Proceedings of the Madras Government, Public Department.
23rd June 1871.

Read the following papers :—

No. 208. From the President of the Municipal Commission, Cuddapah, to the Chief Secretary to Government, Fort St. George, dated Cuddapah, 29th April 1871, No. 132.

In submitting, with reference to G. O., dated 31st March last, No. 436, the Budget Estimate for the year 1871-72 of the Cuddapah Municipality, I have the honour to offer the following remarks thereon.

2. The probable receipts for the period under consideration are estimated at Rupees 19,850, including arrears and current taxes. There seems to have been since the establishment of this Municipality no balance left uncollected at the end of each year and carried to next year's account, except in the year 1870-71, which has been remarkably unfavourable for municipal operations. In the month of October, one-half of the town was inundated by the freshes in the Bugga (a stream running to the south-west of the town) and much damage was caused to house property. Moreover several fires have occurred in various parts of the town and destroyed no less than 160 houses within the last four months. In addition to these evils, cholera made its appearance at the latter end of February and committed great ravages; the general panic thereby created was such that even the bill-collectors (who are paid a percentage on their collections) could not be persuaded to go into the town to collect the taxes. The disease is still prevailing epidemically though not to the same extent.

3. Under the head of "New Works," the Commissioners have allotted Rupees 6,550. For some time a plan has been under consideration for bringing water to the town from the springs of the Bugga river, distant four miles. The importance of this scheme cannot be over-estimated, and the Native Commissioners were inclined to stint the allotments for every other object in order to make some progress with this channel. A professional survey of the ground is in process of preparation, but the Native Commissioners being themselves landowners, and knowing the locality, thought that there would be no obstacle either from the nature of the ground or from the objections of the ryots, and allotted Rupees 2,500 to defray the expenses of the survey and also of an experimental excavation at the springs to ascertain what volume of water may be obtained in the dry season. For new roads, Rupees 2,000 have been allotted. This includes compensation for lands taken up. Rupees 1,250 have been allotted for the erection of four new latrines on the Coimbatore model without roofing. The remaining sum of Rupees 800 will, it is estimated, cover the balance to be paid for the slaughter-house now under construction.

4. A sum of Rupees 3,569 has been set apart for repairs, of which Rupees 819 were estimated for repairing twelve latrines. Rupees 2,250 have been apportioned for repairing fifteen miles of road at Rupees 150 per mile. Rupees 1,000 have been allotted for re-constructing the two large wells that have been seriously damaged by the late freshes.

5. A sum of Rupees 1,600 has been allotted on account of medical attendance and medicines for the Cuddapah Dispensary, agreeably to the statement appended to the Proceedings of Government under reply. No provision is made for the

*Proceedings of the Madras Government, Public Department,

general expenses, as the institution is a self-supporting one, being maintained from the interest of a funded capital in Government paper.

6. For the present, the Commissioners have resolved to establish three schools for primary education at an annual expense of Rupees 600, in anticipation of Government orders on the subject being issued to the Director of Public Instruction.

7. Charges for the registration of births and deaths are estimated at Rupees 250 as follow :—

	RS.
One Goomastah, on Rupees 10 per mensem, for 11 months ...	110
Two Peons, at Rupees 6 each per mensem, for 11 months ...	132
Contingency ...	8
Total ...	250

The Goomastah or person appointed as Registrar will be located in the centre of the town with a signboard before his house. The public will be requested to report all births and deaths to him according to the forms which may be prescribed by the Governor in Council and published in the Fort St. George and District Gazettes. The two peons will have to go round the portions of the town assigned to them, inspect all burning and burial grounds in their respective divisions, and collect and furnish to the Registrar information connected with births and deaths. The Registrar will submit a daily return (according to the given form) to the Municipal Commissioners' Office of all births and deaths in the town, and these will be entered in the Register Book kept at the office.

8. With reference to vaccination, I have to observe that this Municipality has employed a Vaccinator on Rupees 10 per mensem from the commencement, and the Commissioners deem it advisable that he should work independently.

