... and 12 and 7.

We have made a complete list of the Malabar records. Some slight differences appear on a comparison of this list with that received from the Collector. These differences have been noted in red pencil on the Collector's list. Most of the divisions which are Vols of large size are in an unbound state. Instructions are solicited whether they may be bound in the Govt Press. The Minute Books, Account Books ledgers &c are pamphlets of various sizes. Some contain only a few sheets of paper while others are rather bulky.

It appears from
the report of the Record-
Keeper, Government Office,
that the boxes containing
the ancient records were
received by him in a
rotten state.

2. It also appears
from the list, which
will be returned to the
Collector of Malabar for
explanation, that there
are many of the records
noted "wanting".
