GOVERNMENT OF MADRAS.
PUBLIC DEPARTMENT.

10th June 1878, No. 934.

Records.

Read the following paper :—

No. 27. *From W. LOGAN, Esq., Collector of Malabar, to the Chief Secretary to Government, dated Calicut, 5th June 1878, No. 53.*

In making my report on the work performed by the temporary establishment of Indexers for the month of May last, I have the honor to state that the indexing of the ancient records received from the Bombay Government has been completed.

2. In the month they indexed 7,505 pages, or an average of 79 pages a man per day. The number of pages indexed since the commencement of the work is 73,189.

3. Perceiving, however, sixteen duplicate volumes of the diaries of the Second Malabar Commission in my records, which were evidently transcribed at that time for the purpose of transmission to Bombay, I have included them among the Bombay records, as well as fifteen other duplicate volumes of the diaries of the Northern Superintendent; they are therefore being now indexed and will be ready by the end of this month.

4. The sanction accorded in G.O., dated 8th December 1877, No. 1658, for the retention of the Indexers will have expired by the 9th of the current month, but as Government in their Order, dated 10th April 1877, No. 480, desire that copies of the records received from Bombay be retained in my office, I have the honor to enclose an abstract comparative statement showing the number of volumes which will have to be multiplied.

5. From this statement it will be seen that these records are not in a complete state as several intermediate volumes are missing—an observation which equally applies to the records of the same periods in my office, and as already alluded to in my letter of the 2nd July last, No. 69, these missing records are very voluminous. To form complete duplicate sets of them would in all probability give employment for no less than a dozen good copyists for a full year, if not more.

6. Under these circumstances, I would not propose to form complete duplicate sets of them, as there is much matter which is not worth retaining; but I would propose to utilise the present establishment, as soon as they have finished the indexing, in copying such portions of the records as it may seem necessary to retain in my office, and when that work is completed I would propose to transmit to Madras as complete a collection of the ancient records as it is possible to make, supplementing for that purpose the deficiencies in the records received from Bombay by such portions as are available in my office.

7. To this end I beg that sanction may be accorded for retaining the additional establishment for a further period of six months.

No. 28. ORDER THEREON, 10th June 1878, No. 934.

The retention of the temporary establishment for a further period of six months is sanctioned.

(True Extract.)

D. F. CARMICHAEL,
Chief Secretary.

To the Collector of Malabar.
„ Accountant-General.

Ed. T. O'Connor.

Composed of the
Bombay Governor and
Commissioner in Chief
while on the Coast.

After the capture of Cochin
from the Dutch in Oct 1797
a separate Commr was

pointed for the Dutch
possessions which lasted
till Novr 1801. But the Diary
breaks off Decr 1799.

The Joint Commrs' Report
in print, besides which the
Madras Govt are in possession
of several manuscript copies
of these Reports.

These will be printed as
Distinct Volumes.

This Commission was dis-
solved in August 1801 but
no Diaries are extant from
1799.

The Suplt. ship was
abolished in 1800 but no
Diary extant for that year
but not a single Diary of
the Southern Supt is extant
although they were in ex-
istence in 1800. —

Besides the above there are in my Office 32 Volumes of Diaries of other Subordinates under the Commission such as Revenue Assistants and Circle Collectors from 1798 to 1801. With a few exceptions the separate Reports of the several Circle Collectors for 1801 and the Commissioners' covering Report are also in existence.

These will be printed as District Selection Copies of them are in the Madras Records

Maidan Collector's Office }

I have the honor to
Sir,

Your most obedient Servant

W. Rogers

No. 55.

Malabar Collector's Office
Calicut 5th June 1878.

From Mr. Logan Esq^r
Collector of
Malabar.

To
The Honble P. J. Carmichael
Chief Secretary to Government.
Ootacamund.

Sir,

In making my report on the
work performed by the Temporary
Establishment of Indexers for the
month of May last, I have the honor
to state that the indexing of the ancient
records received from the Bombay
Government has been completed.

2. In the month, they indexed 10,250
pages or an average of 79 pages a man
per day. The number of pages indexed
since the commencement of the work is
73,109.

3. Among however 16 Duplicate
Volumes of the Diaries of the Second
Malabar Commission in my records,
which were evidently transcribed at that
time for the purpose of transmission
to Bombay, I have included them among
the Bombay records as well as 15 other
duplicate Volumes of the Diaries of the
Northern Superintendent. They are therefore
being now indexed and will be ready
by the end of this month.

4. The sanction accorded in G.O. dated
8th December 1877, No. 1558, for the retention
of the Index will have expired by the
9th of the current month, but as Government

in their order dated 10th Apr 1877, V:480th
decide that copies of the records received
from Bombay be retained in my office,
I have the honor to enclose an Abstract
Comparative Statement showing the
number of volumes which will have
to be multiplied.

From this statement it will be
seen that these records are not in a
complete state as several intermediate
volumes are missing - an observation
which equally applies to the records
of the same periods in my office, and
as already alluded to in my letter of
the 2nd July last. If these missing
records are very voluminous, to form
complete duplicate sets of them would
in all probability require employment for
no less than a dozen good copyists
for a full year, if not more.

Under these circumstances I
would not propose to get complete
duplicate sets of them, as there is much
matter which is not worth retaining,
but I would propose to utilise the
present establishment as soon as they
have finished the existing, in copying
such portions of the records as it may
seem necessary to retain in my office,
and when that work is completed I
would propose to transmit to Madras
as complete a collection of the ancient
records as it is possible to make, sup-
plementing for that purpose the de-
ficiencies in the records received from
Bombay by such portions as are
available.
