubt, be constant calls for transcripts from their Registers.

The Municipality already pays a vaccinator; the Commissioners are of opinion that he should be under the supervision of one of the Circle Superintendents, but they would strongly advocate payment by results, and not as at present by a fixed salary.

The By-laws, a copy of which is enclosed, no doubt require revision and amendment; but the notice given is too short to admit of the
Commissioners

63
Commissioners entering on the consideration of this large subject before the despatch of this Report.

The following is a list of the present Commissioners:

Surgeon Major G. W. Watts Civil Surgeon
Lieut. Colin Campbell 31st Regiment
Gade Palaramayya Puntulu Tahsildar
Audurty Lakshminarasimharas Puntulu
Almakuri Aridinarayana Chetty
Kota Gopinadha Choudary
Desaiyara Patarla Polayya
Vallistat Khan Sahib. left the town

The following is a list of Gentlemen eligible for the office who have consented to act as Commissioners:

Col. L. W. Buck. Commanding 31st Regt.
Mr. H. O. C. Cardozo Head of the Revenue Survey.
Mr. J. Parsons Agent to the Madras Bank Bhamptore.

The Commissioners desire to draw special attention to the present vague and ill defined limits of the Municipal boundaries, which urgently require revision to obviate probable litigation. They would at the same time notice, that the house occupied by the only resident Revenue officer is just without the present boundary: he is thereby precluded from serving on the Commission. As it is important that the Municipality should have the benefit of this officer's local experience and influence, the Commissioners are of opinion that it is highly desirable that the boundary should be extended, for the few yards which will suffice to take in this house, which stands alone, and will probably

probably be ^{by} always occupied by the Senior Assistant Magistrate. With these objects in view, I have consulted Mr. Cardozo the head of the Revenue Survey Department here; and he has given the boundaries shown below, as the likeliest to fulfil all these conditions. I may observe that they only differ from the original limits, in being more definite, and in taking the Revenue officer's house, and one near Sannary Street, about which at present, there is some doubt.

North
Starting from the junction of the Ganjam and Aska Branch Roads along the latter Road as far as the Sannary village boundary. Thence along the demarcated boundary between the 10th Khandum of Bapuram and

and the 8th and 7th Khandams
of the same village as far as the Revenue
Survey Station mark at junction of
10th and 7th Khandams on the
boundary between Papuram and
Lutchapada. Thence a straight
line to the trijunction of 3rd, 6th
and 7th Khandams of Senthapapuram.

West.

From the above Trijunction along
the Road from Aska to Ichapore
as far as its junction with Branch
Road to Pata Berhampore.

South.

From the above junction a straight
line to the Revenue Survey
Station at trijunction of Bijiipuram,
Pata Berhampore and Guranu
Nowgam. Thence along the
demarcated boundary between

the

the villages of

67

Bijiipuram & Guranu Nowgam

Bijiipuram & Lajipalli

Vaydinathapuram & Lajipalli

& Gorlandi & Lajipalli

up to trijunction of the two latter villages
and Panakalapalli.

East.

From above trijunction along demarcated
boundary between Gorlandi and
Panakalapalli as far as point of
junction of 8th and 2nd Khandams
of Gorlandi, thence along the demarcated
boundary between the 8th Khandam
of Gorlandi and the 2nd, 3rd and 7th
Khandams of the same village up to
the starting point of the northern
boundary of the Municipality at the
junction of Sanjani and Aska
Branch Roads.

A. B.

N.B. Where Roads are given as the
Boundaries, the outer edge of the Road
to be the limit.

A letter was addressed
on 14th instant to the Sub-Magistrate
asking him to furnish a Statement
showing the number of persons prose-
-cuted and Convicted under each
Bye-law but no reply has yet been
received and as this report will admit
of no further delay, it is forwarded
without this information.

PROCEEDINGS of the MADRAS GOVERNMENT.

Read the following letter from the
 Acting President Municipalities
 Ganjam District. d/10 May 1871
 N-499- 3rd June 1871 N° 625

Order thereon 19 June 1871. N° 880.

With the foregoing
 letter, the President of the
 Municipal Commissions
 in Ganjam, submits the
 estimates of receipts and dis-
 bursements in 1871-72 for the
 Municipalities of Chicacole
 and Berhampore.

