*Proceedings of the Madras Government, Public Department,
1st July 1871.*

Read the following papers:—

No. 7. From the President of the Municipal Commissions in the Bellary District, to the Chief Secretary to Government, Fort St. George, dated Bellary, 27th April 1871, No. 38.

With reference to the Proceedings of Government, Public Department, No. 436, dated 31st ultimo, I have the honour for the present to submit a list of the persons to be appointed Commissioners, with my recommendation as to the persons to be appointed Vice-Presidents, of the several Municipalities in this district.

2. A statement of the taxes proposed to be levied is also given.
3. The estimates will follow very shortly.

No. 8. From the President of the Municipal Commissions in the Bellary District, to the Chief Secretary to Government, Fort St. George, dated Bellary, 29th April 1871, No. 39.

In accordance with the orders contained in the Proceedings of Government, No. 436, dated 31st ultimo, and in continuation of my letter, No. 38, dated 27th instant, I have the honour to forward the estimates of the probable receipts and

Bellary.	Adoni.	disbursements in the several Municipalities of this
Ghooty.	Anantapur.	district, as noted in the margin, for the year 1871-72.

2. With the estimates are enclosed, in original, the letters from the Vice-Presidents explaining the taxes they propose to levy, the arrangements to be made for the registration of births and deaths, and giving a list of the bye-laws in force, specifying which have been found most useful.

3. The statement of the number of persons prosecuted and convicted under each bye-law, they have furnished.

4. The Commissioners of Bellary have not given the detailed arrangements for the collection of the birth and death statistics. I have called for them again. It will be observed that the Ghooty Commissioners intend to collect the statistics through their existing establishment.

5. In all the Municipalities in this district vaccinators are already employed. The Commissioners of Bellary and Anantapur are of opinion that the vaccinators should be subject to the same supervision as those employed in the neighbouring Local Fund Circles. Those of Adoni and Ghooty are of opinion that the vaccinators should be under their direct control. The Anantapur Commissioners alone state that the cost of supervision should be distributed between local and municipal funds.

6. The Commissioners of Bellary think that all the bye-laws in force are necessary. Those of Adoni, Ghooty, and Anantapur point out certain which they think have been practically most useful.

No. 9. From the President of the Municipal Commissions in the Bellary District, to the Chief Secretary to Government, Fort St. George, dated Bellary, 14th June 1871, No. 50.

I have the honour to reply to the Proceedings of Government, Public Department, No. 609, dated 9th ultimo. I regret the delay which has occurred. The last reply of the four Municipalities was only received to-day.

Proceedings of the Madras Government, Public Department.
1st July 1871.

2. The Bellary Commissioners by eight votes against six have desired that they be authorized to elect the Vice-President.

3. The Adoni Commissioners desire also to be authorized to elect him.

4. The Commissioners of Ghooty and Anantapur wish the system of nomination by the President to continue.

5. In my letter, No. 38, dated 27th April, I recommended the names of certain persons to be appointed by Government for these last Municipalities.

No. 10. ORDER THEREON, 1st July 1871, No. 952.

The Government proceed to dispose of the estimates of receipts and disbursements of the Municipalities in the Bellary District, submitted with the second of the foregoing letters.

1863, but the Government are not aware that there are any such within the Municipality of Bellary. The allotment, however, will probably be required for grants-in-aid, and is not excessive.

4. The Bellary estimates are passed.

2. *Bellary.*—The estimated receipts are shown in the margin, and amount, including State contribution, but without any balance in hand, to Rupees 61,946.

3. The proposed expenditure amounts to Rupees 61,946, as entered in the estimate. The Commissioners provided for the registration of births and deaths Rupees 300, but from the Vice-President's letter it appears that Rupees 429 are required. The latter sum is entered in the margin, and the allotment for sundry purposes, not specified (as they ought to have been), reduced by Rupees 129. Details of the allotments for "New Works" and for "Conservancy" are not furnished. The sum required for the Dispensary, according to G. O., 17th April 1871, No. 491, was Rupees 1,440, but the Commissioners have provided Rupees 760 as an additional grant. The educational provision is said to be for the maintenance of Rate Schools. The expression is usually applied to schools established under Madras Act VI. of

Proceedings of the Madras Government, Public Department,
1st July 1871.

