Sir

I have the honor to acknowledge the receipt of your official memorandum of March 22, forwarding a set of photographs of Murawati and Kordapali, which were delivered to me on my arrival in England. I regret that you will convey to the Government of Madras my thanks for the ready compliance with my request to be supplied with them.

2. With reference to para 2 I have to

saying that the negatives of the photographs taken by me have been left in India, and I shall not be able to get them again till the expiration of my furlough - I find however by the photographs that have now been supplied to me that nearly all the important stories have been separately photographed by theappers - From the few photographs that were sent to me in India. (G.O. 23 Feb. 1881. N. 244/1) I understood that only general and panoramic view of the "stupa" had been taken, and that it might

possibly be of use to supplement these by photographs of separate stones - As I now find that these detailed photographs of the more important stories have already been taken, I think that any additional views will not be needed. I am I know true when I wrote my letter of Dec. 1880. I should not have troubled the Government with the suggestion. I have the honor to be,

Your more obedient servant.

Blunt Keble.
