Kuzur Chetty
Sinnerelly 23rd June 1877

From C. R. Leckie Esq
President Municipal Commission
Suttorin

To W. Haden Esq
Chief Secretary to Government
Fort Saint George

Sir,

With reference to para 12
Government proceedings No 783 dated 7th June 1877
I have the honour to inform you that the
wall in course of erection at Suttorin is a
great improvement to the Town as it includes
the whole foreshore which is being raised
to the level of the beach Road. It moreover
protects the beach Road & houses and prevents
the accumulation of filth at the water's edge.
The wall is composed of ships ballast
principally granite and is landed at the cost
of the Port fund - the Municipality can
only afford a moderate annual grant as
the supply of ships ballast is limited
hence the charge is necessarily spread
a series of years.

2. I trust that nothing may be done
check the progress of this most useful work.

which can hardly be completed for
other year or two.

I have the honour to be
Yours ^{very} truly
Obedt Servt

Wm. P. M. S.