House tax	1800
Leads	1960
Tax on vehicles &c.	600
Registration of Carts	250
Miscellaneous	
Markets and Shop rents	1050
Sundry	150
	1200
	8870
State Contribution	46
	8856

2. The Chicacole receipts
 are shown in the margin.
 They amount, including an
 adjustment of State contri-
 bution but without any
 balance

balance, to Paper 8856. The estimated receipts from house tax and Cart registration are the same as in the budget of 1870-71 while the tax on carriages is expected to produce ^{full usual} Paper 200 more. The demand of house tax being Paper 1971 it appears ^{however} that due deduction has been made by the Commissioners on account of the year having eleven months only.

3. The proposed expenditure is unobjectionable. The Commissioners propose to erect a market at a cost of Paper 500. They ~~Commissioners~~ already derive revenue from an existing market and the necessity for another one should have been explained. As the Commissioners desire it and as the President does

1. Public Works			
Building - New work -	050		
Repairs -	110	760	
Drains - New work -	800	800	
Road Repairs -	1595	1595	
		3155	
2. Education			
		1000	
3. Sanitation & medical services			
Conservancy -	2224		
Hospitals -	300		
Vaccination -	144		
Registration of births &c -	180		
		2848	
4. Miscellaneous			
Office &c -	1820		
Police Payment (70 s) -	240		
		1853	
		8856	

does not seem to consider the allotment to require remark, the Govt pass it. The estimate does not provide for the census. This charge will be small and must be met by savings or reduction of allotments. The estimate of receipts and expenditure is approved. 5. Berhampore. In Berhampore the Commissioners expect to realize Rs 11778 of which Rs 12740 are the proceeds of current taxation. They anticipate that they will receive from Government a sum of Rs 1918. The percentage rate of house tax is to be raised from 4 to 5 per cent which is approved. The Government have again to call the attention

attention of the President to
 the necessity of deterring the
 to the extent of expenditure the
 way in which the two large
 allotments, each of Rs 2500, for
 Rameswaram drains are to be
 spent should have been
 given. With regard to the
 provision for the dispensary
 the Government observe that
 the balance of the sum Rs
 1192 which the institution
 has hitherto cost Govt, will
 be paid ^{from} local funds.
 (L.O. 17 April 1894 St. 1491) -
 The dispensary will prob-
 ably be transferred to the
 Commissioners under the
 provisions of the Act and
 they will then have to bear
 such charges in addition
 to the sum now provided
 cannot be met from
 as the local contributions
 and the contributions of the
 local

Current	
House tax	2350
Excise on dist. &c.	2400
Tolls	5500
Excise on carriage &c.	700
Registration of carts	690
Licence fees	100
Fines	100
	<u>12700</u>
Income	
House tax	67
Excise tax	50
State contribution 1918	2038
	<u>14778-0-0</u>
1 Public Works	
Roads New work 2500

	<u>14778-0-0</u>

47
 local fund boards. The Govt.
 trust that the local contribu-
 tions will not be ~~unduly~~
 anticipate that the sum provided
 by the Commissioners will suf-
 fice for this year. The allot-
 ment for education will
 also probably be ample.
 7- The Government con-
 sider that the principle of
 payment by resolution not
 at all applicable to the collec-
 tion of statistical information.
 The registration of births & deaths
 should be put on foot and
 carried out ^{if} sufficient pro-
 vision ^{is} taken by means of
 independent reports by police
 and village officers, publica-
 tion of the provisions of
 the law, the enforcement of
 its penalties ^{and} a few more
 and perhaps the offer of
 small rewards for the detection
 of unregistered

registered cases, to be paid
 from the registrars salary,
~~the risk of~~
 might be reduced
 to a greater extent
 would be possible as
 regard the risk of fictitious
 entry under the system of
 payments by results. That
 system has, however, been
 successfully applied in the
 case of Municipal Corpora-
 tions and is recommended by
 the Sanitary Commissioners.

The Government ob-
 serve that in the lists of pro-
 posed Commissioners for both
 towns, the official members
 including the collector and the
 divisional revenue officers
 make up the official members
 and in each case accordingly
 the names of the individuals

The Govt do not think that the necessity of a
 revision of the boundaries has been
 made out. A map showing the
 present & proposed limits should
 be submitted.

in the Berhampore list and of
 the Sub division Sheristadar
 in that for Chinnah, with be
 struck out. The Government
 regret that Surgeon Major
 Walter proposes to resign
 the office of Vice President of
 Berhampore. The Government
 will be appointed to the vacant
 position regarding the
 town will be published. The
 bye laws and the question of
 the supervision of Municipal
 Corporation will be separately
 disposed of.

H.C.G.
 J.B.

With reference to the President's
 letter N^o 628 dated 3rd June 1871
 the person recommended by him
 will be appointed Vice Presi-
 dent.
