Proceedings of the Madras Government, Public Department,
1st July 1871.

Read the following papers:—

No. 1. From the President of the Municipal Commission, Mayaveram, to the Acting Chief Secretary to Government, Fort St. George, dated Negapatam, 25th April 1871, No. 85.

With reference to Government Proceedings, dated 31st ultimo, No. 436, Public Department, I have the honour to forward two lists—one showing the names of the Commissioners proposed to be appointed, and the other of the taxes to be levied with their several rates, under the Towns' Improvement Act III. of 1871, for the town of Mayaveram—for publication in the *Fort St. George Gazette*.

2. The estimates of receipts and expenditure having been erroneously drawn up have had to be returned. They will be forwarded to Government shortly. I beg to recommend that Mr. C. A. Bird be appointed Vice-President of the Mayaveram Municipality.

No. 2. From the President of the Municipal Commission, Mayaveram, to the Acting Chief Secretary to Government, Fort St. George, dated Point Calimere, 5th May 1871, No. 110.

I have the honour to forward, herewith, estimates of receipts and disbursements for the Mayaveram Municipality for the eleven months ending 31st March 1872.

2. The list of taxes proposed to be levied, and that of Commissioners proposed to be appointed under the new Towns' Improvement Act III. of 1871, have already been furnished.

No. 3. ORDER THREON, 1st July 1871, No. 950.

The estimated receipts of the Municipal Commissioners of Mayaveram, as shown in the margin, amount to Rupees

28,849. The estimated receipts from house and trades taxes present a large increase which is unexplained. The assessed demand of house and land-tax, at five per cent., was in 1869-70 only Rupees 3,242. The increase now shown may be due either to an increase of the percentage or a re-valuation of the houses, which was extremely low, and to neither of the measures have the Govern-

ment any objection. If the sum entered as road-cess represents current receipts, as would seem to be the case, its inclusion was improper as the Road Cess Act ceased to have effect on the 1st April 1871.

1st July 1871.

2. The sum allotted for actual expenditure is Rupees 23,884. The remainder			of the receipts is absorbed by refunds of State contribution to be made within the year. With regard to the Public Works estimate, the Government suggest that more money should be devoted to roads and less to tank steps. Rupees 2,619 are allotted for the latter, which are no doubt convenient works, but are not pressing.

The rest of the allotment is made up of Rupees 1,000 for school buildings, and a like sum for the maintenance of schools. The Commissioners should not proceed too fast to the establishment of new schools of their own. They should utilize and improve existing agencies. They will have to pay the grants to schools of the lower class situate within their limits, and they will find that their money will go much further and with equally good results if they adopt the grant-in-aid system as far as possible.

They will have to pay the grants to schools of the lower class situate within their limits, and they will find that their money will go much further and with equally good results if they adopt the grant-in-aid system as far as possible.

4. From the estimate of establishment it appears that the Commissioners have returned to the system of collecting tolls by their own agents. The estimates contain an allotment of Rupees 1,078 for establishment to collect a revenue of Rupees 5,500. The Government question the expediency of this step, and presume that the arrangement is only temporary and adopted in consequence of the uncertainty as to the terms of the contract under the new law.

5. The estimates are approved. The proposed Commissioners will be appointed; and, with reference to the President's letter, No. 139, dated 29th May 1871, the Commissioners are authorized, under Section 10, to elect their Vice-President.

NOTIFICATION.

From W. M. Cadell Esq

To
The Honorable P. S. Ellis Esq
Chief Secretary to
Government
Madras

With reference to the order
of Government dated 28th October 1870
No 1646, Public Department, I have
the honor to submit in the prescribed
form the estimates of receipts and
expenditure of the Mayavaram
Municipality for the year ending
31st March 1871.