9. The other headings in the budget need no comment.

10. Copy of the bye-laws in force in this Municipality, together with a statement showing the number of persons prosecuted and convicted under each bye-law in 1870-71, is herein enclosed. Those bye-laws which, in the opinion of the Commissioners, it is desirable to retain are noted accordingly.

11. I also enclose a draft Notification containing the names of the persons to be appointed as Commissioners, and statement of the taxes which the Commissioners propose to levy during the year commencing on the 1st May 1871 and ending on the 31st March 1872.

12. In conclusion, I beg to recommend M. Iyasawmy Pillay, Acting Zillah Surgeon, be appointed as Vice-President.

No. 209. From the President of the Municipal Commission, Cuddapah, to the Acting Chief Secretary Government, Fort St. George, dated Madanapally, 24th May 1871, No. 21.

In reply to Government Order, 9th May 1871, No. 609, I have the honour to state that the question therein referred to having been put to the Commissioners present in Cuddapah, six have recorded their opinion in favour of the election of the

Vice-President by the Commissioners, while two prefer his appointment being made by Government.

No. 210. ORDER THEREON, 23rd June 1871, No. 911.

The estimated receipts of the Municipality of Cuddapah for 1871-72 amount to Rupees 19,850 as shown in the margin,

Rupees 16,950 being derived from current taxation. There was no balance in hand at the end of April, nor do the Commissioners expect to receive anything from Government on account of State contribution in arrears.

2. The Government readily pass the allotment of Rupees 2,500 for preliminary expenses in connexion with the water-supply project. Works of this class seem to be especially appreciated by the native population of towns; but, as an allotment for preliminary expenses, the sum is a large one, and indicates a project of considerable magnitude, and one possibly beyond the resources of the Commissioners, who should, therefore, proceed with caution. The Officers of the Public Works Department will be instructed to give the Commissioners all the aid in their power.

3. The allotment for education appears to be intended for the establishment of new schools, but it is probable that there are lower-class schools in the town already aided on the results' system, and the grants will, in future, be chargeable on municipal revenues. On economical grounds and for other reasons, it is advisable that the Commissioners should rather endeavour to improve existing schools than hastily to establish new ones. The experience and advice of the educational officers of Government are at the Commissioners' disposal, and should be taken advantage of.

4. The estimates are approved and sanctioned. The proposed Commissioners will be gazetted. From the President's letter, No. 21, dated 24th May 1871, it appears that a majority of the Commissioners desire to elect their Vice-President, and they are, therefore, authorized accordingly under Section 10 of the Act. The bye-laws will be separately disposed of.

receipts of the Municipal
ty of Cuddapah for 1870-2
amount to Rs 19,850, as
shown in the margin.
Rs 16,950 being derived
from current taxation.
There was no balance
in hand at the end of
April, nor do the Commis
sioners expect to receive
anything from Govern
ment

ment on account of State
Contribution in arrears.

2. The Government
readily pass the allotment
of Rs 2,500 for preliminary
expenses in connection

with the water supply
project. Works of this
class seem to be espe-
cially appreciated by
the native population of
towns; but as an allot-
ment for preliminary
expenses, the sum is a
large one and indicates
a project of considerable
magnitude, possibly be-
yond the resources of
the Commissioners, who
should, therefore, proceed
with caution. The Officer

structed to give the Com-
missioners all the aid
in their powers

3. The allotment
for Education appears
to be intended for the
establishment of new
schools; but it is proba-
ble that there are lower
class schools in the town
already aided on the re-
sults system and the
grants will in future be
chargeable on Munici-

other reasons, it is ad-
visable that the Com-

endeavour

intend to improve the existing schools than have

to establish new ones.

school. The experience and advice of the educational officers of Government are at the Com-

missioners' disposal and should be taken advantage of.

The estimates are approved and sanctioned.

The proposed Commission will be gazetted.

~~but the appointment of~~
~~Commissioners is deferred.~~

The bye laws will be separately disposed of.

I would wish that the Government should have a more complete knowledge of the existing state of the schools and the work done in them.