5. *Adoni.*—The Commissioners of this Municipality proposed to introduce the tax on arts, professions, and trades, in order to make up for the loss of the State contribution and for a decrease likely to be permanent in the receipts from tolls. The tax is expected to produce Rupees 5,000. The whole receipts estimated for 1871-72 amount to Rupees 15,550. With the addition of the new tax the revenue of the Municipality nearly equals that under Act X. of 1865. The falling off in tolls has been very great, the actuals of 1869-70 having been Rupees 5,550, and the estimate for 1870-71 Rupees 6,000. The measure proposed is doubtless necessary, and is approved.

6. The expenditure is shown in the marginal statement. The large allotment for new roads which seems out of proportion to that for repairs is intended, the Government presume, for new metalling existing roads. The allotment for new buildings consists of Rupees 3,000 for latrines, Rupees 1,000 for a chuttrum, and the rest for masonry dust-boxes. Before sanctioning the second item the Government desire that the necessity for the Commissioners' interference may be explained, and that it may be stated whether the proposed chuttrum will provide accommodation for all classes of the community.

7. The allotment for education is extremely small. It appears that the Commissioners intend to establish one school, with a Head Master on Rupees 14 and an Assistant on Rupees 7. The Commissioners should consult the Educational Officers of the district, and should remember that it is desirable that they should endeavour rather to expand and improve existing educational agencies, if such exist, than to supplant them.

8. The other allotments do not call for remark. The arrangements for registration of births and deaths appear good. The estimates, except the allotment above referred to, for which sanction is deferred, are approved.

9. *Anantapur.*—The receipts are estimated at Rupees 6,983. It is proposed to introduce the tax on arts, &c., in this Municipality for the same reasons as in Adoni. The falling off in the revenue from tolls is, however, not nearly

so great as in that town, the actuals of 1869-70 having been Rupees 2,945, and the estimate for 1870-71 Rupees 3,800. But though it may be necessary to supplement the municipal resources, the Government doubt whether the proposed increase of tax should be sanctioned for the year 1871-72.

10. The estimate of expenditure comprises an allotment of Rupees 1,000 for the repairs of a chuttrum. The Government question whether municipal improvements of immediate benefit to the inhabitants of the town have made such progress as to justify the appropriation of one-seventh of the year's revenue for the convenience of strangers. The smallness of the Commissioners' income renders such an allotment more objectionable in Anantapur than in Adoni.

11. Excluding tolls, the proposed taxation in Anantapur is Rupees 0-11-6 per head, whereas in all Municipalities in 1869-70 the average payment per head was Rupees 0-8-4 only. The inhabitants of Anantapur are, therefore, taxed exceptionally heavy. Further, it is plain that a considerable share of the cost of the repairs to the chuttrum, if they are really necessary, should be paid from local funds. The Government, therefore, resolve to disallow the allotment and defer the introduction of the trades-tax at least for the current year, during which the Commissioners should come to an arrangement with the Local Fund Board. The chuttrum, if it is to be repaired from local or municipal funds, must be one providing accommodation for all classes of the community.

12. The proposed expenditure including the Chuttrum allotment amounted to Rupees 6,349, being Rupees 634 less than the estimated receipts. Excluding the Chuttrum allotment, and striking out the trades-tax, there will be available a sum of Rupees 234, which should be reserved for education—a purpose for which the Commissioners have made no provision. The town possesses a Government taluq school, but the pyal schools referred to should, if possible, be brought under the payment-for-results' system. The sanctioned receipts, the trades-tax being omitted, and the expenditure will amount to Rupees 5,583.

13. It is observed that, in addition to the sum specified in G. O., 17th April, the Commissioners have provided for a monthly grant of Rupees 10 for the Dispensary. They propose not to maintain a separate vaccinator, but that the town should form part of the Local Fund Vaccinators' ranges, the Commissioners paying Rupees 180 per annum as a contribution. If the population of the town is too small to provide a town vaccinator with full work, and if there is no danger that vaccination within the town will be neglected, the proposed arrangement seems a good one, and the proposal should be laid before the Local Fund Board. Meanwhile the allotment in the present estimates is sanctioned.

14. The estimates as modified are passed.

*Proceedings of the Madras Government, Public Department,
1st July 1871.*

15. *Ghooty*.—The Commissioners expect to receive from the taxes now in existence Rupees 5,200, as shown in the margin. Of this sum, Rupees 2,400 are derived from tolls, which item, as in Adoni, shows an extraordinary decrease, the actuals for 1869-70 having been Rupees 6,750, and the estimate for 1870-71 Rupees 5,000.

