No. 34. *Despatch from the Right Honorable the Secretary of State for India.*

Statistics and Commerce.
No. 137.

INDIA OFFICE, LONDON.
20th November 1879.

MY LORD,—I forward herewith a copy of a statement and accompanying lists submitted by Dr. Forbes Watson with reference to the specimens of Native drugs which have been forwarded from India from time to time for the Museum of the Victoria Hospital at Netley, from which you will perceive that, after excluding such drugs as can be obtained in the London market, and also those of minor importance, there still remain 137 specimens which it is desirable should be furnished in order sufficiently to illustrate the Pharmacopæia of India.

2. I request that your Excellency will cause the necessary steps to be taken to comply with Dr. Watson's recommendation. Dr. Watson suggests that the duty should be assigned by the Government of Madras to Honorary-Surgeon Moidin Sheriff, the author of the Supplement to the Pharmacopæia of India; and I leave it to your Excellency to communicate with that Government in reference thereto.

To His Excellency the Right Honorable
The Governor-General of India in Council.

I have, &c.,
