*Proceedings of the Madras Government, Public Department,  
26th June 1871.*

No. 218. Read the following letter from the President of the Municipal Commission, Mangalore, to the Under Secretary to Government, Fort St. George, dated Mangalore, 20th April 1871, No. 78:—

With reference to the Proceedings of Government, dated 31st ultimo, No. 486, I have the honour to forward estimates of the receipts and disbursements of the Mangalore Municipality for the eleven months ending 31st March 1872, prepared with reference to the new Towns' Improvement Act No. III. of 1871 and to the instructions received from Government on the subject.

2. In estimates provision has been made for carrying out the final adjustment of the Government grant. The Commissioners in dealing with this subject have been guided by the instructions of Government conveyed in their Proceedings of 16th August 1870, No. 1033, with reference to the actual amount due for the year; but they proposed to address Government on the subject separately, as it appears to them that the amount of the grant\* has been reduced owing to the collections of arrears not having been taken into account.

3. As directed in paragraph 6 of the Government Order, the Commissioners have provided the amount required to meet the cost of medical attendance and medicines in the Mangalore Dispensary, and have also allotted a considerable sum for the up-keep of the establishment. The annual expenditure provided for amounts to Rupees 1,100.

4. The Commissioners in framing the estimate for educational grants have been guided by the actual cost to Government of the grants to elementary schools paid on the result system, and have allotted an additional sum to meet any unforeseen contingencies. They have also made ample provision for any expenses required for the training of teachers for employment in elementary schools. The sum allotted is, they believe, in excess of the share, which, in conjunction with the Government and the Local Fund Board, they will have to pay for the up-keep of the Normal School at Mangalore.

5. An establishment is at present maintained for the registration of births and deaths at an annual cost of Rupees 324. This sum has been provided for in the estimates. The Mangalore Municipality consisting of six villages, the registration is entrusted to the potails, who receive a remuneration of two Rupees per mensem for the work. The returns are compiled in the Commissioners

*Proceedings of the Madras Government, Public Department,

Office, a clerk on Rupees 15 per mensem being entertained for this purpose. The Commissioners do not propose to disturb the existing arrangement.

6. One vaccinator is generally employed by the Commissioners; but, owing to the present prevalence of small-pox, the Commissioners a few months ago entertained an additional man. Provision has been made in the budget for two men, but the Commissioners trust that they will soon be able to dispense with the services of one of the men. The Commissioners are of opinion that the vaccinators should work independently of the District Superintendent of Vaccination. The Zillah Surgeon will always be a Member of the Commission, and the Commissioners consider the supervision of the municipal vaccination would be more efficiently performed by him than by an officer who would be constantly absent in the district.

7. The estimate of expenditure provides the sum of Rupees 15,000 for the construction of a market in the centre of the town, for which a site was proposed in my letter of the 26th June 1870, which has been granted to the Commissioners by Government in their Order, dated 4th January 1871, No. 6. The Executive Engineer of the Range has been requested to furnish an estimate for the work. The amount now proposed is merely a rough allotment.

8. The nine latrines, for which a provision of Rupees 1,500 was sanctioned in the budget of the current year, have not been commenced as yet, and, as there is a difficulty in procuring eligible sites, will not be completed within the present year. Sites have been selected and liberal offers to purchase have been made by the Commissioners, but have been declined by the owners. The Commissioners propose, therefore, to put Section 15 of the Act into operation. In the meanwhile, the item has been transferred to the estimates now submitted for the ensuing year. The want of public latrines is not, however, so seriously felt, as most of the houses in the town have private latrines, which are kept clean by the municipal scavengers.

9. The Commissioners originally intended to erect nine public latrines at a cost of Rupees 1,500; but, as the allotment provided would not suffice for really strong and substantial buildings being constructed, they have reduced the number to six, which, they anticipate, will be sufficient to meet the immediate requirements of the bazaar portion of the town.

10. As regards other allotments coming under the heads of "Repairs, Conservancy, and Establishment," the Commissioners have adhered to the current year's budget with slight alterations, where such were deemed necessary.

11. I beg to enclose a copy\* of the existing bye-laws of the Municipality, with a statement† showing the number of persons prosecuted and convicted under each during the year 1870-71. The bye-laws not being unnecessarily numerous, the Commissioners do not propose to reduce their number. Bye-laws Nos. 2, 3, 4, 5, 8, and 9 have been found most useful.

12. I have the honour to forward a list\* of gentlemen proposed for appointment as Commissioners, and beg to recommend that  
\* No. 5. Colonel M. T. Ffrench, 34th Regiment, Commanding Mangalore, be nominated Vice-President.

13. The taxes the Commissioners propose to levy are specified in the statement† enclosed.

No. 218-A. From the President of the Municipal Commission, Mangalore, to the Acting Chief Secretary to Government, Fort St. George, dated Mangalore, 2nd June 1871, No. 10.

