Sir,

Enclosure
Copy of letter
from the
Off^r Secretary to
the Gov^r of India,
Home Dept^t

To

I have the honour to bring to your notice a Book
entitled "Malaria and Injuries of the Spleen"
(written by me - published by Mess^{rs} Thacker, & Spink,
Calcutta), and to solicit ~~your~~ ^{the} consideration and
patronage of The Hon^{ble} the Governor, for this book.
I would invite your attention to the very important
part played by diseases of malarious regions in
the Presidency of Madras (as all over India) as causes
of sickness, invaliding, and death, as well
among the Europeans as the Native & Sepoils
both Civil and Military -
On this ground I would ask The Hon^{ble} the Governor
to encourage study and research on this subject which
so intimately concerns the welfare of the country.
The second Part of the Book consists of an Analysis
and Digest of certain cases of Rupture and Injury
of the Spleen - their causes, effects, and legal bearings.
It will probably have brought itself to your attention
that criminal cases arising out of Rupture of the
Spleen ^{in malarious regions} are of very frequent occurrence in our Indian
Law Courts; and I would urge that it is highly
desirable that a record of ascertained and analysed
facts should be available to assist the Court in
weighing the expressions of individual opinion
as to the medical possibilities of such cases -
in recording evidence

I have the honour to enclose a true copy of

A. Russell M.B.
Sent to subscribe to copy
of a book on "Malaria and
Injuries of the Spleen" which
he has bought me.
From J. Grandlay the
Hon^{ble} the Gov^r of India.
J. Grandlay.

a letter from the Off^d Secretary to the Gov^t of India, Home Dept, showing that that Government has done me the honour to subscribe for some copies of the book.

Finally, I would base my application that the Honble the Governor will subscribe for some copies of the book, on the ground that there is, practically, in India, but a very limited book-buying public for works of a technical scope; and that, without the extraneous assistance of Government, literary efforts of a technical nature tend, in that country, to languish and die a natural death -

I have the honour to be
Sir,

Your most obedient servant
Capt. Russell M.B.

To
THE CHIEF SECRETARY TO GOVERNMENT,
Pukhion DEPARTMENT.

SIR,

With reference to order of Government No. 234 of the 6th December I have the honor to state that as an encouragement to Medical Research I would recommend Government to subscribe for six copies of the work by Mr E. G. Russell on "Malaria and injuries of the spleen".
2 The author was good enough to forward me a copy of his work at the time of publication. It is to the advantage of Government to encourage scientific investigation of obscure diseases by its Medical Officers. and Mr Russell's work, so far as it goes, is creditable to him and useful to the profession.

I have the honor to be
Sir,
Your Most Obedient Servant