16. The expenditure is classified in the margin. The outlay on Public Works is insignificant, the bulk of the funds being devoted to conservancy. The particulars of the miscellaneous expenditure, Rupees 567, should have been given. The Commissioners propose to have the registration work performed by the existing establishment. For the sum allowed for office, &c., equal to one-fourth of the other expenditure, an efficient establishment for all purposes might be provided, but the Government doubt whether, as it is now constituted, the establishment will be found to answer. G. O., 17th April, No. 491, has been provided for the dispensary.

17. As regards education, the Commissioners state that their funds are quite insufficient to do all that is needed, and they request that an equivalent of their allotment may be provided by Government. They consider that a school with a staff as noted in the margin, and costing (exclusive of contingencies to be met from fees) Rupees 72 per mensem, will suffice, and have accordingly allotted Rupees 396 for the current year.

18. The Government cannot comply with the request of the Commissioners. They observe, however, that the Commissioners ought not at present to attempt to provide the means of any but the most elementary instruction, and that the proposed establishment is unnecessarily expensive for a primary school. The allotment made by the Commissioners will more than suffice for the establishment of one such school as a commencement, and will leave a sum available for results grants to existing schools, if there are any such. The allotment will, therefore, stand, and the Commissioners should consult the Educational Officers of the district as to its appropriation.

19. The Ghooty estimates are sanctioned.

20. In each of the lists of proposed Commissioners for Bellary and Anantapur, and Ghooty, two names of officials must be struck out, to bring the number within the limit prescribed by law. The other persons nominated by the President will

Municipal Comm. Office
Amenapuri 18th April/71.

To,

The President Municipal Comm.
of
Amenapuri

Sir,

With reference to Government Proceedings dated 31st March 1871, I beg to forward Estimate of Receipts and disbursements for the year 1871-72 framed in accordance with the provisions of the Town Improvement Act III of 1871, and instructions contained in the said Proceedings.

2. In framing the Estimate the sum of Rs 383-4-6 due to the Commission by the state, and the sum of Rs --- due paid by it for the year 1870-71 are included agreeably to para 3 of the Proceedings as under report.

3. Under Act I of 1865, the following Taxes were collected viz. Rates on houses, buildings & lands, Tolls for carriages, other vehicles, and animals entering the Town; Taxes on carriages, horses & other animals; and fees for registering carts & other vehicles without springs. But no Tax on arts, professions, Trades & Callings were collected hitherto.

4. The Government having withdrawn the Contribution which amounted nearly double the sum paid from the Commission on account of Municipal Police, the estimated amount of Toll, Contract having greatly fallen

down owing to want of Competitions this year, and the Commisjion having been imposed with the additional charges as provided in the new Act, it was thought absolutely necessary to introduce the Taxes on Arts, Professions, Trades and Callings in the Town under the new Act as well as other Taxes already existing in order to commensurate the charges now to be met with. The introduction of the Tax would in the opinion of the Commisjioners, not be hard upon most of the people, for, under these heads it affects very few who pay Imperial Income Tax. Therefore the Commisjioners request that the Government will sanction the collection of Taxes on Arts in addition to those existing. A statement showing the Taxes which the Commisjioners propose to levy is submitted herewith as mentioned in para 11 of the Proceedings.

5. A sum of Rs 200 proposed to be paid by the Municipality in the Proceedings under report an account of the charges of Medical attendance and medicine for the Dispensary here, has accordingly been allotted in the estimate as a monthly contribution of Rs 10, which has already been made towards the institution - thus a sum of Rs 300, is to be paid annually under this head.

6. A school for primary education is necessary as there are

3 Prib schools and 1 Government School in the place. As the people are generally in favor of the former, the introduction of any further primary school, does not seem necessary. Therefore the Commisjioners have not provided any allotment for the said purpose.

7. The charges for the Registration of Births and Deaths have been estimated at Rs 110 for eleven months running. A Registrar will be appointed on a salary of Rs 10, per mensem, who will maintain the Register from the information obtained by himself in the Town under Section 4 of the Act. As every principal member of a house is bound to give information of all such domestic occurrences and the Police under the general power vested in them under Section 104, bring to justice any offenders acting contrary to the requirements of the Act, the Registrar's entries can be readily checked.

8. With regard to the Vaccine operations within the limits of this Municipality, instead of maintaining a vaccinator as at present, the Commisjioners agree to provide a sum of Rs 180 per annum towards the maintenance of the vaccinator who should work under the direct management of the District Superintendent of the Local fund circle in which this Town may be included and whose operations should not be confined to the Town

President Municipal Commission
Bellary

Q. 1

Shew the same in accordance with Government
Order No 456 dated 31st March 1871, to furnish the Municipal
Budget for 1871-72 prepared in accordance with the provisions
of Act III of 1871.