It will be observed from state-
ment 1 that the receipts under
the head of rates and taxes are
entered as Rupees 14,450 for the
twelve months of the municipal
year 1872, 73, while the same have
been put down at the sum of

Rupies 17,800 in the Estimates for the 11 months of the current year. The falling off in the receipts is chiefly in the heads of the house tax and the tax on Arts, trades and Professions. The Commissioners when they sent up their Budget Estimates to Government on the last occasion had expected to be able to levy the house tax at the maximum rate of 7 1/2 per cent, ~~the severe storm~~ which occurred in the beginning of the month of November last and which did so much damage to house and landed property made it imperatively necessary that the rate should be reduced and this was accordingly done under the orders of Government dated 15th December 1871 & 1857. The same reason has rendered

Expedient that the reduced rate (5 per cent) should be continued for the coming year also. Again the Commissioners had anticipated that the revised rates in the schedule provided for the tax on Arts, trades and professions appended to the New Towns Improvement Act would result in a large increase of Revenue; Experience has however shown that this expectation was unfounded. receipts under the head of the Professional tax have therefore been put down as Rupies 3,500. Hence the large difference between the Estimates for the year 1871-72 and those for 1872-73. Government have ruled in their Order dated 7th July 1871 No 1002 that the surplus proceeds of cattle pounds situated within the limits of the Municipal

Town &

to be made over
to the Commissioners without
the special permission of Govern-
ment; Rupees 400 under this

heads have however been entered
in the present Estimates under
the belief that the Government
will make over this item to the
Commissioners as in former years.

The Dispensary at Mayavaram
which is a branch of the one situa-
ted at Spangur as is the only
institution situated within the
limits of the Municipality requir-
ing to be transferred to the Com-
missioners. The intention of
Government to transfer the same
has been under Section 16 of the
Municipal Act published in
the District Gazette and inti-
mation of the date of the publica-
tion of the notice has been given

to Government through the Board of
Revenue. The formal declaration
by Government that the Dispensary
is henceforward to be under the super-
intendence and management of
the Commissioners is all that re-
mains to be done to complete the
transfer.

5. Rupees 180 have been put down
in the Budget Estimates of the Local
Funds Board of the Nagapattanam
Circle for the years 1871-72 and 1872-
73 as contribution to the Commissioners
for the Dispensary. In their Order
dated 5th December 1872 (Financial
Department) sanctioning the Estimates
for the year 1871-72 the Government
observed that the allotment was
a proper one but directed the Pre-
sident to ascertain in communi-
cation with the Commissioners
the sum which the Local Funds
Board ought to contribute towards
the maintenance of the Dispensary.
The

The matter is still under consideration and in the meantime Rupees 180 have been entered in the present Estimates also.

6. In statement # it will be seen that Rupees 1356 have been allotted to the head of Education. The contribution payable to the Local Fund Boards on account of the Educational Inspectorate remains to be settled in communication with the other Muni-

~~Commissioners~~ in this District and the Local Fund Committees, but it is believed that the sum above given will cover all charges connected with Education.

7. Rupees 1000 have been allotted to the Dispensary.

The Order of Government sanctioning the transfer of the Dispensary at Mayasaram to the Commissioner has just been received.

I have the honor to be

PROCEEDINGS of the MARDAS GOVERNMENT.

Read the following letter from

the President Municipal
Commission Magawaru and
dated 25th April and 5th
May 1871 & the 8th and 11th
1871. 1871 & 1872.

Order thereon - 1st July 1871.

The estimated receipts
of the Municipal Commission
of Magawaru, as
shown in the margin amounts
to Rs. 28,849. The estimated
receipts from house and trades
taxes present a large increase
which is well placed. The
revised demands of house
and land tax at 5 percent
was in 1869-70. Rs. 5,242.
The increase now shown may
be due either to an increase
of the percentage or a reval-
uation of the houses, which
was extremely low, and to

by them on this account, with the Local Fund Board. The rest of the allotment is made up of Rupes 1000 for school buildings and a like sum for the maintenance of schools. The Commissioners should not proceed too fast to the establishment of new schools of their own. They should utilize and improve existing agencies. They will have to pay the grant to schools of the lower class situate within their limits, and they will find that their money will go much further and with equally good results, if they adopt the grant-in-aid system as far as possible.

3. From the estimate of establishment it appears, that the Commissioners have returned to the system of collecting tolls by their own agents. The estimates contain an allotment of Rupes 1078 for

establishment
 for persons to collect a
 revenue of Rs. 5,500. The
 Govt. question the propriety of the
 step is decidedly a mistake
 and the Government trust
 the arrangement is only
 temporary and adopted
 in consequence of the uncer-
 tainty as to the terms of the
 contract under the new law.
 The estimates are approved
 The proposed Commissioners
 will be appointed and with
 reference to the President's letter
 of 13th dated 24th May 1871 the Com-
 missioners are authorized under
 Sec. 10 to elect their Vice President.
