GOVERNMENT LYING-IN HOSPITAL,
Madras, 19 July 1881.

From

ag
THE SUPERINTENDENT,

LYING-IN HOSPITAL,

To

Mr. Secretary General
with Madras Govt.

SIR,

In forwarding the proposition
statement for revision of establishment
on the basis of my letter No.
80 of 8th July I have the honor to point
out that the decrease per month of Rs.
2-12 is covered by the entry of three
gardeners on the permanent establish-
ment instead of one. Your sanc-
tion for this was received after the
date of my letter under reference.

I have the honor to be,

Sir,

Your most obedient Servant,

W. P. R. S. S. S.

ag Supt., Lying Hospital.

No. 488

The entries in the Column of "Present Scale" have been compared with the Registers of this Office, and are correct, with the exception of the items altered in red ink.

No 80

Goat Spingur
Madras 8th July 1887

From
The Acting Superintendent
Singham Hospital 1085/3

To
The Secretary to Surgeon General
with Madras Govt

Sir
In reference to memorandum No
3818 dated 22nd June regarding the per-
manent establishment of the Singam
Hospital & Epine Female Dispensary I
have the honor to offer the following re-
marks.

2. In considering the question of permanent
establishment I have made every en-
deavour to keep within the limits of
expenditure of the old establishment
with a view to working the institution
on the most economical scale possible
for efficiency.
I have calculated the establishment for
the hospital in full work. It is possible
that the building will not be at any time
fully occupied and therefore, as at
present, it would not be necessary to
employ servants to the full sanctioned
scale. In a Singam institution, however,
the changes are rapid and a staff
which may be underworked for se-
veral days may somewhat suddenly
have a considerable strain thrown
upon

upon it. The plan of isolated blocks and small wards is not conducive to economy in nursing or attendance and some difficulty has already at times arisen in the arrangement of the nursing strength.

3. The increase viz No 9-4 & the extra establishment which may be required for the Gynaecological patients at the Women & Childrens Hospital (at present none) represents the total increase which would be necessary when both institutions are in full work.

4. With regard to individual items in the proposed scale and their duties.

1) The Junior Apdressing - I propose to employ this subordinate partly in assisting the Superintendent in seeing the Gynaecological out-patients at the Epine Dispensary where this Department is to be transferred from the Hospital for Women, at which institution only in-patients will be kept. This duty with that of alternate duty at the Quiz-in Hospital with the Resident Apdressing will keep the subordinate fully employed. ~~The~~

2) Hospital Assistants duties will remain as heretofore.

3) The Matron has much the same

duties as in the old establishment over with the difference that she has entire control of the whole of the linen Department and Superintends the Laundry Operations.

4) Assistant Matron, Stewards & Cooks Female Indwifery Pupils remain as before.

5) Native Indwifery Pupils - An increase may have to be asked for in the number of these pupils - more than the sanctioned number of 7 can be employed. During the past year we have had some under instructions from Municipal & L. P. Boards but this trouble seems to have come to an end & the wants of these bodies to have been supplied temporarily at all events.

6) Head Native Nurse is in the present establishment. She is employed chiefly in the out-patients room where there is plenty of work for her. She is also available for night-duty as a relief to the ayahs.

7) Peon. This man acts as a head servant and will also be gate-keeper. He superintends the servants generally, keeps the office in order, draws the pay of the establishment and nurse pupil classes and occasionally carries letters. It will be well to appoint one of the lascars

to some of the Men's duties, freeing the
Men more for his gate duties, to
whom also he can act as a relief.

(8) The duties of the Cooks and of the wa-
termen remain much the same and
the establishment here cannot be less.

(9) Lascais formerly Picottamen. The
duties of these men are similar to those
which they performed in the old hos-
pitals except that they fill the tanks
instead of working the Picottah. They
wash the wards & buildings of the
hospital and of the nurses' quarters.
Fill & clean the tanks, work the drink-
ing water well and carry the water
to the filters in each block. Carry letters
and occasionally patients. If a Dhoby
were kept they could carry patients
from the Dispensary or hospital to the
women's hospital or vice versa.

Their duties are similar to the bearers
of the General Hospital of whom there
are 12. I do not think any reduction
can be made in this item and that
men are at all times well employed
and very necessary.

(10) Mallalchee is necessary to keep the
camp in order.

(11) Native Ayahs. One of these is required
for each of the four blocks and

and one for the cottages. ^{even when} ¹⁰⁶⁵
only three blocks are occupied five
ayahs are desirable as otherwise there
is no relief except by employing
the head native nurse. At present
each has one night off in 6.

Difficultly has been experienced in getting
these women. They complain that
the duties are heavy.

(12) Dhobies. Two are absolutely necessary
and require a good deal of help.

The arrangements for working the
Lamory have already been appended

(13) Mall Policy

1 to fully employed in soaking
linen & keeping the Lamory in order.

3 Look after the latrines, clean the
prepare the dry earth, empty the con-
serving pits into the cart, keep the
ormin in order all over the buildings,
attend to the dead house &c &c. One
of these also attends daily at the

Examine Dispensary where he is required.

(14) Female Porties These women only re-
ceive Rs 4 per mensem. are not
easy to get and give a good deal of
trouble.

1 is permanently employed to assist
the Dhoby washing the cottage linen.

1 is permanently at the detention of the
pregnant women

1 in the labour wards

1 in the cottages

4 are required for the Pauper's pa-
tient's blocks

1 may be required at the cottages
like was a relief to others.

The nurses quarters also require
the partial services of one.

At present there is one at one
night off in two.

For the full working of the hospital
unit will be necessary. For the
present the services of seven may
suffice -

5. By employing only 7 Nurses the
monthly expenditure will be reduced
to Rs 876 an increase of only Rs 1-12.
over the old establishment