With reference to the Proceedings of Government, No. 609, dated 9th ultimo, I have the honour to state, for the information of Government, that a large majority of the Commissioners are in favour of the appointment of the Vice-President being determined by election, and accordingly beg to request the authorization of His Excellency the Governor in Council for the election of a Vice-President for this Municipality.

2. A list of persons to be appointed Commissioners under the new Act was forwarded with my letter of the 20th April last, No. 78.

No. 219. ORDER THEREON, 26th June 1871, No. 913.

ordinary sources are shown in the margin, and amount to Rupees 24,650. The demand for house-tax according to the returns furnished is Rupees 5,180. The Commissioners have estimated Rupees 5,000 as current receipts, and the estimated receipts from trades-tax are largely in excess of past actuals and estimates. These matters should have been explained. The Commissioners

must understand that only eleven-twelfths of the full demand for a year of twelve months is to be levied in 1871-72.

2. Besides the receipts above mentioned the Commissioners take credit for a loan required from Imperial funds of Rupees 10,000, with reference apparently to G. O., No. 65, dated 18th January 1871. This is in order to enable them to allot Rupees 15,000 for the erection of a market; but they have provided for the re-payment within the year of the first instalment of the loan, Rupees 3,000.

3. The Government observe that the authorization to Municipalities to borrow, which was given under the old Act, is withdrawn under Act III. of 1871, and the bill for regulating advances to those bodies by the State has not yet passed the Supreme Council. Further, the sum which the Commissioners proposed to allot

*Proceedings of the Madras Government, Public Department,  
26th June 1871.*

for a market is very nearly equal to a year's revenue. The Government doubt whether the expenditure of so large a sum is really necessary. It is probable that a plain structure which would afford the accommodation necessary might be built for 5,000 or 6,000 Rupees. An allotment of the former amount will be sanctioned for the present, and the allotments for latrines, which are doubtless much wanted, will be increased by Rupees 1,650, to admit of the construction of nine instead of six. This will still leave an unallotted balance, the provision for the re-payment of the loan being struck out.

4. The allotments which the Commissioners have made for education, the dispensary, and registration of births are satisfactory, and will no doubt be ample. The exact amount due by municipal funds on account of the Normal School will be communicated to the Commissioners on the receipt of a report which has been called for from the Director of Public Instruction, and the apportionment of the Dispensary charges will also be settled hereafter when the Local Fund Budget is received.

PROCEEDINGS of the MARDAS GOVERNMENT.

Read the following letter from the  
President of the Municipal  
Commission, Mangalore  
dated 20<sup>th</sup> April 1871, No 78.  
+ 2<sup>d</sup> June 1871 No 10.

Order thereon, 26<sup>th</sup> June 1871 No 918.

The estimated receipts  
of the Municipality of Mangalore  
in 1871/72 from ordinary  
sources, are shown in the  
margin, and amount to  
Rupees 24,650. The demand  
for house tax according to  
the returns furnished is Rs. 5180.  
The Commissioners have esti-  
mated Rupees 5000 as current  
receipts, and the estimated  
receipts from Trades tax are  
largely in excess of past actuals  
and estimates. These matters  
should

should have been explained.  
The Commissioners must understand that only  $\frac{11}{12}$  <sup>ths</sup> of the full demand for a year of 12 months is to be levied in 1871/72.

2. Besides the receipts above mentioned the Commissioners take credit for a loan required from Imperial funds of Rs. 10,000, with advance apparently to L.O. No. 65 dated 18 Jan'y 1871. This ~~apparently~~ is in order to enable them to allot Rupees 15,000, for the erection of a market; but they have provided for the repayment within the year of the first instalment of the loan, of Rupees 3,000.

3. The Govt. observe that the authorization to municipalities to borrow which was given under the old act, is withdrawn under Act III of 1871; and the bill for regulating advances to these bodies by the State has not yet passed the Legislative Council. Further,

to allot for a market is very nearly equal to a years revenue. The Government doubt whether the expenditure of so large a sum is really necessary. It is probable that a plain structure which would afford the accommodation necessary might be built for 5000 or 6000 Rupees. An allotment of the former amount will be sanctioned for the present and the allotments for latrines which are doubtless much wanted, will be increased by Rupees 1650, to admit of

of the construction of 9 instead of 6. This will still leave an unallotted balance, the provision for the repayment of the loan being struck out.

4. The allotments which the Commissioners have made for education, the dispensary and registration of births are satisfactory, and will no doubt be ample. The exact amount due by Municipal funds on account of the Normal School, will be communicated to the Commissioners on the receipt of a report which

has been called for from the Director of Public Instruction, and the appropriation of the dispensary charges will also be settled hereafter when the local fund budget is received.

5. The estimates as modified, are passed. The proposed Commissioners will be appointed and authorized to elect their Vice President. The byelaws, and the question of supervision of Municipal vaccine operations will be disposed of in General orders.
