READ THE FOLLOWING PAPER:—

No. 172. From E. C. BUCK, Esq.,
of India, Revenue and Agriculture
(to the Secretary to the
October 1881, Circular No. 5)

Official Secretary to the Government
Department (Agriculture and Horticulture)
Government of Madras, dated Simla, 17th
October 1881, Circular No. 5

It has been reported that the "alkali soil prevalent in North India possesses properties which admit of its employment in the manufacture of glass-beads, and is now being successfully used in glass-making experiments which are being carried on at Awa in the North-Western Provinces. The officer conducting these experiments, however, wishes for a supply of glass-beads for imitation, and the Government of India considers it desirable that every encouragement should be afforded in the matter. I am accordingly to request that, with the permission of His Honor the Acting Governor in Council, you will be good enough to allow the Director of Agriculture and Commerce, Cawnpore, to be supplied before the 1st December next, if possible, with a collection of samples of glass-beads in general demand, or in popular use in any part of the Madras Presidency, or in foreign territory bordering on the Province.

2. The outlay that may be incurred should not exceed Rs. 50 for each Province or foreign territory; and I am to request that the collection should be made in a few of the most important towns and country bazaars, special enquiries being made at the same time as to the class of beads exported to the border countries.

3. It is important that the collection of samples should be priced, and that great care should be taken to see that the actual wholesale price is, if possible, ascertained. The collections should be accompanied by a statement showing which samples are in greatest demand. I am to add that the information need not be delayed by any attempts to show separate statistics under this head.

No. 173. ORDER THEREON, 8th November 1881, No. 1684.

Miscellaneous.

COMMUNICATED to the Superintendent,
Government Central Museum, with
a request that he will arrange for the
supply direct to the Director of Agriculture and Commerce, Cawnpore, of the samples
of glass-beads and the statement desired.

(True Extract.)

(Signed) C. G. MASTER,
Secretary to Government.