With reference to paras 5, 8 & 9 inclusive of the above mentioned order the Commissioners have decided to include the following Charges in the Budget.

Medical Attendance	Rs 2,100
Primary Schools	Rs 2,500
Registration of births and deaths	Rs 300

In Bellary there are no rate schools and the Provincial School receives the Commissioners from the work of training Masters, there are however 25 special schools, and the Commissioners have assigned Rs 2,500 from which grants may be made to the teachers, on the system at present pursued in accordance with an estimate sent by the Inspecting Schools

The Registration of births and deaths is at present carried out in the Govt Bazar by the Commissionary Magistrate, Mr Bruce Pettit. In the opinion of the Commissionary he is brushed back a pay of Rs 25 a month.

11 A statement shewing the number of persons prosecuted, and convicted under each bye-law in the year 1870-71, is also submitted as directed in para 10 of the Proceedings.

12. A list of Commissioners
who are appointed is appended to this

I have the honor to be

Yunnanish Chot; Seroank

W. Casanova

Vice President -

one of the Niddi Merassidens being nominated if possible

With reference to para 9 the Commissioners desire that Vaccinators are at present maintained at a cost of Rs 240 per annum, and as they are of opinion that they should be subject to the same supervision as those employed in the neighbouring local fund circles they have raised the grant to Rs 300 to meet the expense of supervision.

With reference to para 10 the Commissioners consider that all the Bye-laws in force in Bellary are necessary.

In consequence of the withdrawal of the Govt contribution the Commissioners have been obliged to lay a tax on Trades and Professions so as to raise a sum of Rs 8316-0-0.

I am the honor to be

Yours Most Obedient Servant

3. The proposed expenditure amounts to Rs 61,946 as entered in the estimate. The Commissioners provided for the registration of births and deaths, Rs 300, but from the Vice President's letter it appears that Rs 429 are required. The latter sum is entered in the margin and the allotment for sundry purposes, not specified (as they ought to have been) reduced by Rs 129. Details of the allotments for New Works and for Conservancy are not furnished. The sum required for the dispensary according to G.O. of the April 1871, N° 491. was Rs 4440, but the Commissioners have provided Rs 760 as an additional grant. The educational provision

is said to be for the ⁸⁵main-
tenance of rate schools. The
expression is usually applied
to schools established under
Madras Act II of 1863, but
the Govt are not aware that
there are any such within
the municipality of Bellary.
The allotment however will
probably be required for
grants in aid and is not ex-
cessive.

4. The Bellary estimates
are passed.

5. Adoni - The Commis-
sioners of this Municipality
propose to introduce the tax
on arts, professions and trades,
in order to make up for the
loss of the State Contribution
and for a decrease likely
to be permanent in the
receipts

receipts from tolls. The tax expected to produce Rs 5,000. The whole receipts estimated for 1871-2 amount to Rs 15,550. With the addition of the new tax the revenue of the municipality nearly equals that under Act X of 1865. The falling off in tolls has been very great, the actuals of 1869-70 having been Rs 5,550 and the estimate for 1870-1 Rs 6,000. The measure proposed is doubtless necessary, and is approved.

6. The expenditure is shown in the marginal statement. The large allotment for new roads which seems out of proportion to that for repairs, is attended, the Govt. presume, for metalling

metalling existing roads. The allotment for new buildings consists of Rs 3,000 for latrines, Rs 1,000 for a chattrum, and the rest for masonry dust boxes. Before sanctioning the second item the Govt desire that the necessity for the Commissioners' interference may be explained, and that it may be stated whether ^{the proposed chattrum} will provide accommodation for all classes of the community.

7. The allotment for education is extremely small. It appears that the Commissioners intend to establish one school, with a head master on Rs 14 and an assistant on Rs 7. Such a school can scarcely be sufficient. The Commissioners should consult the

the educational officers of the district and should remember that it is desirable that they should endeavour rather to expand and improve existing educational agencies, if such exist, than to supplant them.

8. The other allotments do not call for remark. The arrangements for registration of births and deaths appear good. The estimates, except the allotment above referred to, for which sanction is deferred, are approved.

9. Amantapur - The receipts are estimated at Rs 6,983. It is proposed to introduce the tax on arts & crafts in this municipality for the same reasons as in

Adoni.

