Government of Madras.
Sir,

I have the honor to re-submit the
indent for stores from England for 1882/83.
with the defective columns duly filled up
so far as practicable.
2. Some of the other articles that may
be locally obtained have been struck out
as suggested. As purity is essential in
chemicals indented for, it is desirable that
the supply be procured from the English
market from well known manufacturers.
3. There has been no established propor-
tion in the sense applicable to the supply of
stores to the Medical and Ordnance Depart-
ments. Even the most commonly used arti-
cles, such as acids, have been obtained as they
were required.

I have the honor to be
Sir

I am glad to see that every attempt
has been made to obtain the
best wood stones locally where it
is possible to obtain ^{them} of the requisite
strength & purity. It is much
important that this should be
attended to in all cases where
stones can be obtained as the
local market
