No. 171. Read the following letter from the Acting President of the Municipal Commission, Madura, to the Chief Secretary to Government, Fort St. George, dated Madura, 18th May 1871, No. 3:—

I have the honour to submit the Revised Municipal Estimate for the Town of Madura as directed in your telegram dated 11th instant.

2. The majority of the Commissioners desire to be authorized to elect their Vice-President.

No. 172. ORDER THREON, 20th June 1871, No. 833.

The estimated receipts of the Municipality of Madura for the year 1871-72 are shown in the margin. The Commissioners have failed to show arrears and current receipts separately, nor are the estimates accompanied by any explanatory statement. The Demand Collection and Balance Statement, called for by Government in G. O., 27th September 1870, No. 1226, has not yet been furnished. The President will be good enough to see that it accompanies the Annual Report now due.

2. The estimate of house-tax is less than it ought to be at eleven-twelfths of the full annual demand, but the most noticeable item in the statement of receipts is the tolls. The (twelve months') actuals of 1869-70 were only Rupees 19,910-10-10; estimate for 1870-71 Rupees 20,000; and estimate for 1871-72 (eleven months) Rupees 24,480. The President is directed to report the cause of this increase. The Commissioners must understand that Government will not permit the levy of tolls at rates higher than those of Act X. of 1865. The balance, it is observed, is about the same as was in hand at the close of 1869-70.

3. The expenditure estimated by the Commissioners amounts to Rupees 63,553-9-8. Round sums must be used in future estimates. The Government have assumed that the Overseer on Rupees 125 per mensem belongs to Public Works, and have transferred his salary and that of the maistry and coolies for road-work to Public Works Establishment. They observe that, in the estimate, all the salaries of establishment have been provided for twelve months, whereas the year will consist of eleven only. The same mistake seems to have been committed as regards conservancy establishments, though the rates of pay are not given. The Government have made the necessary corrections in the margin, and the total expenditure is thereby reduced to Rupees 60,976-9-8.

Proceedings of the Madras Government, Public Department,

20th June 1871.

4. The Commissioners propose to spend large sums, Rupees 6,000 and Rupees 5,000, on new latrines, &c., and on drains, respectively. Some details regarding these works, and especially the second, should have been given. For Education the Commissioners have provided Rupees 2,500; Rupees 4,065 have been allotted for Dispensaries inclusive of the sum of Rupees 2,000 entered under the orders of Government. On the receipt side, the Commissioners have taken credit for interest appertaining to the Lying-in Hospital, and for proceeds of sale of medicine. They have provided for the Lying-in Hospital charges, but the sale proceeds of medicine belong to the Civil Dispensary, the general charges of which are not included in Statement A. It appears to Government that the receipts in question should be struck out. The President will report their amount. The Commissioners, it appears, intend to establish additional minor dispensaries—a useful measure.

5. The estimates are passed subject to explanation regarding the tolls. The proposed Commissioners will be appointed, and, in pursuance of the Commissioners' recommendation, the Governor in Council authorizes them, under Section 10, to elect their Vice-President.

NOTIFICATION.