Adoni. The falling off in the revenue from tolls is however not nearly so great as in that town, the actuals of 1869-70 having been Rs 2,945 and the estimate for 1870-1, Rs 3,800. But though it may be necessary to supplement the municipal resources, the Govt doubt whether the proposed increase of tax should be sanctioned for the year 1871-2.

10. The estimate of expenditure comprises an allotment of Rs 1,000 for the repairs of a Chattram. The Government question whether municipal improvements of immediate benefit to the inhabitants of the town have made such progress as to justify the appropriation of 1/4th of the year's revenue for the convenience

convenience of strangers.
The smallness of the Com-
-missioners' income renders
such an allotment more
objectionable in Anantapur
than in Adoni.

11. Excluding tolls, the pro-
-posed taxation in Anantapur
is Rs 0-11-6 per head, whereas
in all municipalities in
1869-70, the average payment
per head was Rs 0-8-4 only.

The inhabitants of Ananta-
-pur are therefore taxed ex-
-ceptionally heavily. Further,
it is plain that a considerable
share of the cost of the re-
-pairs to the chuttrum, if they
are really necessary, should
be paid from local funds.

The Government therefore
resolve to disallow the allot-
-ment and defer the intro-
-duction of the trades tax
at

at least for the current
year; during which the Com-
-missioners should come to
an arrangement with the
local fund board. The chut-
-trum, if it is to be repaired
from local or municipal
funds, must be one provi-
-ding accommodation for
all classes of the community
and must be capable of
transfer to the Commission-
-ers under the Act.

12. The proposed expendi-
-ture including the chuttrum
allotment amounted to Rs
6,349, being Rs 634 less
than the estimated receipts.
Excluding the chuttrum
allotment and striking out
the trades tax, there will
be ^{available} a sum of Rs 234, which
should be reserved for
education - a purpose for
which

which the Commissioners have made no provision. The town possesses a good school, but the school referred to should be invited to apply for payment for ^{the trade tax being omitted} results. The same - turned receipts, and expenditure will amount to Rs 5,583.

13. It is observed that, in addition to the sum specified in G.O. 17th April, the Commissioners have provided for a monthly grant of Rs 10 for the dispensary. They propose not to maintain a separate vaccinator, but that the town should form part of the local fund vaccinators' ranges. The Commissioners paying Rs 100 per annum as a contribution

contribution. If the population of the town is too small to provide a town vaccinator with full work, and if there is no danger that the town ^{vaccination within} ~~vaccination~~ will be neglected, the proposed arrangement seems a good one, and the proposal should be laid before the local fund board. Meanwhile the allotment in the present estimates is sanctioned. 14. The estimates as modified are passed.

15. Ghoolty. The Commissioners expect to receive from the taxes now in existence Rs 5,200 as shown in the margin. Of this sum Rs 2,400 are derived from tolls, which item, as in Adoni, shows an extraordinary

extraordinary decrease, the actual for 1869-70 having been Rs 6,750 and the estimate for 1870-71, Rs 5,000.

16. The expenditure is classified in the margin. The outlay on Public Works is insignificant, the bulk of the funds being devoted to Conservancy. The particulars of the miscellaneous expenditure, Rs 567, should have been given. The Commissioners propose to have the Registration work performed by the existing establishment. For the sum allowed for Office equal to one-fourth of the other expenditure, an efficient establishment for all purposes might be provided but the Govt doubt whether, as it is now constituted;

the establishment will be found to answer. The sum specified in G. O. 14th April N^o 491 has been provided for the dispensary.

17. As regards education, the Commissioners state that their funds are quite insufficient to do all that is needed and they request that an equivalent of their allotment may be provided by Govt. They consider that a school with a staff as noted in the margin and costing (exclusive of contingencies to be met from fees) Rs 72 per mensem, will suffice them, and have accordingly allotted Rs 396 for the current year.

18. The Govt cannot comply with the request of the

the Commissioners. They observe however that the proposed establishment is unnecessarily expensive for a primary school. ^{Commissioners ought not at present to attempt to provide the means of any such establishment unless they had the money} that the allotment made by the Commissioners ^{more than} will suffice for the establishment of at least one such school as a commencement, and ^{with} ~~possibly~~ have a ^{board with} ~~small~~ ^{small} ~~sum~~ ^{sum} for results grants to ^{the same way} ~~existing~~ schools, if ^{such} ~~such~~. are same times.

-nated by the President

will be appointed Com-
